ACTS.

AN ACT AUTHORIZING THE TOWN OF MARBLEHEAD TO LAY OUT AND CONSTRUCT A PUBLIC WAY OVER A PORTION OF WATERSIDE CEMETERY IN SAID TOWN. *Chap. 1*

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. The town of Marblehead, in laying out and constructing a public way between Jersey street and the junction of Green and Beacon streets therein, is hereby authorized to lay out and construct said way upon a portion of Waterside Cemetery, said portion being a strip of not exceeding ten feet along the entire length of the south-easterly side of said cemetery.

SECTION 2. This act shall take effect upon its passage.

Approved January 22, 1935.

AN ACT PLACING THE OFFICE OF CHIEF OF POLICE OF THE TOWN OF MILLIS UNDER THE CIVIL SERVICE LAWS. *Chap. 2*

Be it enacted, etc., as follows:

SECTION 1. The office of chief of police of the town of Millis shall, upon the effective date of this act, become subject to the civil service laws and rules and regulations relating to the appointment and removal of police officers in towns, and the tenure of office of any incumbent thereof shall be unlimited, except that he may be removed in accordance with such laws and rules and regulations; provided, however, that Arthur F. Scholl, the present incumbent of said office, may continue to serve as such without taking a civil service examination.

SECTION 2. This act shall be submitted to the voters of said town at the annual town meeting in the current year in the form of the following question, which shall be placed upon the official ballot to be used for the election of town officers at said meeting: "Shall an act passed by the General Court in the year nineteen hundred and thirty-five, entitled 'An Act placing the office of chief of police of the town of Millis under the civil service laws', be accepted?" If a majority of the votes in answer to said question are in the affirmative, then this act shall thereupon take effect, but not otherwise.

Approved January 28, 1935.

as possible and as secretly as may be to the state prison, but no such order shall authorize the removal as aforesaid of such a convicted person while awaiting execution of sentence for murder in the first degree, after the beginning of the period of ten days preceding the first day of the week appointed for the execution of such sentence. Every such order of removal shall be signed by said commissioner or his deputy and shall be directed to such sheriff or any of his deputies. Any person so ordered to be removed shall be conveyed to the state prison in accordance with the terms of the order of removal by the sheriff or by a deputy designated by him, notwithstanding any other provision of law, and shall, together with said order, be delivered to the warden of the state prison or to the officer performing his duties. Unless lawfully discharged from such confinement, a person so removed shall be kept in a place of safe keeping designated by the warden as hereinafter provided until such time within ten days of the first day of the week appointed for the execution of his sentence as the warden may determine, and shall then be transferred to and thereafter kept in a cell provided for the purpose under authority of section forty-four of chapter two hundred and seventy-nine of the General Laws until sentence of death is executed upon him, subject to the restrictions contained in said section relative to access to persons kept in such cells and subject also to the provisions of said section relative to change of place of confinement in case a sentence of death is respited or otherwise delayed by process of law; provided, that a person so removed shall be produced by the warden, or officer performing his duties, before the superior court at any time upon its order; and provided, further, that the superior court may make any order relative to the custody of a person so removed in case he is granted a new trial. The warden of the state prison, from time to time as occasion may arise, shall designate sections or enclosures in the state prison which shall be used as places for the safe keeping of persons convicted of murder in the first degree who are removed to the state prison as provided in this section. If a person convicted of murder in the first degree has, prior to sentence therefor, been removed to the state prison under this section, the warrant under section forty-three of chapter two hundred and seventy-nine of the General Laws shall, immediately upon sentence, be made out, signed and delivered to the warden of the state prison instead of to the sheriff and no certified copy thereof need be transmitted to the warden. If removal of a person so convicted is sought hereunder after the issue of a warrant for the execution of sentence upon him, the judge imposing sentence may revise the warrant or make any other necessary order.

If sentence is imposed upon conviction of a crime punishable by death, the justice imposing the sentence, or a justice of the supreme judicial court, shall stay the execution of the sentence for definite and stated periods, pending the filing of any claim of appeal, and any justice of the superior court or supreme judicial court shall further stay the execution of the sentence from time to time for definite and stated periods and may modify the order of stay, pending the final disposition of any such appeal. Forthwith upon the making or modification of any such order, the clerk of the court shall transmit a certified copy thereof to the warden of the state prison.

Within ten days of the first day of the week appointed for the execution of his sentence, such convict shall be transferred to and, unless lawfully discharged from such imprisonment, be thereafter kept in a cell provided for the purpose until the sentence of death is executed upon him, and no person shall be allowed access to him without an order of the court, except the officers and employees of the prison, his counsel, and such physicians, priest or minister of religion as the warden may approve, and the members of his family who are identified to the satisfaction of the warden. (b) All persons who are employees on the date when this retirement system becomes operative and who are not then covered by any other pension or retirement law of the commonwealth shall become members as of the first day this retirement system becomes operative, unless on or before a date not more than sixty days thereafter, to be set by the retirement board, any such employee shall file with the retirement board on a form prescribed by the board a notice of his election not to be covered in the membership of the system and a duly executed waiver of all present and prospective benefits which would otherwise inure to him on account of his participation in the retirement system.

(c) An employee who is covered by any other pension or retirement law of the commonwealth on the date when this retirement system becomes operative shall not be considered to have become a member of this retirement system unless said employee shall then or thereafter make written application to join this system and shall therein waive and renounce all benefits of any other pension or retirement system supported wholly by the town, but no such employee shall receive credit for prior service unless he make such application for membership within one year from the date this retirement system becomes operative.

(2) The head of the department shall submit to the retirement board a statement showing the name, title, compensation, duties, date of birth and length of service of each member of the department, and such information regarding other employees therein as the retirement board may require.

(3) Should any member in any period of six consecutive years after last becoming a member be absent from service more than five years, or should any member withdraw his accumulated contributions or become a pensioner hereunder or die, he shall thereupon cease to be a member.

CREDITABLE SERVICE.

SECTION 5. (1) Under such rules and regulations as the retirement board shall adopt, each member who was an employee on the date this retirement system becomes operative, or during the year prior thereto, who becomes a member on or prior to the expiration of the first year of

operation of the retirement system, shall file a detailed statement of all service as an employee rendered by him prior to the day on which the system first became operative for which he claims credit, and of such facts as the retirement board may require for the proper operation of the system.

(2) The retirement board shall fix and determine by appropriate rules and regulations how much service in any year is equivalent to a year of service, but in no case shall more than one year of service be creditable for all service in one calendar year, nor shall the retirement board allow credit as service for any period of more than one month's duration during which the employee was absent without pay.

(3) Subject to the above restrictions and to such other rules and regulations as the retirement board may adopt, the retirement board shall verify, as soon as practicable after the filing of such statements of service, the service therein claimed, and shall certify as creditable all or such part of the service claimed as may be allowable.

(4) Upon verification of the statements of service the retirement board shall issue prior service certificates certifying to each member entitled to credit for prior service the length of service rendered prior to the date the retirement system first became operative, with which he is credited on the basis of his statement of service. So long as membership continues a prior service certificate shall for retirement purposes be final and conclusive as to such service; provided, that within one year from the date of issuance or modification of such certificate it may, after hearing, be modified or corrected.

When membership ceases, except upon retirement for superannuation or disability, such prior service certificates shall become void. Should the employee again become a member, such employee shall enter the system as an employee not entitled to prior service credit except as provided in subsection (3) of section nine.

Conditions for Allowance.

SECTION 6. (1) Any member in service who shall have attained age sixty shall, either upon his own written application or that of the head of the department, be retired for superannuation not less than thirty nor more than ninety days after the filing of such application. A member whose retirement is applied for by the head of the department shall be entitled to a notice of such applica-

tion and to a hearing before the retirement board, provided he requests such hearing in writing within ten days of the receipt of such notice; and unless the retirement board finds, on hearing, that the member is able to properly perform his duties and files a copy of its findings with the head of his department, the retirement shall become effective thirty days from the time of the filing of such finding.

Any member in service who shall have attained age seventy, shall be retired for superannuation not less than thirty nor more than ninety days after attaining such respective ages, or after this system becomes operative, if such respective ages were attained prior thereto.

Amount of Allowance.

(2) Upon retirement for superannuation a member of the retirement system shall receive a retirement allowance consisting of:—

(a) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement, and

(c) If he has a prior service certificate in full force and effect, an additional pension which is the actuarial equivalent of twice the pension which would have been payable under paragraph (b) above, on account of the accumulated contributions which would have resulted from contributions made during the period of his creditable prior service had the system then been in operation, and

(d) If the member was over sixty years of age at the time the retirement system was established, an additional pension which is the actuarial equivalent of the accumulation of four per cent contributions from the date the member attained the age of sixty to the date when the system was established but not beyond the age of seventy, with interest to the date of retirement but not beyond the age of seventy.

The total pension of any member payable under the provisions of this section shall not, however, exceed two thousand dollars nor shall it exceed one half his average annual regular compensation during the five fiscal years immediately preceding his retirement, nor shall the total pension of any member who has fifteen or more years of total creditable service be less than the amount which, added to his annuity, shall make his total retirement allowance equal to four hundred and eighty dollars per annum; nor shall the total pension of any member who upon attaining age seventy has fifteen or more years of total creditable service be less than an amount which added to his annuity shall make his total retirement allowance at such age equal

to one half of his average annual regular compensation during the five years immediately preceding his retirement.

ORDINARY DISABILITY RETIREMENT.

Conditions for Allowance.

SECTION 7. (1) Upon the application of a member in service or of the head of the department, any member who has had twenty or more years of creditable service may be retired by the retirement board, not less than thirty and not more than ninety days next following the date of filing such application, on an ordinary disability retirement allowance; provided, that a physician of the retirement board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity is likely to be permanent, and that such member should be retired.

Amount of Allowance.

(2) Upon retirement for ordinary disability a member shall receive a service retirement allowance if he has attained age sixty; otherwise he shall receive an ordinary disability retirement allowance consisting of: —

(a) An annuity-certain equal to ten per centum per annum of his accumulated contributions at the time of his retirement or to twenty dollars per month, whichever is greater, which shall be payable in equal monthly instalments until such accumulated contributions together with regular interest on the unexpended balance shall be exhausted, and

(b) A pension of ninety per centum of the pension that would have been provided by the town for the member had he remained without further change of compensation in the service of the town until he reached age sixty and then retired.

ACCIDENTAL DISABILITY RETIREMENT.

Conditions for Allowance.

SECTION 8. (1) Upon application of a member in service, or of the head of the department, any member who has been totally and permanently incapacitated for duty as the natural and proximate result of an accident occurring in the performance and within the scope of his duty at some definite time and place, without wilful negligence on his part, shall be retired not less than thirty nor more than ninety days following the date of filing of such application; provided, that a physician of the retirement board, after an examination of such member, shall report that said member is physically or mentally incapacitated for the further performance of duty, that such incapacity is likely to be permanent, and that said member should be retired, and the retirement board shall concur in such report

and find that the physical or mental incapacity is the natural and proximate result of such an accident and that such disability is not the result of wilful negligence on the part of said member and that said member should be retired.

Amount of Allowance.

(2) Upon retirement for accidental disability a member shall receive a service retirement allowance if he has attained age sixty; otherwise he shall receive an accidental disability retirement allowance consisting of:—

(a) An annuity-certain equal to ten per centum per annum of his accumulated contributions at the time of his retirement or to twenty dollars per month, whichever is greater, which shall be payable in equal monthly instalments until such accumulated contributions together with regular interest on the unexpended balance shall be exhausted, and

(b) A pension equal to one half of the average rate of his regular annual compensation for the fiscal year immediately preceding the date of the accident.

RE-EXAMINATION OF PENSIONERS RETIRED ON ACCOUNT OF DISABILITY.

SECTION 9. (1) Once each year during the first five years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the retirement board may, and upon his application shall, require any disability pensioner who has not yet attained age sixty to undergo a medical examination by a physician or physicians designated by the retirement board and approved by the board of selectmen, such examination to be made at the place of residence of said pensioner or other place mutually agreed upon. Should any disability pensioner who has not yet attained the age of sixty refuse to submit to at least one medical examination in any such period of one or three years, as the case may be, his allowance may be discontinued until his withdrawal of such refusal, and should his refusal continue for a year, all his rights in and to his pension shall be revoked by the retirement board.

(2) Should such physician or physicians report and certify to the retirement board that such disability pensioner is engaged in or is able to engage in a gainful occupation paying more than the difference between his retirement allowance and his final regular compensation, and should the retirement board concur in such report, then the amount of his pension shall be reduced to an amount which, together with his annuity-certain and the amount earnable by him, shall equal the amount of his final regular compensation. Should his earning capacity be later changed, the amount of his pension may be further modified; provided, that the new pension shall not exceed the amount of the pension originally granted nor shall it exceed an

amount which, when added to the amount earnable by the pensioner together with his annuity-certain equals the amount of his final regular compensation. A pensioner restored to active service at a salary less than the final regular compensation upon the basis of which he was retired shall not become a member of the retirement system.

(3) Should a disability pensioner be restored to active service at a compensation not less than his final regular compensation, his retirement allowance shall cease, he shall again become a member of the retirement system, and he shall contribute thereafter at the same rate he paid prior to disability. Any balance of the fund held for the payment of his annuity-certain which has not been expended at the time he is restored to full active service as a member shall be credited to his account in the Annuity Savings Fund. Any prior service certificate on the basis of which his service was computed at the time of his retirement shall be restored to full force and effect, and in addition upon his subsequent retirement he shall be credited with all his service as a member.

(4) Should a disability pensioner die before the annuity-certain has expired, the balance of the fund held for the payment of his annuity-certain which has not been expended at the time of his death shall be paid to his designated beneficiary, if living, otherwise to his legal representative, subject to the proviso contained in subsection (2) of section ten.

RETURN OF ACCUMULATED CONTRIBUTIONS.

SECTION 10. (1) Within sixty days after the filing with the retirement board of a request therefor, any member who shall have ceased to be an employee by resignation or discharge or for any reason other than death or retirement under the provisions of this act shall be paid the amount of his accumulated contributions.

(2) Should a member die while an employee, his accumulated contributions shall be paid to his designated beneficiary, if living, otherwise to his legal representative; provided, that if the sum so due does not exceed three hundred dollars, and there has been no demand therefor by a duly appointed executor or administrator, payment may be made, after the expiration of three months from the date of death of such member, to the persons appearing, in the judgment of the retirement board, to be entitled thereto, and such payment shall be a bar to recovery by any other person.

ACCIDENTAL DEATH BENEFIT.

SECTION 11. If, upon receipt by the retirement board of proper proofs of the death of a member, the retirement board shall decide that such death was the natural and proximate result of an accident occurring at some definite

time and place while the member was in the actual performance and within the scope of his duty, and not the result of wilful negligence on his part, and if the deceased member is survived by any of the dependents enumerated below, there shall be paid, in addition to accumulated contributions under subsection (2) of section ten or to any unexpended balance under subsection (4) of section nine, an accidental death benefit consisting of a pension equal to one half the average regular annual compensation received by the deceased member for the fiscal year preceding the date of the accident, said pension to be paid: —

(a) To the dependent husband or wife of the deceased member during life or until remarriage; or

(b) If there be no husband or wife or if the husband or wife dies or remarries before every child of such deceased member shall have attained the age of eighteen years, then to his child or children under such age, divided in such manner as the retirement board in its discretion shall determine, to continue as a joint and survivor pension until every such child dies or attains the age of eighteen years; or

(c) If there be no dependent husband or wife, or child under the age of eighteen years, surviving such deceased member, then to either his dependent father or dependent mother, as the retirement board in its discretion shall determine, to continue for life or until remarriage.

OPTIONAL BENEFITS.

SECTION 12. (1) Subject to the provisions that no optional election shall be effective in case a pensioner dies within thirty days after retirement, and that such a pensioner shall be considered as an active member at the time of death, until the first payment on account of any retirement allowance is made, the member may elect to convert the retirement allowance otherwise provided for in this system into a lesser retirement allowance of equivalent actuarial value payable throughout his life with the provision that: —

Option 1. — If the pensioner dies before having received in annuity payments an amount equal to the present value of the annuity at the date of the member's retirement, the balance shall be paid to such surviving beneficiary as the pensioner shall have nominated by written designation duly acknowledged and filed with the retirement board, or, if there be no beneficiary living, then to the legal representative of the pensioner, without change in the amount of the pension; or

Option 2. — Upon the death of the pensioner, the lesser retirement allowance shall be continued throughout the life of and paid to such surviving beneficiary as the pensioner shall have nominated by written designation duly acknowledged and filed with the retirement board at the date of the member's retirement; or

Option 3. — Upon the death of the pensioner, one half of the lesser retirement allowance shall be continued throughout the life of and paid to such surviving beneficiary as the pensioner shall have nominated by written designation duly acknowledged and filed with the retirement board at the date of the member's retirement.

(2) If the member be an incompetent at the date of retirement, the election of one of the optional benefits provided in this section may be made by the member's wife or husband, or if there be no wife or husband, then by the member's conservator or guardian.

COMPENSATION BENEFITS OFFSET.

SECTION 13. Any amounts paid or payable by the town under the provisions of the workmen's compensation law to a member or to the dependents of a member on account of death or disability shall be offset against and payable in lieu of any benefits payable out of funds provided by the town under the provisions of this act on account of the death or disability of a member. If the value of the total commuted benefits under the workmen's compensation law is less than the reserve on the pension otherwise payable under this act, the value of such commuted payments shall be deducted from such pension reserve and such benefits as may be provided by the pension reserve so reduced shall be payable under the provisions of this act.

ADMINISTRATION.

SECTION 14. (1) The management of the retirement system is hereby vested in a retirement board, the membership of which shall be constituted as follows: —

(a) The treasurer of the town,

(b) One person who shall not be a member of the retirement system and who shall be appointed by the board of selectmen to serve for a term of three years commencing on the date when the retirement system becomes first operative and until the qualification of his successor, and

(c) One person who shall be a member of the retirement system and who shall be appointed by the board of selectmen, to serve for a term of one year, commencing on the date when the retirement system becomes first operative and until the qualification of his successor.

(2) As the terms of office of the appointed members expire, their successors shall be appointed for terms of three years each and until the qualification of their successors. On a vacancy occurring in the appointed membership of the retirement board, for any cause other than the expiration of a term of office, a successor to the person whose place has become vacant shall be appointed for the unexpired term in the same manner as above provided.

(3) The members of the retirement board shall receive such compensation as the board of selectmen shall determine and they shall be reimbursed from the expense fund for any expense or loss of salary or wages which they may incur through service on the retirement board.

(4) The retirement board shall elect from its membership a chairman, and shall by a majority vote of all its members appoint a secretary, who may be, but need not be, one of its members. It shall engage such actuarial and other services as shall be required to transact the business of the retirement system. The funds to meet the costs of administering the retirement system shall be derived from appropriations of the town. The retirement board shall submit an estimate of such costs to the board of selectmen not later than January fifteenth of each year. Such amount as shall be required in the first year of operation to defray the expenses of the establishment and maintenance of the retirement system shall be appropriated by the town.

(5) The retirement board shall keep in convenient form such data as shall be necessary for actuarial valuations of the various funds of the retirement system and for checking the experience of the system.

(6) The retirement board shall keep a record of all of its proceedings, which shall be open to public inspection. It shall publish annually a report showing the transactions of the retirement system for the preceding fiscal year, the amount of accumulated cash and securities of the system, and the last balance sheet showing the financial condition of the system by means of actuarial valuation of the assets and liabilities thereof. The board shall submit said report to the board of selectmen and shall furnish copies thereof to the town clerk for distribution.

Legal Adviser.

(7) The town counsel shall be the legal adviser of the retirement board.

Medical Examinations.

(8) The retirement board, subject to the approval of the board of selectmen, shall appoint a physician and fix his compensation, and said physician shall arrange for and pass upon all medical examinations required under the provisions of this act, shall investigate all essential statements and certificates by or in behalf of a member in connection with an application for disability retirement, and shall report in writing to the retirement board his conclusions and recommendations upon all the matters referred to him. If required, other physicians may be employed by the retirement board to report on special cases.

Duties of Actuary.

(9) The retirement board shall designate an actuary who shall be the technical adviser of the retirement board on matters regarding the operation of the funds created by the provisions of this act, and shall perform such other duties as are required in connection therewith.

(10) Immediately after the establishment of the retirement system the actuary shall make such investigation of the mortality, service and compensation experience of the members of the system as he shall recommend and the retirement board shall authorize, and on the basis of such investigation he shall recommend for adoption by the retirement board such tables and such rates as are required by section fifteen. The retirement board shall adopt tables and certify rates, and as soon as practicable thereafter the actuary shall make a valuation, based on such tables and rates, of the assets and liabilities of the funds created by this act.

(11) Three years after the system becomes operative, and at least once in each five-year period thereafter, the actuary shall make an actuarial investigation into the mortality, service and compensation experience of the members and pensioners of the retirement system, and shall make a valuation of the assets and liabilities of the funds thereof, and taking into account the result of such investigation and valuation the retirement board shall —

(a) Adopt for the retirement system such mortality, service and other tables as shall be deemed necessary; and

(b) Certify the rates of contribution payable by the town on account of new entrants.

(12) On the basis of such tables as the retirement board shall from time to time adopt, the actuary shall make an annual valuation of the assets and liabilities of the reserve funds of the system created by this act.

METHOD OF FINANCING.

SECTION 15. All of the assets of the retirement system shall be credited, according to the purpose for which they are held, to one of the following five funds, namely, the Annuity Savings Fund, the Annuity Reserve Fund, the Pension Accumulation Fund, the Pension Reserve Fund or the Expense Fund.

Annuity Savings Fund.

(1) (a) The Annuity Savings Fund shall be the fund to which shall be paid the deductions from the compensation of members. The treasurer of the town shall withhold four per centum of the regular compensation due on each pay day to all employees who are members of this retirement system. The various amounts so withheld shall be transferred immediately thereafter to the retirement system and credited to the accounts of the respective mem-

bers so contributing, and shall be paid into and become a part of said Annuity Savings Fund.

(b) In determining the amount earnable by a member in a payroll period, the retirement board may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deduction from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period.

(c) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions provided for herein and shall receipt for his full salary or compensation, and the payment of his full salary or compensation less the deductions provided for hereunder shall be considered a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided under this act.

(d) In addition to the contributions deducted from compensation as hereinbefore provided, subject to the approval of the retirement board, any member may re-deposit in the Annuity Savings Fund by a single payment or by an increased rate of contribution an amount equal to the total amount which he previously withdrew therefrom, as provided in this act, or any part thereof; or any member may deposit therein by a single payment or by an increased rate of contribution an amount computed to be sufficient to purchase an additional annuity, which, together with his prospective retirement allowance, will provide for him a total retirement allowance of not more than one half of his salary at age sixty. Such additional amounts so deposited shall be treated as a part of his accumulated contributions, except in the event of his retirement, when they shall not be used to increase the pension payable, and shall be treated as excess contributions returnable to the member in cash or in providing an excess annuity of equivalent actuarial value. The accumulated contributions of a member withdrawn by him or paid to his estate or to his designated beneficiary in event of his death as provided in this act shall be paid from the Annuity Savings Fund. Upon the retirement of a member his accumulated contributions shall be transferred from the Annuity Savings Fund to the Annuity Reserve Fund.

Annuity Reserve Fund.

(2) The Annuity Reserve Fund shall be the fund from which shall be paid all annuities and all benefits in lieu of annuities, payable as provided in this act. Should a

pensioner, retired on account of disability, be restored to active service with a compensation not less than his regular compensation at the time of his last retirement, any unexpended balance of the fund held for the payment of his annuity-certain shall be transferred from the Annuity Reserve Fund to the Annuity Savings Fund, and credited to his individual account therein.

Pension Accumulation Fund.

(3) (a) The Pension Accumulation Fund shall be the fund into which shall be accumulated all reserves for the payment of all pensions and other benefits payable from contributions made by the town, and from which shall be paid all pensions and other benefits on account of members with prior service credit. Contributions to and payments from the Pension Accumulation Fund shall be made as follows: —

(b) On account of each member there shall be paid annually into the Pension Accumulation Fund by the said town, for the preceding fiscal year, a certain percentage of the regular compensation of each member, to be known as the "normal contribution", and an additional percentage of his regular compensation to be known as the "accrued liability contribution". The rates per centum of such contributions shall be fixed on the basis of the liabilities of the retirement system as shown by actuarial valuation. Until the first valuation the normal contribution shall be three and eighty-two hundredths per centum, and the accrued liability contribution shall be five and twenty hundredths per centum, of the regular annual compensation of all members.

(c) On the basis of regular interest and of such mortality and other tables as shall be adopted by the retirement board, the actuary engaged by the board to make each valuation required by this act during the period over which the accrued liability contribution is payable, immediately after making such valuation, shall determine the uniform and constant percentage of the regular compensation of the average new entrant, which if contributed on the basis of compensation of such new entrant throughout his entire period of active service is computed to be sufficient to provide for the payment of any pension payable on his account. The rate per centum so determined shall be known as the "normal contribution" rate. After the accrued liability contribution has ceased to be payable, the normal contribution rate shall be the rate per centum of the regular compensation of all members obtained by deducting from the total liabilities of the Pension Accumulation Fund the amount of the funds in hand to the credit of that fund and dividing the remainder by one per centum of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the retirement board and regular

interest. The normal rate of contribution shall be determined by the actuary after each valuation.

(d) Immediately succeeding the first valuation, the actuary engaged by the retirement board shall compute the rate per centum of the total regular compensation of all members which is equivalent to four per centum of the amount of the total pension liability on account of all members and pensioners which is not dischargeable by the aforesaid normal contribution made on account of such members during the remainder of their active service. The rate per centum originally so determined shall be known as the "accrued liability contribution rate".

(e) The total amount payable in each year to the Pension Accumulation Fund shall be not less than the sum of the rates per centum known as the normal contribution rate and the accrued liability contribution rate of the total compensation earnable by all members during the preceding year; provided, that the amount of each annual accrued liability contribution shall be at least three per centum greater than the preceding annual accrued liability payment, and that the aggregate payments of the town shall be sufficient when combined with the amount in the fund to provide the pensions and other benefits payable out of the fund during the year then current.

(f) The accrued liability contribution shall be discontinued as soon as the accumulated reserve in the Pension Accumulation Fund shall equal the present value, as actuarially computed and approved by the retirement board, of the total liability of such fund less the present value, computed on the basis of the normal contribution rate then in force, of the prospective normal contributions to be received on account of persons who are at that time members.

(g) All pensions, and benefits in lieu thereof, with the exception of those payable on account of members who receive no prior service allowance, payable from contributions of the town, shall be paid from the Pension Accumulation Fund.

(h) Upon the retirement of a member not entitled to credit for prior service, an amount equal to his pension reserve shall be transferred from the Pension Accumulation Fund to the Pension Reserve Fund.

Pension Reserve Fund.

(4) The Pension Reserve Fund shall be the fund from which shall be paid the pensions to members not entitled to credit for prior service and benefits in lieu thereof. Should such a pensioner, retired on account of disability, be restored to active service with a compensation not less than his average regular compensation for the year preceding his last retirement, the pension reserve thereon shall be transferred from the Pension Reserve Fund to the Pension Accumulation Fund. Should the pension of a dis-

ability pensioner be reduced as a result of an increase in his earning capacity, the amount of the annual reduction in his pension shall be paid annually into the Pension Accumulation Fund during the period of such reduction.

Expense Fund.

(5) The Expense Fund shall be the fund to which shall be credited all money appropriated by the town to pay the administration expenses of the retirement system, and from which shall be paid all the expenses necessary in connection with the administration and operation of the system.

Appropriations.

(6) (a) On or before the fifteenth day of January in each year the retirement board shall certify to the board of selectmen the amount of the appropriations required for the current calendar year to maintain the funds for all the benefits provided under this act and items of appropriation providing for such amounts shall be included in the budget.

(b) To cover the requirements of the system for the period prior to the date when the first regular appropriation is due, as provided by paragraph (a) of this subsection, such amounts as shall be necessary to cover the needs of the system shall be paid into the Pension Accumulation Fund and the Expense Fund by special appropriations to the system.

MANAGEMENT OF FUNDS.

SECTION 16. (1) The retirement board shall invest the funds of the retirement system in such securities as are approved from time to time by the bank commissioner for the investment of the funds of savings banks under the laws of the commonwealth and in deposits in such banks.

(2) The retirement board shall annually allow regular interest on the average balance for the preceding fiscal year to the credit of the various funds from the interest and dividends earned from investments. Any excess earnings over the amount so credited shall be used for reducing the amount of contributions required of the town during the ensuing fiscal year. Any deficiency shall be paid by the town during the ensuing fiscal year.

(3) The treasurer of the town shall be custodian of the several funds. All payments from said funds shall be made by him only upon vouchers signed by one member of the retirement board and approved by the town accountant and the board of selectmen. A duly attested copy of a resolution of the retirement board designating such member and bearing upon its face a specimen signature of such member shall be filed with the treasurer as his authority for making payments upon such vouchers. No voucher shall be drawn unless it shall have been previously authorized by resolution of the retirement board.

(4) For the purpose of meeting disbursements for pensions, annuities and other payments an amount of money, not exceeding ten per centum of the total amount in the several funds of the retirement system, may be kept on deposit in one or more banks or trust companies organized under the laws of the commonwealth or of the United States; provided, that the sum on deposit in any one bank or trust company shall not exceed ten per centum of the paid-up capital and surplus thereof.

(5) The retirement board may, in its discretion, transfer to or from the Pension Accumulation Fund the amount of any surplus or deficit which may develop in the reserves creditable to the Annuity Reserve Fund or the Pension Reserve Fund, as shown by actuarial valuation.

(6) Except as otherwise provided herein, no member and no employee of the retirement board shall have any direct interest in the gains or profits of any investment made by the retirement board, nor as such receive any pay or emolument for his services. No member or employee of the retirement board shall, directly or indirectly, for himself or as an agent, in any manner use any of the securities or other assets of the retirement board, except to make such current and necessary payments as are authorized by the retirement board; nor shall any member or employee of the retirement board become an endorser or surety or in any manner an obligor for moneys loaned by or borrowed from the retirement system.

(7) The retirement board may at any time in its discretion, with the approval of the commissioner of insurance, elect to have underwritten and guaranteed by an insurance company or companies approved by him any or all of the benefits included in the retirement system. Any payment of premium to an insurance company in consideration of the insurance company's guarantee to fulfill certain obligations assumed shall be deemed not inconsistent with the provisions of the retirement plan relating to management and investment of funds under the retirement system.

(8) Each member of the retirement board, and the treasurer of the town in his capacity as custodian of the several funds, shall severally give bond for the faithful performance of his duties in a sum and with sureties or surety approved by the board of selectmen.

EXEMPTION OF FUNDS FROM TAXATION AND EXECUTION.

SECTION 17. The pensions, annuities and retirement allowances and the accumulated contributions and the cash and securities in the funds created by this act are hereby exempted from any state, county or municipal tax of this commonwealth, and shall not be subject to execution or attachment by trustee process or otherwise, in law or in equity, or under any other process whatsoever, and shall be non-assignable except as specifically provided in this act.

RECEIPT OF BOTH RETIREMENT ALLOWANCE AND SALARY
FORBIDDEN.

SECTION 18. No pensioner of the retirement system shall be paid for any service, except service as a juror and such service as he may be called upon to perform in the department in a time of public emergency, rendered by him to the town after the date of the first payment of any retirement allowance hereunder, except as provided in section nine of this act, and except as further provided in this section.

Notwithstanding the above provision, a pensioner may be employed, for periods of not exceeding one year at a time, with the approval of the board of selectmen, and may receive compensation from the town for the services so rendered; provided, that the annual rate of compensation paid, together with the retirement allowance received, shall not exceed the regular compensation of the said pensioner at the time of retirement.

RIGHT OF APPEAL.

SECTION 19. The supreme judicial court shall have jurisdiction in equity upon the petition of the retirement board or any interested party or upon the petition of not less than ten taxable inhabitants of the town to compel the observance and restrain any violation of this act and the rules and regulations authorized or established thereunder.

TENURE UNAFFECTED.

SECTION 20. Nothing contained in this act shall affect the right or power of the town or other duly constituted authority in regard to demotion, transfer, suspension or discharge of any employee.

INCONSISTENT ACTS.

SECTION 21. Any of the provisions of any act or parts of acts inconsistent herewith shall, on and after the effective date of this act, apply only to such employees of the town as are, on said effective date, entitled to the benefits thereof. Nothing herein contained shall be construed as affecting the provisions of sections forty-nine to sixty, inclusive, or of section ninety-two, of chapter thirty-two of the General Laws.

DATE ACT EFFECTIVE.

SECTION 22. This act shall take full effect upon its acceptance by the town of Milford by a majority vote of the town meeting members present and voting thereon at any town meeting called within two years of the passage of this act, but not otherwise. *Approved March 8, 1935.*

Said town shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with the provisions of section five; and when a vote to that effect has been passed, a sum which, with the income derived from the water rates, will be sufficient to pay the annual expense of operating its water works or the purchasing of water and the maintenance of its pipe lines, as the case may be, and the interest as it accrues on the bonds or notes issued as aforesaid, and to make such payments on the principal as may be required under the provisions of this act, shall without further vote be assessed by the assessors of said town annually thereafter in the same manner as other taxes, until the debt incurred by the said loan or loans is extinguished.

SECTION 7. Whoever wilfully or wantonly corrupts, pollutes or diverts any of the waters taken or held under this act, or injures any structure, work or other property owned, held or used by said town under the authority and for the purposes of this act, shall forfeit and pay to said town three times the amount of damages assessed therefor, to be recovered in an action of tort; and upon conviction of any one of the above wilful or wanton acts shall be punished by a fine of not more than three hundred dollars or by imprisonment for not more than one year.

SECTION 8. The selectmen of said town shall serve as water commissioners until the election and qualification of water commissioners at the annual meeting in nineteen hundred and thirty-six or at such later date, if any, as the town may elect water commissioners. Whenever the phrase "said board of water commissioners" or "said board" or "said commissioners" occurs in this act it shall mean and

include the board of water commissioners or the selectmen acting as such, as the case may be. Said town shall at the annual meeting in nineteen hundred and thirty-six or at such later date, if any, as it may vote at a meeting called for the purpose elect by ballot three persons to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the next succeeding annual town meeting, to constitute a board of water commissioners; and at the annual town meeting held on the day on which the shortest of such terms expires, and at each annual town meeting thereafter, one such commissioner shall be elected by ballot for the term of three years. All the authority granted to the town by this act, except sections five and six, and not otherwise specially provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as said town may impose by its vote. A majority of said commissioners shall constitute a quorum for the transaction of business. After the election of a board of water commissioners under authority of this section, any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said town at any legal town meeting called for the purpose. Any such vacancy may be filled temporarily in the manner provided by section eleven of chapter forty-one of the General Laws, and the person so appointed shall perform the duties of the office until the next annual meeting of said town or until another person is qualified.

SECTION 9. Said commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as the water commissioners, with the approval of the town, may determine upon, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. All authority vested in said commissioners by the foregoing provisions of this section and by section three shall be subject to the provisions of section eight. Said commissioners shall annually, and as often as the town may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of the receipts and expenditures.

SECTION 10. This act shall take effect upon its acceptance by a majority of the voters of the town of Harwich present and voting thereon at a town meeting called for

the purpose within three years after its passage; but the number of meetings so called in any year shall not exceed three.

AN ACT PERFECTING PROVISIONS OF LAW REGULATING THE NON-CRIMINAL DISPOSITION OF PARKING VIOLATIONS, SO CALLED.

Chap. 176

Whereas, The deferred operation of this act would defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public safety and convenience.

Emergency preamble.

Be it enacted, etc., as follows:

Chapter ninety of the General Laws is hereby amended by striking out section twenty A, as appearing in section one of chapter three hundred and sixty-eight of the acts of nineteen hundred and thirty-four, and inserting in place thereof the following:—*Section 20A.* It shall be the duty of any police officer who takes cognizance of a violation of any provision of any rule, regulation, order, ordinance or by-law regulating the parking of motor vehicles established by any city or town or by any commission or body empowered by law to make such rules or regulations therein, forthwith to give to the offender a notice to appear before the clerk of the district court having jurisdiction, at any time during office hours not later than ten days after the time of said violation. Such notice shall be made in triplicate, and shall contain the name and address of the offender and, if served with notice in hand at the time of such violation, the number of his license, if any, to operate motor vehicles; the registration number of the vehicle involved, the time and place of the violation, the specific offence charged, and the time and place for appearance.

G. L. (Ter. Ed.), 90, § 20A, etc., amended.

Non-criminal disposition of certain parking violations.

Such notice shall be signed by the officer, and shall be signed by the offender whenever practicable in acknowledgment that the notice has been received. The officer shall if possible deliver to the offender at the time and place of the violation a copy of said notice. Whenever it is not possible to deliver a copy of said notice to the offender at the time and place of the violation, said copy shall be sent by the officer within twenty-four hours of the offence by registered mail directed to the address of the registrant of the motor vehicle involved, as appearing in the records of the registry of motor vehicles. At the completion of each tour of duty the officer shall give to his commanding officer two copies of each notice delivered or mailed as aforesaid. Said commanding officer shall retain and safely preserve one of said copies, and shall, at a time not later than the beginning of the next court day, deliver the other copy remaining in his possession to the clerk of the court before whom the offender has been notified to appear.

The clerk of each district court shall maintain a separate docket of all such notices to appear. In case any offender fails to appear in accordance with such notice issued to him, the clerk shall notify the registrar, who shall forthwith suspend the right of such person to operate motor vehicles, or his license, if any, to operate the same, and shall not reinstate such right or license or issue a renewal thereof to such person until after notice from the clerk of the court disposing of the resulting criminal case that the same has been disposed of in accordance with law.

Any person notified to appear before the clerk of a district court as provided herein, instead of appearing personally may appear through any person duly authorized by him in writing. Any such offender, or in his absence a person authorized, may request the clerk of the court that the offence charged be taken for confessed, and if it appears that it is the first offence charged against such offender for a violation of any provision mentioned in this section committed within the jurisdiction of such court within a calendar year, said clerk shall dismiss the charge without payment of any fine or forfeiture, which proceedings shall not be deemed criminal, and shall warn the offender or person authorized, as the case may be, that the offender will be subject to a fine or forfeiture for another such offence committed within such calendar year, and if it appears that it is a second or third offence as aforesaid so committed within such calendar year, the offender or person authorized may pay to said clerk one dollar, in case of such second offence, or two dollars, in case of such third offence. Whenever it becomes necessary to ascertain whether a person owning two or more motor vehicles is chargeable as such owner with a first, second, third, fourth or subsequent offence hereunder, such question shall, in the case of vehicles singly registered, be determined separately with respect to the particular vehicle involved in

such violation and, in the case of vehicles subject to section five, with respect to the particular register number plates used on the vehicle involved in such violation at the time thereof.

The payment of the fine or forfeiture to the clerk of the court in the manner herein provided shall operate as a final disposition of the case, and the proceedings shall not be deemed criminal.

Should any person notified to appear hereunder fail to appear and, if a fine or forfeiture is provided hereunder, to pay the same, or having appeared shall desire not to avail himself of the benefits of the procedure established by this section, or should the charge be the fourth or subsequent offence charged against such person for a violation of any provision mentioned in this section committed within the jurisdiction of the district court within a calendar year, the clerk shall as soon as may be notify the officer concerned, who shall forthwith make a complaint and follow the procedure established for criminal cases. The clerk of any court finally disposing of such a criminal case instituted because of failure to appear and, if a fine or forfeiture is provided hereunder, to pay the same, as hereinbefore provided, shall forthwith notify the registrar that such case has been so disposed of. The notice to appear, provided herein, shall be printed in such form as the chief justice of the municipal court of the city of Boston may prescribe for said court and as the administrative committee of district courts as created by section forty-three A of chapter two hundred and eighteen may prescribe for district courts other than said municipal court. The clerks of the district courts shall distribute such notices to the commanding officers of police departments upon request, and shall take a receipt therefor.

Be it enacted, etc., as follows:

SECTION 1. The inhabitants of the town of Monroe, liable to taxation in said town and residing within the territory enclosed by the following boundary lines, to wit: — Beginning at a point on the west bank of the Deerfield river where the towns of Rowe, Florida and Monroe join; thence westerly along the town line between Monroe and Florida to the bank of the canal owned by the New England Power Company; thence northerly along the east bank of the canal to the point where the canal crosses the road between Hoosac tunnel and Monroe bridge; thence straight west to the top of the high cliff overlooking

Monroe bridge and the Deerfield river; thence northerly along the top of the ridge to the state line between Vermont and Massachusetts; thence east along the state line to the west shore of Sherman reservoir; thence southerly along the west shore of said reservoir and the west bank of the Deerfield river to the point first mentioned, — shall constitute a water district, and are hereby made a body corporate, by the name of the Monroe Water District, hereinafter called the district, for the purpose of supplying themselves with water for the extinguishment of fires and for domestic and other purposes, with power to establish fountains and hydrants and to relocate and discontinue the same, to regulate the use of such water and to fix and collect rates to be paid therefor, and for the purposes of assessing and raising taxes as provided herein for the payment of such services, and for defraying the necessary expenses of carrying on the business of said district, subject to all general laws now or hereafter in force relating to such districts, except as otherwise provided herein. The district shall have power to prosecute and defend all actions relating to its property and affairs.

SECTION 2. For the purposes aforesaid, the district, acting by and through its board of water commissioners hereinafter provided for, may contract with any municipality, acting through its water department, or with any water company, or with any water district, for whatever water may be required, authority to furnish the same being hereby granted, and may take by eminent domain under chapter seventy-nine of the General Laws, or acquire by lease, purchase or otherwise, and hold, the waters, or any portion thereof, of any pond, spring or stream, or of any ground sources of supply by means of driven, artesian or other wells, within the town of Monroe not already appropriated for the purposes of a public supply, and the water rights connected with any such water sources; and for said purposes may take as aforesaid, or acquire by purchase or otherwise, and hold, all lands, rights of way and other easements necessary for collecting, storing, holding, purifying and preserving the purity of the water and for conveying the same to any part of said district; provided, that no source of water supply or lands necessary for preserving the quality of the water shall be so taken or used without first obtaining the advice and approval of the department of public health, and that the location and arrangement of all dams, reservoirs, wells, pumping and filtration plants and such other works as may be necessary in carrying out the provisions of this act shall be subject to the approval of said department. Said district may construct and maintain on the lands acquired and held under this act proper dams, wells, reservoirs, standpipes, tanks, pumping plants, buildings, fixtures and other structures, including also the establishment and maintenance of filter beds and purification works or systems, and may make

excavations, procure and operate machinery and provide such other means and appliances, and do such other things as may be necessary for the establishment and maintenance of complete and effective water works; and for that purpose may construct, lay and maintain aqueducts, conduits, pipes and other works under or over any land, water courses, railroads, railways and public or other ways, and along such ways, in said town, in such manner as not unnecessarily to obstruct the same; and for the purposes of constructing, laying, maintaining, operating and repairing such conduits, pipes and other works, and for all proper purposes of this act, the district may dig up or raise and embank any such lands, highways or other ways in such manner as to cause the least hindrance to public travel on such ways; provided, that all things done upon any such way shall be subject to the direction of the selectmen of the town of Monroe. Said district shall not enter upon, construct or lay any conduit, pipe or other works within the location of any railroad corporation except at such time and in such manner as it may agree upon with such corporation, or, in case of failure so to agree, as may be approved by the department of public utilities. Said district may enter upon any lands for the purpose of making surveys, test pits and borings, and may take or otherwise acquire the right to occupy temporarily any lands necessary for the construction of any work or for any other purpose authorized by this act.

SECTION 3. Any person sustaining damages in his property by any taking under this act or any other thing done under authority thereof may recover such damages from the district under said chapter seventy-nine; but the right to damages for the taking of any water, water right or water source, or for any injury thereto, shall not vest until water is actually withdrawn or diverted under authority of this act.

SECTION 4. For the purposes of paying the necessary expenses and liabilities incurred under the provisions of this act, other than expenses of maintenance and operation, the district may borrow from time to time such sums as may be necessary, not exceeding, in the aggregate, twenty thousand dollars, and may issue bonds or notes therefor, which shall bear on their face the words, Monroe Water District Loan, Act of 1935. Each authorized issue shall constitute a separate loan, and such loans shall be payable in not more than thirty years from their dates. Indebtedness incurred under this act shall be subject to chapter forty-four of the General Laws.

SECTION 5. The district shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with section four of this act; and when a vote to that effect has been passed a sum which, with the income derived from water rates, will be sufficient to pay the annual expense of operating its water works, or the purchasing

of water and the maintenance of its pipe lines, and the interest as it accrues on the bonds or notes issued as aforesaid by the district, and to make such payments on the principal as may be required under the provisions of this act, shall without further vote be assessed upon the district by the assessors of said town of Monroe annually thereafter until the debt incurred by said loan or loans is extinguished.

SECTION 6. Any land taken or acquired under this act shall be managed, improved and controlled by the board of water commissioners hereinafter provided for, in such manner as they shall deem for the best interest of the district. All authority vested in said commissioners by this section shall be subject to the provisions of section nine.

SECTION 7. Whenever a tax is duly voted by the district for the purposes of this act, the clerk shall send a certified copy of the vote to the assessors of the town of Monroe, who shall assess the same on the property within the district in the same manner in all respects in which town taxes are required by law to be assessed. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of the district. The district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. The first meeting of the voters of the territory included within the district by section one of this act shall be called, on petition of ten or more legal voters therein, by a warrant from the selectmen of the town of Monroe or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. After the choice of a moderator for the meeting, the question of the acceptance of this act shall be submitted to the voters, and, if it is accepted by a majority of the voters present and voting thereon, it shall take effect, and the meeting may then proceed to act on the other articles in the warrant.

SECTION 9. The district shall elect by ballot, either at the same meeting at which this act is accepted or at a later meeting called for the purpose, three persons to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual meeting thereafter one such commissioner shall be elected by ballot for the term of three years. All

the authority granted to the district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said commissioners are first elected and at each annual district meeting, the district shall elect by ballot a treasurer of the district, who shall be other than a commissioner, and who shall give bond to the district in such an amount as may be fixed by the commissioners and with a surety company authorized to transact business in the commonwealth as surety. A majority of the commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by the district at any legal meeting called for the purpose. No money shall be drawn from the treasury of the district on account of the water works except upon a written order of said commissioners or a majority of them.

SECTION 10. Said commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said commissioners shall annually, and as often as the district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. The district may adopt by-laws prescribing by whom and how meetings may be called, notified, and conducted; and, upon the application of ten or more legal voters in the district, meetings may also be called by warrant as provided in section eight. The district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper. The district shall have all the rights and privileges conferred by law upon water districts and fire districts, so far as applicable.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, standpipe, aqueduct, pipe or other property owned or used by the district for any of the purposes of this act, shall forfeit and pay to the district three times the amount of

damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be punished by a fine of not more than one hundred dollars or by imprisonment in jail for not more than six months.

SECTION 13. Upon a petition in writing addressed to said commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district be included within the limits thereof, and signed by the owners of such real estate, or a major portion thereof, said commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 14. This act shall take full effect upon its acceptance by a majority vote of the voters of the district present and voting thereon at a district meeting called, in accordance with the provisions of section eight, within three years after its passage; but it shall become void unless said district shall begin to distribute water to consumers within three years after the date of the acceptance of this act as aforesaid. *Approved April 17, 1935.*

Such cancellation and credit may be made even if the amount of the loan will not thereby be reduced as to principal. Thereupon new shares in the current series shall be issued to the shareholder in the proportion of one share to each two hundred dollars of the loan then remaining unpaid. Neither the note evidencing the loan nor the mortgage securing the same shall be prejudiced by the application of the value and the change of shares, notwithstanding the fact that a provision for such application and change was not originally made in the note or mortgage, and both note and mortgage shall continue to be held by the bank as good and sufficient security for the balance remaining unpaid.

After the application of the value as a credit, the amount of the loan shall forthwith be reduced to an equal extent, and the owner shall thereafter be liable for only the reduced amount and any arrearages or penalties occasioned by his own default.

No action under this section shall affect the rights of the holder, other than the corporation granting the accommodation, of any mortgage recorded prior to May first, nineteen hundred and thirty-five, unless the written assent of such holder shall be obtained, nor shall any such action affect the rights of an original borrower whose note is dated prior to said date, unless his written assent shall be obtained.

The aggregate value of loans made by a bank under this act shall at no time be in excess of twenty-five per cent of the aggregate amount of all loans secured by mortgages of real estate held by such bank.

In cases of extraordinary emergency or extraordinary public requirement, this section shall not apply to employers engaged in public service or in other kinds of business in which shifts may be required as hereinbefore stated; but no such emergency or public requirement shall justify a variance from the pre-

Each authorized issue shall constitute a separate loan, and such loans shall be payable in not more than thirty years from their dates. Indebtedness incurred under this act shall be subject to

Said district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. The first meeting of the voters of the territory included within said district by section one of this act shall be called on petition of ten or more legal voters therein, by a warrant from the selectmen of said

town, or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. After the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by two thirds of the voters present and voting thereon it shall take full effect, and the meeting may then proceed to act on the other articles in the warrant.

SECTION 9. Said district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act is accepted or at a special meeting thereafter called for the purpose, three persons to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual meeting thereafter one such commissioner shall be elected by ballot for a term of three years. All the authority granted to said district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said commissioners are first elected and at each annual district meeting, the commissioners shall elect by ballot a treasurer of the district, who may be a commissioner, and who shall give bond to the district in such an amount as may be fixed by the commissioners and with a surety company authorized to transact business in the commonwealth as surety. A majority of the commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said district at any legal meeting called for the purpose. No money shall be drawn from the treasury of said district on account of the water works except upon a written order of said commissioners or a majority of them.

SECTION 10. Said commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said commissioners may recommend, and in case a surplus

should remain after payment for such new construction the water rates shall be reduced proportionately. Said commissioners shall annually, and as often as the district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. The district may adopt by-laws prescribing by whom and how meetings may be called, notified, and conducted; and, upon the application of ten or more legal voters in the district, meetings may also be called by warrant as provided in section eight. The district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper. The district shall have all the rights and privileges conferred by law upon water districts, so far as applicable.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, standpipe, aqueduct, pipe or other property owned or used by the district for any of the purposes of this act, shall forfeit and pay to the district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be punished by a fine of not more than one hundred dollars or by imprisonment in jail for not more than six months.

SECTION 13. Upon a petition in writing addressed to said commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district be included within the limits thereof, and signed by the owners of such real estate, or a major portion thereof, said commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 14. This act shall take full effect upon its acceptance by a two thirds vote of the voters of the territory included within said district by section one of this act present and voting thereon at a district meeting called, in accordance with the provisions of section eight, within four years after its passage; but it shall become void unless said district shall begin to distribute water to consumers within two years after its acceptance as aforesaid.

SECTION 5. Said district shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with section four of this act; and when a vote to that effect has been passed, a sum which, with the income derived from water rates, will be sufficient to pay the annual expense of operating its water works and the interest as it accrues on the bonds or notes issued as aforesaid by the district, and to make such payments on the principal as may be required under the provisions of this act, shall without further vote be assessed upon said district by the assessors of said town of Chelmsford annually thereafter until the debt incurred by said loan or loans is extinguished.

SECTION 6. Any land taken or acquired under this act shall be managed, improved and controlled by the commissioners hereinafter provided for, in such manner as they shall deem for the best interest of the district.

SECTION 7. Whenever a tax is duly voted by said district for the purposes of this act, the clerk shall send a certified copy of the vote to the assessors of said town, who shall assess the same in the same manner in all respects in which town taxes are required by law to be assessed; provided, that no estate shall be subject to any tax assessed on account of the system of water supply under this act if, in the judgment of the board of water commissioners hereinafter provided for, after a hearing, such estate is so situated that it can receive no aid in the extinguishment of fire from the said system of water supply, or if such estate is so situated that the buildings thereon, or the buildings that might be constructed thereon, in any ordinary or reasonable manner could not be supplied with water from the said system; but all other estates in said district shall be deemed to be benefited and shall be subject to the tax. A certified list of the estates exempt from taxation under

the provisions of this section shall annually be sent by the board of water commissioners to the assessors, at the same time at which the clerk shall send a certified copy of the vote as aforesaid. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of said district. Said district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. The first meeting of said district shall be called, within four years after the passage of this act, on petition of ten or more legal voters therein, by a warrant from the selectmen of said town, or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. After the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by two thirds of the voters present and voting thereon it shall take effect, and the meeting may then proceed to act on the other articles in the warrant.

SECTION 9. Said district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act is accepted or at a special meeting thereafter called for the purpose, three persons to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual meeting after such next succeeding annual district meeting one such commissioner shall be elected by ballot for the term of three years. All the authority granted to said district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. Said commissioners shall appoint a treasurer of said district, who may be one of their number, who shall give bond to said district in such an amount as may be approved by the commissioners. A majority of the commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said district at any legal meeting called for the purpose. No money shall be drawn from the treasury of said district on account of the water works except upon a written order of said commissioners or a majority of them.

SECTION 10. Said commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said commissioners shall annually, and as often as said district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. Said district may adopt by-laws prescribing by whom and how meetings may be called, notified and conducted; and, upon the application of ten or more legal voters in said district meetings may also be called by warrant as provided in section eight. Said district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with law, and may choose such other officers not provided for in this act as it may deem necessary or proper.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, standpipe, aqueduct, pipe or other property owned or used by said district for any of the purposes of this act shall forfeit and pay to said district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above acts shall be punished by a fine not exceeding one hundred dollars or by imprisonment in jail for not more than twelve months.

SECTION 13. This act shall take full effect upon its acceptance by a two thirds vote of the voters of said district present and voting thereon at a district meeting called, in accordance with the provisions of section eight, within four years after its passage; but it shall become void unless said district shall begin to distribute water to consumers within two years after its acceptance as aforesaid.

SECTION 14. Upon a petition in writing addressed to said commissioners by any owner of real estate in said town, abutting on said district, setting forth that the petitioner desires to have certain accurately described portions of his real estate included in said district, said commissioners shall cause a duly warned meeting of said district to be called at which meeting the voters may vote on the question of including said real estate within said district. If a majority of the voters present and voting thereon vote in the affirmative, the district clerk shall within ten days file with the town clerk of said town and with the state

secretary an attested copy of said petition and vote, describing precisely the real estate added to said district; and thereupon said real estate shall become and be a part of said district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

The division of the town into voting precincts and any revision of such precincts shall take effect upon the date of the filing of the report thereof by the selectmen with the town clerk. Whenever the precincts are established or revised, the town clerk shall forthwith give written notice thereof to the state secretary, stating the number and designation of the precincts. The registered voters in every precinct shall, at a special election called for that purpose, to be held not sooner than thirty days after the establishment of precincts under this act, or at the first annual town election held after the establishment thereof, and at the first annual town election following any precinct revision where the number of precincts is changed, conformably to the laws relative to elections not inconsistent with this act, elect by ballot the number of registered voters in the precinct, other than the officers designated in section three as town meeting members at large, provided for in the first sentence of this section, to be town meeting members of the town. A town meeting member may resign by filing a written resignation with the town clerk, and such resignation shall take effect upon the date of such filing. No elected member whose official position entitles him to be a member at large shall act as a member at large during such times as he remains an elected member. A town meeting member who removes from the town shall cease to be a town meeting member and an elected town meeting member who removes from one precinct to another or is so removed by a revision of precincts shall not retain membership after the next annual election.

SECTION 4. Nomination of candidates for town meeting members to be elected under this act shall be made by nomination papers which shall bear no political designation, but to the name of a candidate for re-election there may be added the words "Candidate for Re-election". Nomination papers shall be signed by not less than ten registered voters of the precinct in which the candidate is nominated for office and filed with the town clerk at least ten days before the election. No nomination papers shall be valid in respect to any candidate unless his written acceptance is filed therewith.

SECTION 5. All articles in the warrant for every town meeting, so far as they relate to the election of the town moderator, town officers and town meeting members, and, as herein provided, to referenda and all matters to be acted upon and determined by ballot, shall be so acted upon and

Nominations for moderator and his election shall be as in the case of other elective town officers, and any vacancy in such office may be filled by the town meeting members at a representative town meeting held for that purpose. If a moderator is absent, a moderator pro tempore may be elected by the town meeting members.

SECTION 7. In the event of any vacancy in the full number of elected town meeting members from any precinct the remaining elected members of the precinct may choose from among the registered voters thereof a successor to serve until the next annual town election. The town clerk may, and upon a petition therefor signed by not less than five elected town meeting members from the precinct shall, call a special meeting for the purpose of filling such vacancy and shall mail a notice thereof to the remaining elected members from the precinct specifying the object and the time and place of such meeting which shall be held not less than four days after the mailing of such notice. exclusive of Sundays and holidays, from the dissolution of the meeting. If, within said five days, a petition, signed by not less than five per cent of the registered voters of the town, containing their names and addresses as they appear on the list of registered voters, is filed with the selectmen asking that the question or questions involved in such a vote be submitted to the registered voters of the town at large, then the selectmen, after the expiration of five days, shall forthwith call a special meeting for the sole purpose of presenting to the registered voters at large the question or questions so involved. The polls shall be opened at two o'clock in the afternoon and shall be closed not earlier than eight o'clock in the evening, and all votes upon any questions so submitted shall be taken by ballot, and the check list shall be used in the several precinct meetings in the same manner as in the election of town officers. SECTION 11. The representative town meeting may appoint such committees of its members for investigation and report as it may consider necessary.

SECTION 13. This act shall not abridge the right of the inhabitants of Adams to hold general meetings, as that right is secured to them by the constitution of this commonwealth; nor shall this act confer upon any representative town meeting in Adams the power finally to commit the town to any measure affecting its municipal existence or changing its government, without action thereon by the voters of the town at large, using the ballot and the check list therefor.

SECTION 14. This act shall be submitted to the registered voters of the town of Adams at any annual town meeting. The vote shall be taken by ballot in accordance with the provisions of the General Laws, so far as the same shall be applicable, in answer to the question, which shall be placed upon the official ballot to be used for the election of town officers: "Shall an act passed by the General Court in the year nineteen hundred and thirty-five, entitled 'An Act establishing in the town of Adams representative town government by limited town meetings,' be accepted by this town?"

Policy, etc., not to be forfeited after payment of six months' premiums.

G. L. (Ter. Ed.), 178, new section 11A, added.

Application of preceding section.

SECTION 3. Said chapter one hundred and seventy-eight is hereby further amended by inserting after section eleven, as so appearing, the following new section: — *Section 11A.* Section eleven shall not apply to annuity or pure endowment contracts with or without return of premiums, or of premiums and interest, whether simple or

compound, or to survivorship annuity contracts or survivorship insurance policies, and, in the case of a policy providing for both insurance and an annuity, shall apply only to that part of the policy providing for insurance; but every such policy providing for a deferred annuity on the life of the insured only shall, unless paid for by a single premium, provide that, in the event of the non-payment of any premium after six months' premiums shall have been paid, the annuity shall automatically become converted into a paid-up annuity for such proportion of the original annuity as the period for which premiums have been paid bears to the total period for which premiums are required to be paid under the policy.

SECTION 4. Section fifteen of said chapter one hundred and seventy-eight, as so appearing, is hereby amended by striking out, in the fortieth line, the word "actuarial", — and by striking out, in the forty-first and forty-second lines, the words "including an annual and other valuations of their policies," — so as to read as follows:— *Section 15.* The state actuary, appointed under section eleven of chapter twenty-six, with the advice of the attorney general as to matters of legal form, shall prepare standard forms of life insurance policies and life annuity contracts, including a whole life policy, a limited payment life policy, a limited term policy, an endowment policy, an annuity contract, and a combination of life insurance policy and deferred annuity contract, and such others as may from time to time, in the opinion of the commissioner of insurance, be desirable. Every policy and annuity contract shall provide that the issuing bank may make any payment thereunder by placing to the credit of the account of the registered beneficiary in the savings department the amount payable. Such standard forms shall be used as the uniform and exclusive forms of policies by all savings and insurance banks. He shall also prepare the form of blanks for applications for life insurance policies and life annuity contracts and for proof of loss, and all other forms necessary for the efficient prosecution of the business, also books of record and of account, and all schedules and all reports, not otherwise provided for, required in the conduct of the business, and these shall be used as the uniform and exclusive form of blanks, books, schedules and reports in the insurance departments of all savings and insurance banks. He shall also, consistently with the law governing domestic legal reserve life insurance companies, determine and prepare the table of premium rates for all kinds of life insurance policies, and the purchase rates for annuities, and the amount of the membership fee, the surrender and any proof of death charges, and the premium rates for reinsurance. The rates, fees and charges so fixed shall be adopted as the uniform and exclusive premiums, annuity rates, the initiation, the surrender, and the proof of death charges. He shall also determine and prepare tables showing the amounts which may

Powers and duties of state actuary.

be loaned on insurance policies, and the reinsurance rates to be charged by all savings and insurance banks, and the guaranty charges to be made by the General Insurance Guaranty Fund, but the loan value shall in no event exceed the reserve on any policy. He shall also prepare or procure tables for computing the legal reserve to be held under insurance and annuity contracts, and for this purpose may, with the approval of the commissioner of insurance, adopt a table of mortality which may be deemed more suitable than the American Experience Table for policies of insurance of the character and amounts to which the risks of the banks are limited; and shall in all other respects, except as otherwise provided, perform the duties of insurance actuary for all the savings and insurance banks and the General Insurance Guaranty Fund. The ordinary routine work of the banks shall be performed by their clerks, guided and assisted, so far as may be necessary, by the advice and instruction of the state actuary; but an annual valuation of all the policies of the banks and of the condition of the General Insurance Guaranty Fund as of October thirty-first of each year shall be made in the office of the state actuary under his direction, and from schedules of policy data on blanks furnished by him and prepared by the banks in accordance with his instructions. The state actuary shall also furnish to the savings and insurance banks and to the General Insurance Guaranty Fund all blanks for policies, applications, schedules, and other papers and books which the state actuary is required to prepare, as herein provided. The state actuary shall for each year ending October thirty-first determine the ratio of actual to expected mortality claims for all of the savings and insurance banks combined, and shall determine a similar ratio for each of the savings and insurance banks separately. Both calculations shall be based upon the mortality tables and the rate of interest used by the banks in the calculation of the premiums, or upon such other bases as shall be approved by the commissioner of insurance. If the calculation of the ratio pertaining to any savings and insurance bank shows that the actual mortality experienced is less than the mortality expected to be experienced by all of the banks combined, the state actuary shall send to such bank a certificate setting forth the amount of such difference, and thereupon such bank shall send to the General Insurance Guaranty Fund in cash the amount of such certificate. The state actuary shall also furnish to the trustees of the General Insurance Guaranty Fund a certificate in respect to any savings and insurance bank in which the ratio of the actual to the expected mortality has exceeded the ratio of the actual to the expected mortality for all of the banks combined, and thereupon the trustees of the General Insurance Guaranty Fund shall pay to such bank the amount of such excess as evidenced by such certificate.

In determining the net profits, as defined in section

twenty-one, to be distributed to the holders of the policies and annuity contracts each year for each savings and insurance bank, the state actuary shall consider as a mortality factor the ratio of the actual to the expected mortality for all of the savings and insurance banks combined.

SECTION 5. Said chapter one hundred and seventy-eight is hereby amended by striking out section seventeen, as so appearing, and inserting in place thereof the following:

— *Section 17.* There shall be paid to the commonwealth on December thirtieth in each year sums expended by it for the division of savings bank life insurance during the year ended on November thirtieth next preceding. Said sums so to be repaid to the commonwealth shall be apportioned by the trustees of the General Insurance Guaranty Fund among the savings and insurance banks in proportion to their premium income, or on such other basis as the said trustees shall deem equitable and proper, and said banks shall be assessed therefor in accordance with such apportionment; provided, that no savings and insurance bank shall be assessed for any part of said expenditure unless and until it shall have accumulated in its insurance department a surplus fund of not less than twenty thousand dollars as provided in sections five, nineteen and twenty-one, or unless and until five years shall have elapsed from the date when it shall have been licensed by the commissioner of insurance to issue policies and make annuity contracts, whichever event shall sooner happen. Any sum so apportioned to banks so exempted shall be paid to the commonwealth by the trustees of the General Insurance Guaranty Fund from the interest income thereof on or before December thirtieth in each year.

G. L. (Ter. Ed.), 178, § 17, amended.

Reimbursement of commonwealth for certain expenses.

SECTION 6. Section nineteen of said chapter one hundred and seventy-eight, as so appearing, is hereby amended by striking out, in the seventh and eighth lines, the words "nor less than ten per cent of the aggregate insurance reserve", — so as to read as follows: — *Section 19.* Whenever the funds held by the General Insurance Guaranty Fund are, in the opinion of both the commissioner of insurance and the commissioner of banks, sufficient therefor, the trustees of the fund may enter into a contract with any savings bank desiring to establish an insurance department to guarantee all the risks of such bank until such time as it shall have a surplus of not less than twenty thousand dollars. If such guaranty contract is entered into by any bank, it shall not be necessary to provide the special insurance guaranty fund provided for in section five before the commissioner of insurance and the commissioner of banks are entitled to issue the certificate establishing the insurance department as provided in section three.

SECTION 7. Said chapter one hundred and seventy-eight is hereby further amended by striking out section twenty-one, as so appearing, and inserting in place thereof the following: — *Section 21.* Each savings and insurance bank

shall annually set apart as a surplus from the net profits, if any, which have been earned in its insurance department, an amount not less than twenty nor more than seventy-five per cent thereof, until such surplus amounts to twenty thousand dollars. Thereafter each such bank may add in any year to its surplus not more than fifteen per cent of the net profits, if any, which have been earned in its insurance department in such year; provided, that, with the approval of the state actuary, an amount in excess of said fifteen per cent of said net profits may be added to said surplus and, provided further, that no such bank shall, without the approval of the state actuary, add to its said surplus any amount which would make said surplus exceed ten per cent of the net insurance reserve of said bank. Such surplus shall be maintained and held or used so far as necessary to meet losses in its insurance department whether from unexpectedly great mortality, depreciation in its securities, or otherwise, and, after said surplus amounts to twenty thousand dollars, for the maintenance of a stable dividend scale, and for the payment of settlement or maturity dividends or both in such manner and in such amounts if any, as may from time to time be directed by the state actuary. The balance of the net profits of each year shall annually be distributed equitably among the holders of its policies and annuity contracts, such distribution to be made at the option of the policy holder in accordance with section one hundred and forty of chapter one hundred and seventy-five.

Be it enacted, etc., as follows:

SECTION 1. Upon the acceptance of this act by the town of Falmouth, as hereinafter provided, the selectmen and board of registrars of voters, acting jointly, and hereinafter referred to as the districting board, shall forthwith divide the territory thereof into not less than three nor more than five voting precincts, each of which shall be plainly designated and shall contain not less than four hundred registered voters.

The precincts shall be so established as to consist of compact and contiguous territory, to be bounded as far as possible by the center line of known streets and ways or by other well defined limits. Their boundaries shall be reviewed and, if need be, wholly or partly revised by the districting board in December, once in five years, or in December of any year when so directed by a vote of a representative town meeting not later than November twentieth of that year.

The districting board shall, within ten days after any establishment or revision of the precincts, file a report of their doings with the town clerk, the registrars of voters and the assessors, with a map or maps or descriptions of the precincts and the names and residences of the registered voters therein. The districting board shall also cause to be posted in the town hall a map or maps or description of the precincts as established or revised from time to time, with the names and residences of the registered voters therein; and it shall also cause to be posted in at least one public place in each precinct a map or description of that

precinct with the names and residences of the registered voters therein. The division of the town into voting precincts and any revision of such precincts shall take effect upon the date of filing of the report thereof by the districting board with the town clerk. Whenever the precincts are established or revised, the town clerk shall forthwith give written notice thereof to the state secretary, stating the number and designation of the precincts. Meetings of the registered voters of the several precincts for elections, for primaries, and for voting upon any question to be submitted to all the registered voters of the town, shall be held on the same day and at the same hour and at such place or places within the town as the selectmen shall in the warrant for such meeting direct. The provisions of chapters fifty to fifty-six, inclusive, of the General Laws, relating to precinct voting at elections, so far as the same are not inconsistent with this act, shall apply to all elections and primaries in the town upon the establishment of voting precincts as hereinbefore provided.

SECTION 2. Other than the officers designated in section three as town meeting members at large, the representative town meeting membership shall in each precinct consist of the largest number divisible by three which will admit of a representation thereof in the approximate proportion which the number of registered voters therein bears to the total number of registered voters in the town, and which will cause the total membership to be as nearly two hundred as may be, exclusive of members at large.

The registered voters in every precinct, at the first annual town election held after the establishment of such precinct, and the registered voters of any precinct affected by any revision of precincts at the first annual town election following such revision, conformably to the laws relative to elections not inconsistent with this chapter, shall elect by ballot the number of registered voters in the precinct, other than the officers designated in section three as town meeting members at large, provided for in the first paragraph of this section, to be town meeting members of the town. The first third, in the order of votes received, of members so elected shall serve three years, the second third in such order shall serve two years, and the remaining third in such order shall serve one year, from the day of the annual town meeting. In case of a tie vote affecting the division into thirds, as aforesaid, the members elected from the precinct shall by ballot determine the same. Thereafter, except as otherwise provided herein, at each annual town election the registered voters of each precinct shall in like manner elect, for the term of three years, one third of the number of elected town meeting members to which such precinct is entitled, and shall at such election fill for the unexpired term or terms any vacancy or vacancies then existing in the number of elected town meeting members in such precinct.

The terms of office of all elected town meeting members from every precinct revised as aforesaid shall cease upon the election as hereinbefore provided of their successors. The town clerk shall, after every election of town meeting members, forthwith notify each such member by mail of his election.

SECTION 3. Any representative town meeting held under the provisions of this act, except as otherwise provided herein, shall be limited to the voters elected under section two, together with the following, to be designated town meeting members at large: namely, any member of the general court of the commonwealth who is a voter of the town, the moderator, the town clerk and treasurer, the members of the board of selectmen, the board of public welfare, the tax collector, the members of the board of health, the members of the school committee, the members of the board of assessors, the members of the sewer commission, the members of the park commission, the town accountant, the chairman and clerk of the finance committee, the chairman and secretary of the planning board, the highway surveyor, the tree warden, the members of the water commission, and the trustees of public library. All the foregoing shall be included within the general designation of town meeting members.

The town clerk shall notify the town meeting members of the time and place at which representative town meetings are to be held, the notices to be sent by mail at least seven days before the meeting. The town meeting members, as aforesaid, shall be the judges of the election and qualifications of their members. A majority of the town meeting members shall constitute a quorum for doing business; but a less number may organize temporarily and may adjourn from time to time, but no town meeting shall adjourn over the date of an election of town meeting members. All town meetings shall be public. The town meeting members as such shall receive no compensation. Subject to such conditions as may be determined from time to time by the members of the representative town meeting, any registered voter of the town who is not a town meeting member may speak at any representative town meeting, but shall not vote. A town meeting member may resign by filing a written resignation with the town clerk, and such resignation shall take effect on the date of such filing. A town meeting member who removes from the town shall cease to be a town meeting member, and a town meeting member who removes from the precinct from which he was elected to another precinct may serve only until the next annual town meeting.

SECTION 4. Nomination of candidates for town meeting members to be elected under this act shall be made by nomination papers, which shall bear no political designation, shall be signed by not less than ten voters of the precinct in which the candidate resides, and shall be filed with

the town clerk at least ten days before the election; provided, that any town meeting member may become a candidate for re-election by giving written notice thereof to the town clerk at least thirty days before the election. No nomination papers shall be valid in respect to any candidate whose written acceptance is not thereon or attached thereto when filed.

SECTION 5. The articles in the warrant for every town meeting, so far as they relate to the election of the moderator, town officers and town meeting members, and as herein provided, to referenda, and all matters to be acted upon and determined by ballot, shall be so acted upon and determined by the registered voters of the town in their respective precincts. All other articles in the warrant for any town meeting shall be acted upon and determined exclusively by town meeting members at a meeting to be held at such time and place as shall be set forth by the selectmen in the warrant for the meeting, subject to the referendum provided for by section eight.

SECTION 6. A moderator shall be elected by ballot at each annual town meeting, and shall serve as moderator of all town meetings, except as otherwise provided by law, until a successor is elected and qualified. Nominations for and election of a moderator shall be as in the case of other elective town officers, and any vacancy in the office may be filled by the town meeting members at a meeting held for that purpose. If a moderator is absent, a moderator pro tempore may be elected by the town meeting members.

SECTION 7. Any vacancy in the full number of town meeting members from any precinct, whether arising from a failure of the registered voters thereof to elect, or from any other cause, may be filled, until the next annual election, by the remaining members of the precinct from among the registered voters thereof. Upon petition therefor, signed by not less than ten town meeting members from the precinct, notice of any vacancy shall be promptly given by the town clerk to the remaining members from the precinct in which the vacancy or vacancies exist, and he shall call a special meeting of such members for the purpose of filling such vacancy or vacancies. He shall cause to be mailed to every such member, not less than five days before the time set for the meeting, a notice specifying the object, time and place of the meeting. At the said meeting a majority of the members from such precinct shall constitute a quorum, and they shall elect from their own number a chairman and clerk. The choice to fill any vacancy shall be by ballot, and a majority of the votes cast shall be required for a choice. The chairman and clerk shall count the ballots and shall make a certificate of the choice and forthwith file the same with the town clerk, together with a written acceptance by the member or members so chosen, who shall thereupon be deemed elected and qualified as a town meet-

ing member or members, subject to the right of all town meeting members to judge of the election and qualifications of the members as set forth in section three.

SECTION 8. A vote passed at any representative town meeting authorizing the expenditure of twenty thousand dollars or more as a special appropriation, or establishing a new board or office or abolishing an old board or office or merging two or more boards or offices, or fixing the term of office of town officers, where such term is optional, or increasing or reducing the number of members of a board, or adopting a new by-law, or amending an existing by-law, shall not be operative until after the expiration of five days, exclusive of Sundays and holidays, from the dissolution of the meeting. If, within said five days, a petition, signed by not less than five per cent of the registered voters in each precinct of the town, containing their names and addresses as they appear on the list of registered voters, is filed with the selectmen asking that the question or questions involved in such a vote be submitted to the registered voters of the town at large, then the selectmen, after the expiration of five days, shall forthwith call a special meeting for the sole purpose of presenting to the registered voters at large the question or questions so involved. The polls shall be opened at two o'clock in the afternoon and shall be closed not earlier than eight o'clock in the evening, and all votes upon any questions so submitted shall be taken by ballot, and the check list shall be used in the several precinct meetings in the same manner as in the election of town officers. The questions so submitted shall be determined by vote of the same proportion of voters at large voting thereon as would have been required by law of town meeting members had the question been finally determined at a representative town meeting, but no action of the representative town meeting shall be reversed unless at least twenty per cent of the registered voters shall so vote. Each question so submitted shall be in the form of the following question, which shall be placed upon the official ballot:—

“Shall the town vote to approve the action of the representative town meeting whereby it was voted (brief description of the substance of the vote)?” If such petition is not filed within said period of five days, the vote of the representative town meeting shall become operative and effective upon the expiration of said period.

The town of Falmouth, after the acceptance of this act, shall have the capacity to act through and be bound by its town meeting members, who shall, when convened from time to time as herein provided, constitute representative town meetings; and the representative town meetings shall exercise exclusively, so far as will conform to the provisions of this act, all powers vested in the municipal corporation. Action in conformity with all provisions of law now or hereafter applicable to the transaction of town

affairs in town meeting, shall, when taken by any representative town meeting in accordance with the provisions of this act, have the same force and effect as if such action had been taken in a town meeting open to all the voters of the town as organized and conducted before the establishment of representative town meeting government.

SECTION 10. The representative town meeting may make such rules consistent with general law as may be considered necessary for conducting its meetings.

SECTION 11. The representative town meeting may appoint such committees of its members for investigation and report as it may consider necessary.

SECTION 12. All by-laws or parts of by-laws of the town inconsistent with the provisions of this act are hereby repealed. The provisions of chapter forty-four of the General Laws shall continue to apply in the town of Falmouth notwithstanding the provisions of this act.

SECTION 13. This act shall not abridge the right of the inhabitants of the town of Falmouth to hold general meetings, as secured to them by the constitution of this commonwealth; nor shall this act confer upon any representative town meeting in the town of Falmouth the power finally to commit the town to any measure affecting its municipal existence or substantially changing its form of government without action thereon by the voters of the town at large, using the ballot and the check list therefor.

SECTION 14. This act shall be submitted to the registered voters of the town of Falmouth at any annual or special town meeting. The vote shall be taken in precincts by ballot in accordance with the provisions of the General Laws, so far as the same shall be applicable, in answer to the question, which shall be placed, in case of a special meeting, upon the ballot to be used at said meeting, or, in case of an annual meeting, upon the official ballot to be used for the election of town officers: "Shall an act passed by the General Court in the year nineteen hundred and thirty-five, entitled 'An Act establishing in the town of Falmouth representative town government by limited town meetings', be accepted by this town?"

The provisions of this act shall take effect upon its acceptance by a majority of the voters voting on the question.

SECTION 15. If this act is rejected by the registered voters of the town of Falmouth when submitted to said voters under section fourteen, it may again be submitted for acceptance in like manner from time to time to such voters at any annual town meeting in said town within three years thereafter.

Said district shall not enter upon, construct or lay any conduit, pipe or other works within the location of any railroad corporation except at such time and in such manner as it may agree upon with such corporation, or in case of failure so to agree, as may be approved by the department of public utilities. Said district may enter upon any lands for the purpose of making surveys, test pits and borings, and may take or otherwise acquire the right to occupy temporarily any lands necessary for the construction of any work or for any other purpose authorized by this act.

SECTION 3. Any person sustaining damages in his property by any taking under this act or any other thing done

SECTION 4. For the purpose of paying the necessary expenses and liabilities incurred for the system of water supply under the provisions of this act, other than expenses of maintenance and operation, the said district may borrow from time to time such sums as may be necessary, not exceeding, in the aggregate, thirty thousand dollars, and may issue bonds or notes therefor, which shall bear on their face the words Woodland Water District Loan, Act of 1935. Each authorized issue shall constitute a separate loan, and such loans shall be payable in not more than thirty years from their dates. Indebtedness incurred under this act shall be subject to chapter forty-four of the General Laws.

SECTION 5. Said district shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with section four of this act; and when a vote to that effect has been passed, a sum which, with the income derived from water rates, will be sufficient to pay the annual expense of operating its water works and the interest as it accrues on the bonds or notes issued as aforesaid by the district, and to make such payments on the principal as may be required under the provisions of this act, shall without further vote be assessed upon said district by the assessors of said town of Auburn annually thereafter until the debt incurred by said loan or loans is extinguished.

SECTION 6. Any land taken or acquired under this act shall be managed, improved and controlled by the commissioners hereinafter provided for, in such manner as they shall deem for the best interest of the district.

SECTION 7. Whenever a tax is duly voted by said district for the purposes of this act, the clerk shall send a certified copy of the vote to the assessors of said town, who shall assess the same in the same manner in all respects in which town taxes are required by law to be assessed; provided, that no estate shall be subject to any tax assessed on account of the system of water supply under this act if, in the judgment of the board of water commissioners hereinafter provided for, after a hearing, such estate is so situated that it can receive no aid in the extinguishment of fire from the said system of water supply, and/or receive no benefit in fire insurance grading therefrom, or if such estate is so situated that the buildings thereon, or the buildings that might be constructed thereon, in any ordinary or reasonable manner could not be supplied with water from the said system; but all other estates in said district shall be deemed to be benefited and shall be subject to the tax. A certified list of the estates exempt from taxation under the provisions of this section shall annually be sent by the board of water commissioners to the assessors, at the same time at which

the clerk shall send a certified copy of the vote as aforesaid. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of said district. Said district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. The first meeting of the voters of the territory included within the boundaries set forth in section one shall be called, on petition of ten or more legal voters therein, by a warrant from the selectmen of said town, or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. After the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by a majority of the voters present and voting thereon it shall take effect, and the meeting may then proceed to act on the other articles in the warrant.

SECTION 9. Said district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act is accepted or at a special meeting thereafter called for the purpose, three persons, resident taxpayers of said district, to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual meeting following such next succeeding annual district meeting one such commissioner shall be elected by ballot for the term of three years. All the authority granted to said district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said commissioners are first elected and at each annual district meeting said district shall elect by ballot a treasurer of said district, who shall be other than a commissioner, and who shall give bond to said district in such an amount as may be approved by the commissioners. A majority of the commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said district at any legal meeting called for the purpose. No money shall be drawn from the treasury of said district on account of the water works except upon a written order of said commissioners or a majority of them.

SECTION 10. Said commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said commissioners shall annually, and as often as said district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. Said district may adopt by-laws prescribing by whom and how meetings may be called, notified and conducted; and, upon the application of ten or more legal voters in said district meetings may also be called by warrant as provided in section eight. Said district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with law, and may choose such other officers not provided for in this act as it may deem necessary or proper.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, standpipe, aqueduct, pipe or other property owned or used by said district for any of the purposes of this act shall forfeit and pay to said district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above acts shall be punished by a fine of not more than one hundred dollars or by imprisonment in jail for not more than twelve months.

SECTION 13. Upon a petition in writing addressed to said commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district and not otherwise served by a public water supply be included within the limits thereof, and signed by the owners of such real estate, or a major portion thereof, said commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 14. This act shall take full effect upon its

acceptance by a majority vote of the voters of the district present and voting thereon at a district meeting called, in accordance with the provisions of section eight, within three years after its passage; but the number of meetings so called in any one year shall not exceed three.

Chap. 387 AN ACT RELATIVE TO WANT OF NOTICE IN ACTIONS UNDER THE EMPLOYERS' LIABILITY LAW, SO CALLED.

Be it enacted, etc., as follows:

G. L. (Ter. Ed.), 153, § 6, amended.

Notice of injury under employers' liability law.

Section six of chapter one hundred and fifty-three of the General Laws, as appearing in the Tercentenary Edition, is hereby amended by adding at the end thereof the following: — Want of notice as required by this section shall not bar proceedings if it is shown that the employer, or any agent of the employer exercising superintendence, had knowledge of the injury, or if it is found as a fact that the employer was not prejudiced by such want of notice, — so as to read as follows: — *Section 6.* No action for the recovery of damages for injury under section one of this chapter or for death under section four or seven of chapter two hundred and twenty-nine shall be maintained unless notice of the time, place and cause of the injury is given to the employer within sixty days, and the action is commenced within one year, after the accident which causes the injury or death. Such notice shall be in writing, signed by the person injured or by a person in his behalf. If the person injured dies within the time required for giving the notice, his executor or administrator may give such notice within sixty days after his appointment; and in such case the action may be begun within one year after the appointment of such executor or administrator. If from physical or mental incapacity it is impossible for the person injured to give the notice within the time provided in this section, he may give it within ten days after such incapacity has been removed, and if he dies within said ten days his executor or administrator may give such notice within sixty days after his appointment. If the employer dies without such notice having been given and before the time for giving such notice has elapsed, the notice may be given to his executor or administrator, and the time within which the notice may be given as herein provided shall run from the appointment of the executor or administrator. A notice given under this section shall not be held invalid or insufficient solely by reason of an inaccuracy in stating the time, place or cause of the injury if it is shown that there was no intention to mislead, and that the employer was not in fact misled thereby. If the employer dies without such action having been brought and before the time for bringing the action has elapsed, the action may be begun against his

executor or administrator not less than six months and not more than one year after the executor or administrator has given bond for the performance of his trust. Any form of written communication signed by the person so injured, or by some person in his behalf, or by his executor or administrator, or by some person in behalf of such executor or administrator, containing the information that the person was so injured, giving the time, place and cause of the injury or death, shall be considered a sufficient notice. Want of notice as required by this section shall not bar proceedings if it is shown that the employer, or any agent of the employer exercising superintendence, had knowledge of the injury, or if it is found as a fact that the employer was not prejudiced by such want of notice.

Such projects, so approved, shall be carried out in all respects subject to the provisions of said Title II or of said joint resolution, as the case may be, and to such terms, conditions, rules and regulations, not inconsistent with applicable federal laws and regulations, as the board may establish, with the approval of the governor, to ensure the proper execution of such projects. Any such county, city or town may accept and use for carrying out any project so approved any grant, or any grant and loan, of federal funds under section two hundred and three of said Title II or under said joint resolution, as the case may be; and, for the purpose only of carrying out such project, may borrow from the United States of America or other sources, or both, such sums as may be fixed by the board as hereinafter provided, and may issue bonds, notes or other forms of written acknowledgment of debt for such terms and carrying interest at rates not exceeding such rates as may be fixed by the board

as hereinafter provided. Any city or town may borrow hereunder for projects for which borrowings are authorized by section seven of said chapter forty-four and for other projects for which borrowings are not authorized by section eight of said chapter, amounts not exceeding in the aggregate one per cent of the average of the assessors' valuation of its taxable property for the three preceding years, reduced and otherwise determined as provided in section ten of said chapter, without affecting its future borrowing capacity, and in addition, after such limit of one per cent is reached, may so borrow therefor so much as may be required of any amount within its debt limit, as determined in accordance with said section ten, not then borrowed or authorized by such city or town to be borrowed; and any city or town may borrow hereunder for projects of any class for which borrowings are authorized by section eight of said chapter, water projects being treated as a single class for the purposes hereof, amounts not exceeding in the aggregate one per cent of the last preceding assessed valuation of such city or town, without affecting its future borrowing capacity, and in addition, after such limit of one per cent is reached, may so borrow therefor so much as may be required of any amount authorized by said section eight for such class of projects not then borrowed or authorized by such city or town to be borrowed, and no borrowing hereunder for any project for which borrowings are authorized by said section eight shall be reckoned in determining the borrowing capacity of such city or town under said section ten. For the purposes of the foregoing sentence, the limit of indebtedness of the city of Boston shall be computed in accordance with the provisions of section ten of said chapter forty-four as provided in section two of chapter two hundred and twenty-five of the acts of nineteen hundred and thirty-one. In fixing the amounts that may be borrowed hereunder for projects for which borrowings are not authorized by said chapter forty-four, the board shall be guided by the above limitations as applied to the provisions of said chapter applicable to like projects. The board shall fix the terms of and maximum rates of interest on the bonds, notes or other forms of written acknowledgment of debt issued hereunder; which terms and rates of interest, in case of obligations to be issued to the United States of America, shall be fixed in accordance with the applicable federal laws and regulations and subject to the approval of the proper federal authorities. All the provisions of said chapter forty-four, exclusive of the limitation contained in the first paragraph of section seven thereof, that no loan shall be authorized unless a sum equal to twenty-five cents on each one thousand dollars of the assessed valuation of the city or town has been appropriated or voted to be raised by taxation, shall apply to any borrowing hereunder by any city or town, including Boston and Worcester, except as herein-

before provided and, in respect of any borrowing from the United States of America, except in so far as such provisions of law may be in conflict with applicable federal laws and regulations. Each county, city or town seeking the approval of any projects by the board shall submit to it all information required with respect to the financial condition of such county, city or town, its outstanding indebtedness within and without its limit of indebtedness, if any, the estimated cost of the project, the alleged necessity therefor, and the proposed method of financing the same. In granting or withholding its approval, the board shall take into consideration, among other things, the necessity of the proposed project, the ability of such county, city or town to finance the same, the extent to which the carrying out of the project will tend to relieve unemployment and the extent to which the maintenance of the project when completed will tend to increase or decrease the annual expenditures of such county, city or town and to increase or decrease the tax burden upon its inhabitants.

SECTION 2. Section two A of said Part one of said chapter three hundred and sixty-six is hereby amended by inserting after the word "federal" in the fourth line the following: — , county, — so as to read as follows: — *Section 2A.* All projects for the construction, reconstruction or resurfacing of roads and the construction of sewers shall be done by human labor, except in so far as machinery is, in the opinion of the federal, county, city or town officer or department having charge of the project, reasonably necessary, and the wages for such labor shall not be less than the prevailing rate of wages as established by the federal government.

If, in the opinion of the board after a hearing and careful investigation, any such project is in the public interest and otherwise meets the requirements of section two of this act, it shall approve the same and thereupon such project shall be submitted to the governor for his approval. Such projects so approved shall, as soon as may be, be submitted to the proper federal authorities for their approval. This section shall not be construed as prohibiting the submission of such projects to the proper federal authorities, in the form required by applicable federal regulations, for preliminary study prior to approval by the board and the governor.

SECTION 4. Section three of said Part one of said chapter three hundred and sixty-six is hereby amended by

inserting after the article "a" in the first line the word: — county, — and by inserting after the word "such" in the seventh line the word: — county, — so as to read as follows: — *Section 3.* Any officer or department of a county, city or town charged with the duty of carrying out any project so approved shall have, in addition to any powers expressly given by statute, such powers as may be determined and certified by the board to be proper and reasonably necessary to carry out such project, including the power to take property by eminent domain on behalf of such county, city or town provided that no source of water supply and no works for the disposal of sewage shall be installed without first having the approval of the state department of public health. If such officer or department is aggrieved by such action, he or it may, within ten days after notice thereof, appeal to the governor, whose decision shall be final. The board is hereby authorized to make all necessary orders, rules and regulations and perform all necessary actions under this act; and none of such orders, rules, regulations and actions shall be declared inoperative, illegal or void for any omission of a technical nature in respect thereto. Nothing in this act shall require any action in contravention of applicable federal laws and rules and regulations nor preclude action in conformity therewith.

SECTION 5. Section four of said Part one of said chapter three hundred and sixty-six is hereby amended by inserting after the word "the" in the third line the word: — counties, — and by inserting after the word "Act" in the fifth line the following: —, or under the joint resolution of congress known as the Emergency Relief Appropriation Act of 1935, — so as to read as follows: — *Section 4.* The governor of the commonwealth is hereby authorized to take any and all steps necessary from time to time to enable the counties, cities and towns of this commonwealth to secure any benefits to which they may be entitled under the National Industrial Recovery Act, or under the joint resolution of congress known as the Emergency Relief Appropriation Act of 1935, and the board is hereby directed to co-operate and assist him in every way possible.

SECTION 6. Said Part one of said chapter three hundred and sixty-six is hereby further amended by striking out section six and inserting in place thereof the following: — *Section 6.* The provisions of Part I of this act shall, so far as applicable, apply to any district.

SECTION 7. Any county which has heretofore been authorized by any special act to accept and use federal funds in the carrying out of any public project for the county or the tuberculosis hospital district therein may accept and use federal funds under Part one of chapter three hundred and sixty-six of the acts of nineteen hundred and thirty-three, as amended by this act, to the same extent as though the provisions of said Part one, as so amended,

Preliminary injunction and temporary restraining orders.

SECTION 3. Section nine of said chapter two hundred and fourteen, as amended by chapter three hundred and eighty-one of the acts of nineteen hundred and thirty-four, is hereby further amended by striking out all after the word "notice" in the eighth line down to and including the word "order" in the twelfth line, — by striking out in the thirteenth line the word "any" and inserting in place thereof the words: — such a, — by inserting after the word "granted" in the same line the words: — without notice, — and by adding at the end thereof the words: — or to labor disputes as defined in section twenty C of chapter one hundred and forty-nine, — so as to read as follows: — *Section 9.* No preliminary injunction shall be granted without notice to the opposite party. No temporary restraining order shall be granted without notice to the opposite party, unless it shall clearly appear from specific facts, shown by affidavit or by the verified bill, that immediate and irreparable loss or damage will result to the applicant before the matter can be heard on notice. If in such a case a temporary restraining order is granted without notice, notice of the application for a preliminary injunction shall be made returnable at the earliest possible time, and in no event later than ten days from the date of the order, and shall take precedence of all matters except older matters of the same character. When the matter comes up for hearing, the party who obtained the temporary restraining order shall proceed with his application for a preliminary injunction, and if he does not do so the court shall dissolve the temporary restraining order. Upon two days' notice to the party obtaining such temporary restraining order, the opposite party may appear and move the dissolution or modification of the order, and

in that event the court or judge shall proceed to hear and determine the motion as expeditiously as the ends of justice may require. Every temporary restraining order shall be filed or noted forthwith in the clerk's office. This section shall not apply to proceedings in the probate courts or to labor disputes as defined in section twenty C of chapter one hundred and forty-nine.

SECTION 4. Said chapter two hundred and fourteen is hereby further amended by inserting after said section nine the following new section:— *Section 9A.* (1) No court shall have jurisdiction to issue a preliminary or permanent injunction in any case involving or growing out of a labor dispute, as defined in section twenty C of chapter one hundred and forty-nine, except after hearing the testimony of witnesses in open court (with opportunity for cross-examination) in support of the allegations of a complaint made under oath, and testimony in opposition thereto, if offered, and except after findings of fact by the court, to the effect —

G. L. (Ter. Ed.), 214, new section 9A, added.
Preliminary injunctions, etc.

(a) That unlawful acts have been threatened and will be committed unless restrained or have been committed and will be continued unless restrained, but no injunction or temporary restraining order shall be issued on account of any threat or unlawful act excepting against the person or persons, association or organization making the threat or committing the unlawful act or actually authorizing or ratifying the same after actual knowledge thereof;

(b) That substantial and irreparable injury to the complainant's property will follow;

(c) That as to each item of relief granted greater injury will be inflicted upon the complainant by the denial of relief than will be inflicted upon the defendants by the granting of relief;

(d) That the complainant has no adequate remedy at law; and

(e) That the public officers charged with the duty to protect the complainant's property are unable or unwilling to furnish adequate protection.

(2) Such hearing shall be held after due and personal notice thereof has been given, in such manner as the court shall direct, to all known persons against whom relief is sought, and also to the chief of those public officials of the city or town within which the unlawful acts have been threatened or committed charged with the duty to protect the complainant's property; provided, however, that if a complainant shall also allege that, unless a temporary restraining order shall be issued without notice, a substantial and irreparable injury to the complainant's property will be unavoidable, such a temporary restraining order may be issued upon testimony under oath, sufficient, if sustained, to justify the court in issuing a preliminary injunction upon a hearing after notice, and a statement of the grounds justifying the issuance of such order shall be made a matter of record by the court. Such a temporary restraining order

shall be effective for no longer than five days and shall become void at the expiration of said five days and shall not be subject to renewal. No temporary restraining order or preliminary injunction shall be issued except on condition that the complainant shall first file an undertaking with adequate security in an amount to be fixed by the court sufficient in its opinion to recompense those enjoined for any loss, expense or damage caused by the improvident or erroneous issuance of such order or injunction, including all reasonable costs (together with a reasonable attorney's fee) and expense of defense against the order or against the granting of any injunctive relief sought in the same proceeding and subsequently denied by the court.

(3) The undertaking herein mentioned shall be understood to signify an agreement entered into by the complainant and the surety upon which a decree may be rendered in the same suit or proceeding against said complainant and surety, upon a hearing to assess damages of which hearing the complainant and surety shall have reasonable notice, the said complainant and surety submitting themselves to the jurisdiction of the court for that purpose. But nothing herein contained shall deprive any party having a claim or cause of action under or upon such undertaking from electing to pursue his ordinary remedy by action at law or suit in equity.

(4) No restraining order or injunctive relief shall be granted to any complainant who has failed to comply with any obligation imposed by law which is involved in the labor dispute in question, or who has failed to make every reasonable effort to settle such dispute either by negotiation or with the aid of any available governmental machinery of mediation or voluntary arbitration.

(5) No restraining order, other than a temporary restraining order issued without notice as provided in subdivision (2) of this section, and no preliminary or permanent injunction shall be granted in a case involving or growing out of a labor dispute, except on the basis of findings of fact made and filed by the court in the record of the case prior to the issuance of such restraining order or injunction; and every restraining order or injunction granted in a case involving or growing out of a labor dispute shall include only a prohibition of such specific act or acts as may be expressly complained of in the bill of complaint or petition filed in such case and as shall be expressly included in said statement of grounds or findings of fact made and filed by the court as provided herein.

(6) Whenever the court shall issue or deny a preliminary injunction in a case involving or growing out of a labor dispute, the court, upon the request of any party to the proceeding, shall forthwith report any questions of law involved in such issue or denial to the supreme judicial court and stay further proceedings except those necessary to preserve the rights of the parties. Upon the filing of such report, the

questions reported shall be heard in a summary manner by a justice of the supreme judicial court, who shall with the greatest possible expedition affirm, reverse or modify the order of the superior court. The decision of such justice of the supreme judicial court upon the questions so raised shall be final, but without prejudice to the raising of the same questions before the full court upon exceptions, appeal or report after a final decree in the case.

SECTION 5. Chapter two hundred and twenty of the General Laws is hereby amended by inserting after section thirteen, as appearing in the Tercentenary Edition, the two following new sections: — *Section 13A.* Any person who shall wilfully disobey any lawful writ, process, order, decree or command of the court in any suit in which injunctive relief is sought in any matter involving or growing out of a labor dispute, as defined in section twenty C of chapter one hundred and forty-nine, by doing any act or thing in or by such writ, process, order, decree or command forbidden to be done by him, if the act or thing so done by him is of such character as to constitute also a criminal offence under the laws of the commonwealth shall enjoy the right to a speedy and public trial for his said contempt by an impartial jury of the county wherein it shall have been committed; provided, that this right shall not apply to contempts committed in the presence of the court or so near thereto as to interfere directly with the administration of justice or apply to the misbehavior, misconduct or disobedience of any officer of the court in respect to the writs, orders or process of the court.

Section 13B. The defendant in any proceeding for contempt of court in such a case may file with the court a demand for the retirement of the justice sitting in such case, if the contempt arises from an attack upon the character or conduct of such justice and the attack occurred elsewhere than in the presence of the court or so near thereto as to interfere directly with the administration of justice. Upon the filing of any such demand, prior to the hearing in the contempt proceeding, the justice shall thereupon proceed no further, but another justice shall be assigned by the chief justice of the court.

SECTION 6. If any provision of this act or the application thereof to any person or circumstance is held unconstitutional or otherwise invalid, the remaining provisions of the act and the application of such provisions to other persons or circumstances shall not be affected thereby.

MIDDLESEX COUNTY TO MAKE ALTERATIONS AND ADDITIONS
TO THE MIDDLESEX COUNTY TUBERCULOSIS HOSPITAL. Chap. 417

SECTION 1. The Middlesex county commissioners are hereby authorized to raise and expend a sum not exceeding seven hundred and twenty-five thousand dollars, subject to the provisions of sections seventy-eight to ninety, inclusive, of chapter one hundred and eleven of the General Laws, for the purpose of making alterations and constructing additions in and to the Middlesex county tuberculosis hospital, in Waltham and Lexington.

SECTION 2. The provisions of chapter three hundred and sixty-six of the acts of nineteen hundred and thirty-three and acts in amendment thereof and in addition thereto, whereby cities and towns, and fire, water, light and improvement districts may secure the benefits provided by the National Industrial Recovery Act, and acts in amendment thereof and in addition thereto or by any other act of Congress, are hereby extended and made applicable to the county of Middlesex for the purposes of the work contemplated by this act, and the county commissioners of said county shall, with the consent of the governor, take any and all steps necessary from time to time to enable the county of Middlesex to secure for said purposes any benefits to which said county may be entitled under said National Industrial Recovery Act and acts in amendment thereof and in addition thereto or any other act of Congress.

SECTION 3. In fixing the amount to be assessed under section eighty-three of chapter one hundred and eleven of the General Laws on the cities and towns included in the Middlesex county tuberculosis hospital district, following the completion of the work provided for by this act, the county commissioners of said county shall first deduct any sum which the federal government shall then have obligated itself to give as a grant toward said work under said National Industrial Recovery Act and acts in amendment thereof and in addition thereto or other act of Congress, and shall also deduct any other sums which shall have then been actually received from any municipality or municipalities as a contribution on account of becoming a part of said district. Any municipality which has made such contribu-

tion shall not thereby be exempted from such assessment. Sums received from the federal government and from municipalities as aforesaid may be applied toward payment either of the expenditures authorized by section one of this act or of the principal of the bonds or notes authorized by section four or section six hereof.

SECTION 4. For the purpose of funding such part of the temporary loans issued for the alteration of the Middlesex county tuberculosis hospital and the construction and equipment of additions thereto as shall not have been paid from federal grants or from the contributions of municipalities mentioned in section three or from the proceeds of assessments to be made therefor against the municipalities of the Middlesex county tuberculosis hospital district, including interest on renewal notes on account of such loans and on temporary funding notes issued as hereinafter authorized and all expenses incurred in connection with preparing, issuing and marketing such renewal and temporary notes, the county commissioners of Middlesex county may borrow on the credit of the county such sum as may be necessary, and the county treasurer thereof, on request of said county commissioners, shall issue bonds or notes of the county therefor, which shall bear on their face the words Middlesex County Tuberculosis Hospital Addition Funding Loan, Act of 1935. The maturities of such bonds or notes shall be so arranged that assessments for the payment of the principal thereof against each municipality liable thereto shall be payable by it as hereinafter provided. The county may sell said securities at public or private sale, upon such terms and conditions as the county commissioners may deem proper, but not for less than their par value. The aggregate amount necessary to make full payment of the principal of said bonds or notes shall be apportioned among the municipalities which file elections under section five in proportion to their then unpaid outstanding assessments on account of the expenditures authorized by section one of this act or so much thereof as they elect to have funded hereby, and the amount so apportioned to each such municipality shall be payable by it over the term of such loan or such lesser period as may have been specified by it under said section five, by annual assessments equal in amount as nearly as may be, having due regard for the proper fixing of the denominations of the securities evidencing said loan and for other factors. Amounts necessary to meet payments on account of interest on such bonds or notes shall be so apportioned among such municipalities that each will

pay an amount equal to the interest on the amount of principal so apportioned to it which is outstanding during the year immediately preceding each payment of principal. All sums necessary during any year to meet interest payments on said bonds or notes and payments on account of the principal thereof as the same mature shall be assessed in January of that year with the assessments for maintenance made in accordance with section eighty-five of chapter one hundred and eleven of the General Laws and shall be collected in the same manner as therein provided.

The said county commissioners may from time to time borrow on the credit of the county to meet interest payments on the bonds or notes hereinbefore authorized and payments on account of the principal thereof, pending the receipt of assessments therefor, and said county treasurer, on the request of said county commissioners, shall issue temporary notes of the county therefor.

Any sums necessary to meet expenses incurred in connection with preparing, issuing and marketing such bonds or notes and temporary notes shall be apportioned among such municipalities in the same proportion as their aggregate payments of principal aforesaid and shall be included in the assessments authorized hereby.

SECTION 5. A municipality of the said hospital district shall be entitled to participate in the benefits provided by section four only if it files with said county commissioners, not later than April fifteenth, nineteen hundred and thirty-seven, an election that all or any specified portion of its then outstanding assessments on account of the expenditures authorized by section one of this act shall be funded as herein authorized, executed, in case of a city, in accordance with a vote of its city council approved by the mayor thereof, or, in case of a town, in accordance with a vote of its town meeting, and any such municipality may specify in such election a lesser period than the maximum term provided for the funding loan authorized hereby, for the payment by it of assessments on account of such loan.

SECTION 6. The county treasurer, with the approval of the county commissioners, may issue temporary notes of the county, payable in not more than one year from their dates, in anticipation of the issue of serial bonds or notes under this act, and may renew the same; but the time within which such serial bonds or notes shall become due and payable shall not, by reason of such temporary notes, be extended beyond the time fixed by this act. Any notes issued in anticipation of the serial bonds or notes shall be paid from the proceeds thereof or from grants or contributions received under section three, or from all such sources.

SECTION 7. Nothing in this act shall be construed to limit the present powers of the county commissioners under section eighty-two of chapter one hundred and eleven of the General Laws.

SECTION 8. This act shall take effect upon its acceptance

during the current year by the county commissioners of Middlesex county, but only on the condition that the federal government shall have obligated itself during said year to make a grant therefor as contemplated by section two of this act.

Chap. 443 AN ACT PROVIDING FOR CERTAIN CHANGES IN THE TOWN MANAGER FORM OF GOVERNMENT IN THE TOWN OF MIDDLEBOROUGH.

Be it enacted, etc., as follows:

SECTION 1. Chapter five hundred and ninety-two of the acts of nineteen hundred and twenty is hereby amended by striking out sections four and five and their respective captions and inserting in place thereof, under the caption, FINANCE COMMITTEE, the two following sections:— *Section 4.* There shall be a finance committee, hereinafter and in sections five and six called the committee, consisting of seven persons. At the annual town meeting in the year nineteen hundred and thirty-seven, or at a special town meeting held prior thereto for the purpose, the town shall elect by official ballot three members of the committee until the expiration of three years, two members until the expiration of two years, and two members until the expiration of one year, from the date of said annual town meeting; and thereafter at each annual town meeting the successors of members whose terms shall then expire shall be elected to hold office for three years. Any vacancy occurring in the committee shall be filled by the election, at the next annual town meeting, of a person to serve for the unexpired term and until such election said vacancy shall be filled by a majority vote of the remaining members of the committee and the members of the board of selectmen, meeting in joint convention.

The members of the committee shall serve during the terms for which they are elected and until their successors are qualified. They shall be sworn to the faithful performance of their duties, shall serve without salary and shall not hold any other town office or employment.

Section 5. The committee shall consider and advise as to all matters relating to proposed appropriations and the manner of raising the amounts appropriated, and shall re-

port in writing at each town meeting on all articles in the warrant relating to the appropriation or borrowing of money or the indebtedness of the town. The town may by by-law provide for the publication of such reports in advance of town meetings. The committee may make recommendations in writing at any time to the town, or to the board of selectmen, relating to the financial affairs of the town. It shall submit to the town at the annual town meeting a report showing appropriations recommended for each fund or department, the estimated income from all sources, exclusive of taxes on property and poll taxes, the amount required to meet charges for interest and maturing indebtedness, and the estimated amount to be levied and raised by taxation to meet all expenses and liabilities of the town. Said report shall be filed with the town clerk and made available to the public on or before the first Monday of February in each year. The validity of appropriations made by any town meeting shall not be affected by the failure of the committee to report as herein provided.

For the purpose of enabling the committee to perform its duties, all boards, committees and officers of the town shall, within ten days after December thirty-first of each year, submit to the committee in writing a detailed estimate of the appropriations required for the efficient and proper conduct of the departments under their charge during the ensuing fiscal year and of all items of income to be received by such departments during said year and shall, at any time, furnish any other information relative thereto in their possession which may be requested in writing by the committee.

The committee is hereby authorized to incur such expenses as it may deem necessary, including the cost of the employment of experts and other assistants and the cost of printing its reports; provided, that such expenses shall not exceed, in the aggregate, the sum of two hundred and fifty dollars in any one year, unless a larger amount shall be appropriated for the purpose by the town; and expenses so incurred shall be paid by the town on requisition by the committee.

Said chapter five hundred and ninety-two is hereby further amended by striking out section six and its caption and inserting in place thereof, under the caption, APPROVAL OF BILLS, PAYROLLS AND CLAIMS, the following: — *Section 6.* No bill or payroll contracted by the town manager or by any department under the supervision of the selectmen shall be paid by the town treasurer until such bill or payroll shall have been approved by the selectmen. The selectmen may designate one or more of their members to make such approval, but this provision shall

not limit the responsibility of each member of the board. Whenever any payroll, bill or other claim against the town is presented to the town manager, town clerk, town treasurer and collector of taxes or trustees of the public library, he or they shall, if the same seems to him or them to be of doubtful validity, excessive in amount, or otherwise contrary to the interests of the town, refer it to the committee who shall immediately investigate the facts and report their findings and recommendations to the selectmen who shall determine what, if any, payment should be made. Pending such investigation and determination payment shall be withheld.

SECTION 3. Said chapter five hundred and ninety-two is hereby further amended by striking out section nine and inserting in place thereof the following:— *Section 9.* At each annual town meeting, except as hereinafter provided, the town shall elect by ballot a town officer to be known as the town treasurer and collector of taxes. Said town treasurer and collector of taxes shall receive such compensation for his services as the town may fix. The town may by by-law, from time to time, fix the term of office of the town treasurer and collector of taxes at one, two, or three years, but such by-law shall not operate to increase or decrease the term of an incumbent of said office. If the term of said office is changed as herein provided the successor of an incumbent serving a two or three year term shall be elected at the annual town meeting in the last year of the term for which he was elected.

SECTION 4. Said chapter five hundred and ninety-two is hereby further amended by striking out section eleven and its caption and inserting in place thereof, under the caption, ASSESSORS, the following:— *Section 11.* At each annual town meeting, beginning with the year nineteen hundred and thirty-seven, the town shall elect by official ballot one assessor for the term of three years to succeed the assessor whose term shall then expire. Any vacancy occurring in the office of assessor shall be filled in the manner provided by general law. The assessors shall have and exercise all the powers and rights and be subject to all the duties and liabilities now or hereafter conferred or imposed by law upon assessors of towns. Before entering upon the duties of their office, they shall be sworn to the faithful performance thereof as provided by general law.

SECTION 7. Said chapter five hundred and ninety-two is hereby further amended by striking out section sixteen and inserting in place thereof the following: — *Section 16.* The chief of the fire department shall be appointed by the selectmen, and shall receive such salary as the selectmen may from time to time determine, not exceeding the amount annually appropriated therefor. He may be removed for cause by the selectmen at any time after a hearing. He shall have charge of extinguishing fires in the town and the protection of life and property in case of fire. He shall purchase subject to the approval of the selectmen and keep in repair all property and apparatus used for and by the fire department. He shall have and exercise all the powers and rights and be subject to all the duties and liabilities conferred or imposed by law upon engineers in towns, except as herein provided, and shall appoint a deputy chief and such officers and firemen as he may think necessary, and may remove the same at any time for cause and after a hearing. He shall have full and absolute authority in the administration of the department, shall make all rules and regulations for its operation, shall report to the selectmen from time to time as they may require, and shall annually report to the town the condition of the department with his recommendations thereon. He shall fix the compensation of the permanent and call members of the fire department, subject to the approval of the selectmen. In the expenditure of money the chief shall be subject to such further limitations as the town may from time to time prescribe.

Section eighteen of said chapter five hundred and ninety-two is hereby amended by striking out the sentence contained in the fourteenth to nineteenth lines, inclusive, — so as to read as follows: — *Section 18.* The selectmen elected as provided in section two shall appoint, as soon as practicable, a town manager who shall be the administrative head of all departments of the town government, the conduct of which is by the general laws and by this act placed upon the selectmen of the town, except as

provided otherwise in this act. The town manager shall be subject to the direction and supervision, and shall hold office at the will of the selectmen, and shall be a person specially fitted by education, training or experience to perform the duties of the office. He shall be appointed without regard to his political belief, and he may or may not when appointed be a resident of the town or state. He shall be responsible for the efficient administration of all departments within the scope of his duties. Before entering upon the duties of his office, the town manager shall be sworn to the faithful and impartial performance thereof by the chairman of the selectmen, or by the town clerk, or by a justice of the peace. He shall execute a bond in favor of the town for the faithful performance of his duties in such sum and with such surety or sureties as may be fixed or approved by the selectmen.

SECTION 9. Said chapter five hundred and ninety-two is hereby further amended by striking out section thirty-six and inserting in place thereof the following: — *Section 36.* At any time in the year nineteen hundred and forty or any subsequent year, but not less than ninety days before the date of an annual town meeting, a petition signed by not less than twenty-five per cent of the registered voters of the town may be filed with the selectmen, requesting that the question of revoking the acceptance of this act be submitted to the voters. Thereupon the selectmen shall call a town meeting to be held at a date not later than forty-five days after the filing of the petition, unless such requirement would cause such meeting to be held between the fifteenth day of June and the first Tuesday of September, in which event such meeting shall be called within ten days after the first Tuesday of September. At such meeting the vote shall be taken in answer to the following question, which shall be printed on the official ballot: "Shall the acceptance by the town of Middleborough of an act passed by the general court in the year nineteen hundred and twenty, entitled 'An Act to Establish a Town Manager Form of Government for the Town of Middleborough', and all amendments thereto, be revoked?" If such revocation is favored by a majority of the voters voting thereon by ballot, the next annual town meeting shall be called by the selectmen in office and shall be held in accordance with the provisions of general law relating thereto. At such meeting town officers shall be elected in accordance with the provisions of general law, who shall have the powers therein provided, and upon the qualification of the officers so elected the terms of the town officers existing under the provisions of this act shall cease. Until such next annual town meeting and the election and qualification of such officers as provided by general law the existing form of town government shall continue under the provisions of this act and all powers and duties of the town officers therein provided for shall continue. After such next annual town meeting and the

qualification of the town officers elected thereat the provisions of this act shall cease to apply, and thereafter all provisions of general law relative to town government and town officers shall apply to the town of Middleborough. Any special laws relative to said town which are repealed by this act shall be revived when such revocation takes effect. By-laws in force when such revocation takes effect, so far as they are consistent with general laws respecting town government and town officers and with said special laws, if any, shall not be affected thereby.

SECTION 10. This act shall be submitted to the qualified voters of the town of Middleborough at the annual town meeting in the year nineteen hundred and thirty-six. The vote shall be taken by ballot in answer to the following question, which shall be printed on the official ballot: "Shall an act passed by the general court in the year nineteen hundred and thirty-five, entitled 'An Act providing for Certain Changes in the Town Manager Form of Government in the Town of Middleborough', be accepted?" If this act is accepted by a majority of the qualified voters voting thereon it shall thereupon take full effect.

Appointees of the officers and boards abolished or changed by this act shall continue to draw compensation at the same rate and to exercise like powers, authority and jurisdiction until other provision is made. The terms of office of the members of the board of public welfare of the town in office when this act takes full effect shall terminate upon the qualification of the selectmen elected at the annual town meeting in the year nineteen hundred and thirty-six. Notwithstanding the provisions of this act, the selectmen shall continue to have and exercise the powers and rights and to perform the duties and be subject to the liabilities imposed or conferred upon them by the provisions of sections four and five of said chapter five hundred and ninety-two of the acts of nineteen hundred and twenty, as in effect immediately prior to the full taking effect of this act, until the election and qualification of the members of the finance committee created by this act. *Approved July 25, 1935.*

SECTION 5. No work authorized by section six shall be commenced unless and until sufficient funds therefor shall have been allocated for such purpose by the federal government under authority of appropriate federal legislation.

SECTION 6. The board shall construct, maintain and operate for the district, subject to the approval of the department of public health, such trunk sewers, pumping stations, intercepting sewers, connections and other sewerage works as may be required for a system for suitably treating, disposing of or diverting from the waters of the Merrimack river, sewage and other pollution originating in any of said cities and towns.

SECTION 7. The board may make such contracts and enter into such other arrangements as it may deem necessary for the construction, operation and maintenance of sewers or other works hereinbefore authorized, may purchase necessary materials and supplies therefor and may secure necessary labor therefor. Every contract calling for an expenditure of more than five hundred dollars shall be in writing, and no such contract shall be awarded unless proposals for bids therefor shall previously have been published once a week for three successive weeks in two daily papers published in Essex county. Such bids shall be opened publicly at the time and place announced in such newspaper publication.

SECTION 8. In carrying out the powers and duties conferred and imposed upon the board by this act, it may locate and maintain sewers or other works hereinbefore authorized and any other necessary equipment in, on or over public ways, in public parks, and in or over railroad or railway locations, and it may alter or change the course or direction of any water course or location or grade of any way; provided, that it shall not take in fee any land of any railroad or railway corporation, nor enter upon or construct any drain, sewer or other works within the location of any railroad or railway corporation, except at such times and in such manner as it may agree upon with such corporation, or, in case of failure so to agree, as may be approved by the department of public utilities; and provided, further, that in entering upon and digging up, raising or embanking any way, the board shall be subject to such reasonable regulations as may be made by the mayor, aldermen, city council, selectmen, or other officials having jurisdiction in the premises, in the city or town in which such work is performed. In case of dispute between the board or any such city or town, the question at issue shall be determined by the state department of public works.

SECTION 9. For the purposes aforesaid the board, acting on behalf of the district, may take by eminent domain under chapter seventy-nine of the General Laws, or acquire

by purchase or otherwise, such lands, water courses, rights of way or other easements, property and rights therein as it may deem necessary. Any person, corporation or municipality whose property has been taken or injured by any action of said board under authority of this act may recover from said district under the provisions of said chapter seventy-nine such damages therefor as he or it may be entitled to. The board may sell at public auction any property, including land, acquired by it hereunder and in its opinion no longer needed in the performance of the powers and duties conferred and imposed upon it by this act, and may from time to time lease any property not then needed for such purposes by it. The board may enter upon any lands or waters for the purpose of making surveys, test pits and borings and may take or otherwise acquire the right to temporarily occupy any lands necessary for the carrying out of any of said purposes.

SECTION 10. The board may connect private sewers, or new sewers under construction with any existing sewers and may operate such sewerage system upon such terms, conditions and regulations as the board may prescribe, including the right to levy assessments upon any person for the privilege of using the sewerage facilities furnished by the board.

SECTION 11. Annually before January first the board, on behalf of the district, shall certify to the assessors of each city or town within the district the sum constituting the share of such city or town of the estimated cost of the maintenance and operation of the works maintained by the board under authority of this act for the ensuing year and also its share of any deficit for the then current or any preceding year; and the amount so certified shall be raised and appropriated by said city or town during said ensuing year and shall be paid into the treasury of the district. Each such city and town shall be annually assessed hereunder such proportion of such cost of maintenance and operation as the board shall determine, based upon the respective populations of said cities and towns as ascertained by the last preceding state or national census, except that the computation of the population of the town of Tewksbury shall not include inmates of the state infirmary in said town.

SECTION 12. For the purpose of paying the expenses of the construction of the work hereinbefore authorized, the district is hereby authorized to receive from the federal government all sums of money allocated by it for any or all of the purposes of this act, but the board shall have no right to levy upon, or to charge or collect against, any city or town in the district any portion of the cost of such construction; all expenses of construction, but excluding compensation, to be paid for exclusively out of such federal funds so allocated.

Upon the completion of any of such works, the district shall thereafter bear the entire expense of the operation and maintenance thereof.

SECTION 13. For the purpose of temporarily financing the maintenance of works constructed under authority of this act, including compensation, the district may issue its notes to an amount necessary therefor, said notes to be payable, in not more than one year from the date of their issue, in part from sums received by the board as a result of the operation and maintenance of such works and in part from sums certified to and collected from the several cities and towns of the district as hereinbefore provided.

SECTION 14. Any city or town, within the limits of which any main sewer under the control of the board is situated, shall connect its local sewers with such main sewer subject to the direction, control and regulation of the said board, and any person may, subject thereto and subject to such terms, conditions and regulations as each city or town may prescribe, connect private drains with such main sewer. The sewerage systems of all cities and towns in said district not now provided with such systems shall be constructed in accordance with the so-called separate system of sewerage.

SECTION 15. Unless prior to January first, nineteen hundred and thirty-six, at least the sum of ten million dollars has been allocated by the federal government, under authority of appropriate federal legislation, for some or all of the purposes of this act, it shall thereupon cease to be effective; provided, that nothing herein shall be deemed to affect the validity of any note lawfully issued by the district, under authority of any provision of this act, prior to said date; and provided, further, that after said date the board may continue to function, without compensation, for the purpose of determining, assessing upon and collecting from the several cities and towns in the district any moneys due or to become due from them to the district or to the board under any provision of this act or in consequence of any act or thing lawfully done by the district or by the board under authority of any such provision.

SECTION 16. This act shall take effect upon its passage.

Approved July 26, 1935.

Emergency preamble.

Be it enacted, etc., as follows:

Chapter fifty-eight A of the General Laws is hereby amended by striking out section seven A, inserted therein by section three of chapter three hundred and twenty-one of the acts of nineteen hundred and thirty-three, and inserting in place thereof the following: — *Section 7A.* The board shall establish by rule an alternative procedure,

G. L. (Ter. Ed.), 58A, § 7A, etc., amended.

Informal procedure before board of tax appeals.

hereinafter referred to as the informal procedure, for the determination of petitions for abatement of any tax upon real estate or tangible personal property, where such procedure is elected by both parties, except as hereinafter provided. Such procedure, to the extent that the board may consider practicable, shall eliminate formal rules of pleading, practice and evidence, and, except for the entry fee herein provided, may eliminate any or all fees and costs, or may provide that costs shall be in the discretion of the board. An appellant desiring to be heard under the informal procedure shall pay to the clerk the entry fee provided in section seven, except that the minimum entry fee shall be two dollars where the property on which the tax appealed from was assessed is occupied in whole or in part by the appellant as his dwelling, and shall file a written waiver of the right of appeal to the supreme judicial court, except upon questions of law raised by the pleadings or by an agreed statement of facts or shown by the report of the board, an election of the informal procedure and a written statement of the facts in the case and of the amount claimed in abatement together with such additional information as the clerk may require. The statement last referred to may be made on forms to be supplied by the board and, if the appellant so requests and the assessed value of the property concerned does not exceed twenty thousand dollars, shall be made out for the appellant by the clerk or an employee of the board designated by the board. The clerk shall then serve a copy of such statement upon the appellee. No further pleadings shall be required under this procedure if the appellee intends to offer no other defense than that the property was not overvalued; otherwise it shall file with the board within thirty days of the service of such statement an answer similar to that required under the procedure provided by section seven, hereinafter referred to as the formal procedure. If the assessed valuation of the property concerned exceeds twenty thousand dollars, the appellee, within ten days of the date of the service of such statement, may elect to have the appeal heard under the formal procedure by so notifying the clerk in writing and by paying to him a transfer fee of five dollars, in which case the said statement shall be considered to be a petition and such service to be service of the petition and the waiver of the right of appeal by the appellant shall be void. If the appellee does not so transfer the case, the informal procedure shall be deemed to have been accepted and all right of appeal waived by the appellee, except upon questions of law raised by the pleadings or by an agreed statement of facts or shown by the report of the board. No statement under the informal procedure shall relate to an assessment on more than one parcel of real estate, except where the board shall specifically permit otherwise. The chairman shall provide for the speedy hearing of all appeals to be heard under the informal procedure. The chairman

shall make every effort to reduce the expense of hearing cases filed under the informal procedure by directing whenever possible that petitions for abatement of taxes assessed upon real estate situated in the same general locality of the same town be heard together, irrespective of the identity of the appellants. *Approved July 26, 1935.*

G. L. (Ter. Ed.), 121, new sections 26I to 26BB, added.

Section 26I. This section and the nineteen following sections shall be known and may be cited as the Housing Authority Law.

Law, how cited.

Section 26J. The following words whenever used in sections twenty-six J to twenty-six AA, inclusive, shall, unless a different meaning clearly appears from the context, have the following meanings: —

Definitions.

“Housing board” or “Board”, the state board of housing established under section seventeen of chapter eighteen.

“Substandard”, a condition inconsistent with the requirements of safe, healthy and moral living.

“Area”, a section of a town wherein unsanitary or substandard housing conditions exist, and wherein at least fifty per cent of the ground space, exclusive of space used for streets and ways, is occupied by buildings which are used principally for human habitation and are substandard. Subject to the foregoing, an area may include land improved or unimproved, and buildings or improvements not in themselves unsanitary or substandard, the inclusion of which is necessary for the effective clearance, replanning or reconstruction of the area or any part thereof.

“Housing Authority” or “Authority”, a public body politic and corporate created pursuant to the provisions of section twenty-six L.

“Project”, a plan or undertaking for the clearance, replanning or reconstruction of an area or areas, or part or parts thereof; and as a part of the plan for the clearance, replanning or reconstruction of such area or areas, for providing for persons of low income housing accommodations in said area or areas and in addition elsewhere, to the extent necessary to provide in the aggregate accommodations for persons equal in number to those whose dwellings on said area or areas are demolished. The word “project” shall include the lands, buildings and improvements acquired, owned, constructed, managed or operated hereunder, to provide

housing accommodations for persons of low income, and such stores, and commercial, social, recreational or communal facilities as may reasonably be incidental or appropriate to such project.

Power to take private property.

Section 26K. It is hereby declared that in certain portions of the commonwealth there exist unsanitary or substandard housing conditions, and that there is not in the commonwealth, within a reasonable distance of the principal centres of employment, an adequate supply of decent, safe and sanitary dwelling accommodations for persons of low income; that this situation tends to cause an increase and spread of disease and crime and constitutes a menace to the health, safety, morals, welfare and comfort of the inhabitants of the commonwealth and is detrimental to property values therein; that this situation cannot readily be remedied by the ordinary operations of private enterprise; that the clearance, replanning and reconstruction of the sections in which unsanitary or substandard housing conditions exist and the providing of decent, safe and sanitary dwelling accommodations in such sections and, in connection with such clearance, the replanning and reconstruction of dwellings elsewhere as provided in section twenty-six J for persons of low income are purposes for which private property may be acquired by eminent domain; and the enactment of sections twenty-six J to twenty-six AA, inclusive, is declared to be a public necessity.

Municipal housing authority may be established.

Section 26L. Whenever the mayor and city council of a city determine that a housing authority is needed therein for the purpose of remedying conditions of the type referred to in section twenty-six A, they may by vote establish such an authority. A town may vote, in an annual town meeting or in a special town meeting called therefor, to establish such an authority for such purpose. If a town so votes, four members of such an authority shall be designated forthwith by the selectmen to serve until the next annual town meeting, when they shall be succeeded by the elective members hereinafter provided for, who shall be elected at such annual town meeting. No special town meeting for the purpose of voting on the question of establishing a housing authority shall be held less than sixty days prior to the annual town meeting. Every such authority shall be a body politic and corporate and shall be managed, controlled and governed by five members, appointed or elected as herein provided. In a city, four members shall be appointed by the mayor and city council and one by the housing board; provided, that, of the members originally appointed, the member appointed by the board shall serve for the term of three years, and that the other members shall be appointed to serve for terms of one, two, four and five years, respectively. In a town, four members shall be elected by the town and one appointed by the housing board; provided, that, of the members originally elected at an annual town meeting, the one receiving the highest number of votes

shall serve for five years, the one receiving the next highest number of votes, for four years, the one receiving the next highest number of votes, for two years, and the one receiving the next highest number of votes, for one year, and that the member originally appointed by the board shall serve for three years. Thereafter, as the term of a member of any such housing authority expires, his successor shall be appointed or elected, in the same manner and by the same authority, for the term of five years. Vacancies, other than by reason of expiration of terms, shall be filled in like manner for the balance of the unexpired term. Three members shall constitute a quorum. Every member, unless sooner removed, shall serve until the qualification of his successor.

The name of every housing authority shall include the name of the city or town and the words "Housing Authority".

As soon as possible after the qualification of the members of a housing authority the city or town clerk, as the case may be, shall file a certificate of such appointment or election, or both, with the board and a duplicate thereof in the office of the state secretary, whereupon such housing authority shall be established. Whenever the membership of a housing authority is changed, by appointment, election, resignation or removal, a certificate and a duplicate certificate to that effect shall promptly be so filed. A certificate so filed shall be conclusive evidence of the proper establishment, or of the change in membership, as the case may be, of the housing authority referred to therein.

The mayor and city council or the board of selectmen may make or receive written charges against, and may after hearing remove, because of inefficiency, neglect of duty and misconduct in office, or any of such causes, a member of a housing authority appointed by the mayor and city council, elected by the town or designated by the selectmen, as the case may be; provided, that such member shall have been given, not less than fourteen days before the date set for such hearing, a copy in writing of the charges against him and written notice of the date and place of the hearing to be held thereon, and at the hearing shall have been given the opportunity to be represented by counsel and to be heard in his own defence. Pending their final action upon any such charges, the mayor and city council or the board of selectmen, as the case may be, may temporarily suspend such member; provided, that if they find that such charges have not been substantiated, they shall immediately reinstate him in his office. In case of any such removal the removing authority shall forthwith deliver to the clerk of the city or town, for filing with the certificate and with the duplicate certificate, attested copies of such charges and of its findings thereon.

The mayor and city council or the board of selectmen, as the case may be, may prefer to the board written charges

of inefficiency, neglect of duty and misconduct in office, or any of such charges, against the member of a housing authority appointed by the board, in which case the pertinent provisions of the preceding paragraph relative to notice, hearing, suspension, removal or reinstatement, and filing, shall apply to proceedings before the board. If, after hearing thereon, the board finds the charges, or any of them, to have been substantiated, and that removal of the member is advisable, it shall remove such member.

Members of a housing authority shall receive no compensation for their services, but shall be allowed, or be reimbursed for, all expenses properly incurred by them in the discharge of their duties. Such expenses may be allocated by the housing authority among its various projects, in such manner and amounts as it deems proper.

Chairman,
etc.

Section 26M. A housing authority shall elect from among its members a chairman and a vice-chairman, and may employ counsel, a director who shall be ex-officio secretary of the housing authority, and such other officers, agents and employees as it deems necessary or proper, and shall determine their qualifications, duties and compensation; provided, that no payments for or on account of the compensation or expenses of any person employed hereunder except as authorized by section twenty-six T shall be made from any funds received from the city or town, but shall be made exclusively from the funds of, and be a part of the expenses of, the project or projects undertaken by such housing authority.

Agents of
authority.

Section 26N. A housing authority may delegate to one or more of its members, agents or employees such powers and duties as it deems necessary or proper for the carrying out of any action determined upon by it.

Members and
agents not to
be interested
financially
in projects.

Section 26O. No member, agent or employee of a housing authority shall, directly or indirectly, have any interest, financial or otherwise, in any property to be included in, or any contract for property, materials or services to be furnished or used in connection with, any project of such housing authority. Whoever violates any provision of this section shall be punished by a fine of not less than fifty nor more than one thousand dollars, or by imprisonment for not more than one month, or both.

Authority
may borrow
money.

Section 26P. A housing authority, with the written approval of the board in each instance, may enter into agreements, relative to the acceptance or borrowing of funds for any project or providing for the supervision or control of any project, with the federal government or any agency thereof, including specifically, but without limiting the generality of the preceding provision, the Federal Emergency Administration of Public Works, the Federal Housing Administration and the Public Works Emergency Housing Corporation. Any such agreement may also contain such other covenants, terms and conditions as the housing authority, with like approval, may deem advisable.

Section 26Q. A housing authority shall have all the powers necessary or convenient to carry out and effectuate the purposes and provisions of sections twenty-six J to twenty-six AA, inclusive, including clearing, replanning or rebuilding areas in the city or town in which it is established and providing housing therein or elsewhere to the extent designated in section twenty-six J for persons of low income and shall have the following powers in addition to others specifically granted elsewhere in said sections: —

Powers of
housing
authority.

(a) To sue and to be sued; to have a seal; to have corporate succession; to receive loans and grants from the federal government or any agency thereof; to conduct investigations relative to housing and living conditions and any other matter deemed by it to be material for its information in connection with any of its powers and duties.

(b) To determine what areas within its jurisdiction are unsanitary or substandard and to prepare plans for projects in such areas or elsewhere to the extent designated in section twenty-six J; to take by eminent domain under chapter seventy-nine or chapter eighty A of the General Laws, or to purchase or lease, or to acquire by gift, bequest or grant, and hold, sell, exchange, transfer, assign or mortgage, any property in such areas, real or personal, or any interest therein, found by it to be necessary or reasonably required to carry out the purposes of sections twenty-six J to twenty-six AA, inclusive, or any of such sections; provided, that no land shall be taken by eminent domain under said chapter seventy-nine for the location of a project unless the authority has first acquired control over at least sixty-five per cent of the territory required for such project by purchase or gift or by contract for or option to purchase; and provided, further, that in case of a taking by eminent domain under said chapter seventy-nine, the provisions of section forty of said chapter shall be applicable, except that the security therein required shall be deposited with the mayor of the city or the selectmen of the town in which the property to be taken is situated; to clear and improve any property so acquired; to engage in or contract for the construction, reconstruction, alteration or repair of any project or parts thereof; to act as agent of, or to cooperate with, any agency of the federal government in any clearance or housing project; to lease, to operate, and to establish, or revise, schedules of rents for, any project or part thereof undertaken by it; to borrow money upon the security of its bonds, notes or other evidences of indebtedness and to secure the same by mortgages upon property held or to be held by it or by pledge of its revenue or in any other lawful manner; to invest in securities legal for the investment of funds of savings banks any funds held by it and not required for immediate disbursement; to enter into, execute and carry out contracts and all other instruments necessary or convenient to the exercise of the powers granted in said sections twenty-six J to twenty-six AA, inclusive; and

to make, and from time to time to amend or repeal, by-laws, rules and regulations to carry into effect its powers and purposes under said sections; provided, that the same are not inconsistent with said sections, or with the pertinent rules and regulations of the housing board, or with law.

Approval of
plans, etc.

Section 26R. When an area shall have been determined by a housing authority to be an area within which a project should be constructed, said housing authority may design a project for the clearance and rebuilding of the area, or any part thereof, or for providing housing accommodations for persons of low income in an area so cleared, and shall submit to the housing board the plans and layout of the project, the estimated cost thereof, the proposed method of financing it, and a detailed estimate of the expenses and revenues thereof. If the housing board finds that the plans and layout conform to proper standards of health, sanitation and safety, that the financial plan is sound and that with the aid of any federal grant or other subsidy the revenue from the project will be sufficient to meet its annually recurring expenses, including, without limitation of the foregoing, taxes, depreciation and service of its indebtedness, and that the probable costs are such that it will be practicable to rent the reconstructed or newly constructed property within the maximum rentals established by the housing board for the locality within which such project is to be undertaken without incurring an annual deficit, it shall, within thirty days after submission of the project give written notice to the authority of its approval. If the housing board shall disapprove any project, it shall state in writing its reasons for disapproval. Unless and until such written approval is obtained, the housing authority shall not, except as otherwise provided in the following section, undertake such project. A project which has not been approved by the housing board when submitted to it may be again submitted to it with such modifications as are necessary to meet its objections.

property.

Section 26S. When a housing authority has determined the location of a proposed project it may, without awaiting the approval of the housing board, proceed, by option or otherwise, to obtain control of the real property within the area, provided that it shall not unconditionally obligate itself to purchase any such property. When a project has been approved, and notice thereof given to the housing authority, the housing authority may proceed at once to acquire real estate within the location of the project, either by eminent domain as provided in section twenty-six Q or by grant, purchase, lease, gift, exchange or otherwise, and may construct, or contract for the construction of, the buildings and facilities planned for the project. Except as herein otherwise provided, the provisions of said chapter seventy-nine and said chapter eighty A relative to counties, cities, towns and districts, so far as pertinent, shall be applicable to a housing authority, and the members of a housing authority shall act on its behalf under said chapter.

Section 26T. For the purpose of defraying the initial costs and expenses of a housing authority authorized to be established therein, including the expenses of preparing plans, making surveys, and the like, in connection with one or more proposed projects, a city or town with a valuation of less than five million dollars may appropriate not more than one thousand dollars; a city or town with a valuation of five million dollars but less than twenty million dollars may appropriate not more than three thousand dollars; a city or town with a valuation of twenty million dollars but less than seventy-five million dollars may appropriate not more than four thousand dollars; a city or town with a valuation of seventy-five million dollars but not more than one hundred and fifty million dollars may appropriate not more than five thousand dollars; and a city or town with a valuation of more than one hundred and fifty million dollars may appropriate five thousand dollars for each one hundred and fifty million dollars of valuation or fraction thereof.

City or town may borrow funds to pay initial costs, etc.

Section 26U. Upon the completion of a project by a housing authority, it shall be maintained and operated by such authority until the property therein is sold or otherwise disposed of. The rentals for the housing facilities therein shall not exceed the maximum rentals fixed by the housing board for projects in the locality by regulations made pursuant to section twenty-six Y unless higher rentals are authorized by the housing board in any particular case. The real estate of a housing authority, together with improvements thereon, shall be subject to taxation at the same rate and in the same manner as other property in the same city or town. All projects of a housing authority shall be subject to the town planning, zoning, health and building laws, ordinances, by-laws and regulations.

Management of project upon completion.

Section 26V. Each housing authority shall keep an accurate account of all its activities and of all its receipts and expenditures and shall annually in the month of January make a report thereof to the housing board. All moneys received in excess of operating expenses shall first be devoted to the payment of interest upon the obligations and to the fulfillment of all contractual and other requirements with respect to the payment of the principal thereof.

Accounts to be kept.

Section 26W. No bond, note or other evidence of indebtedness executed, or obligation or liability incurred, by a housing authority shall be a debt or charge against the commonwealth or any political subdivision thereof other than such housing authority. A housing authority shall be liable in contract or tort in the same manner as a private corporation. The members of a housing authority shall not be personally liable as such on its contracts, or for torts not committed or directly authorized by them.

Indebtedness restricted.

Section 26X. Whenever a housing authority desires to discontinue its operations, it shall make application to the housing board for authority to dissolve. If such applica-

tion be granted, the housing board shall act as receiver of such authority, subject to the supervision of the superior court for the county in which the authority is located, and shall take possession, and dispose, of all property belonging to the housing authority and, after paying all indebtedness of the housing authority and the expenses of administering its dissolution, shall pay the balance remaining, if any, into the treasury of the city or town in which the housing authority operated.

Board may investigate affairs of authorities.

Section 26Y. The housing board may investigate the affairs of housing authorities and their dealings, transactions and relationships. It shall have the same power to examine into the properties and records of housing authorities and to prescribe methods of accounting and the rendering of periodical reports in relation to projects undertaken by them as is provided by sections twenty-three to twenty-six H, inclusive, in the case of limited dividend corporations. It may from time to time make, amend and repeal rules and regulations fixing standards and principles governing the planning, construction, maintenance and operation of projects by housing authorities. Such rules and regulations shall provide for limiting the occupancy as tenants of space in housing constructed as part of a project to persons whose financial circumstances are such that they cannot afford to rent space in privately owned housing which is not substandard, within a reasonable distance of such project. The maximum rents to be charged for housing accommodations provided by projects shall be set by the board for each locality at a figure sufficiently low to be within the means of laborers and wage earners of low income. Compliance with the provisions of sections twenty-six J to twenty-six AA, inclusive, the rules and regulations adopted by the housing board hereunder, and the terms of a project approved by the housing board, may be enforced in the same manner as is provided by section twenty-six B for the enforcement of the orders of the housing board in the case of a project operated by a limited dividend corporation, and all pertinent provisions of said section twenty-six B shall apply in case of any non-compliance with any provision of said sections twenty-six J to twenty-six AA, inclusive.

Commonwealth not to be obligated for any indebtedness.

Section 26Z. Nothing in sections twenty-six J to twenty-six AA, inclusive, shall be construed to obligate the commonwealth, or to pledge its credit, to any payment whatsoever to any housing authority or to any stockholder, bondholder or creditor thereof, nor shall anything therein contained be construed as granting to any housing authority any exemption from taxation or to render the commonwealth liable for any indebtedness or liability incurred, acts done (including any taking by eminent domain), or omissions or failures to act, of any housing authority.

Civil service rules, etc., not to apply to employees.

Section 26AA. Chapter thirty-one and the rules and regulations made thereunder shall not apply to any officer,

agent or employee of a housing authority or to any person employed on, or in connection with, any project of a housing authority.

Section 26BB. The provisions of sections twenty-six I to twenty-six AA, inclusive, are hereby declared to be severable and, if any such provision shall be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not be construed to affect the validity or constitutionality of any of the remaining provisions of said sections. It is hereby declared to be the legislative intent that said sections would have been adopted had such invalid or unconstitutional provision not been included therein.

NAME AND DATE SYSTEM IS FIRST OPERATIVE.

SECTION 3. A retirement system is hereby established and placed under the management of the retirement board

for the purpose of providing retirement allowances under the provisions of this act for employees of, or employees paid by, the city. The retirement system so created shall have the powers and privileges of a corporation and shall be known as the "Fitchburg Retirement System", and by such name all of its business shall be transacted, all of its funds invested, all warrants for money drawn and payments made, and all of its cash and securities and other property held. The retirement system so created shall begin operation upon the first day of January, nineteen hundred and thirty-six.

MEMBERSHIP.

SECTION 4. Except as expressly limited herein as to age, in paragraph four of this section, the membership of the retirement system shall be constituted as follows:—

(a) All persons who become employees and, except as otherwise provided in the last sentence of subsection (2) of section nine, all employees who enter or re-enter the service of the city on or after the date the retirement system becomes operative may become members of the retirement system on their own application, and all such employees who shall complete one year of service thereafter and disability beneficiaries restored to active service to whom the provisions of subsection (3) of said section nine apply shall become members of the retirement system, and after becoming members as above provided shall receive no pension or retirement allowance from any other pension or retirement system supported wholly or in part by the city, nor shall they be required to make contributions to any other pension or retirement system of the city, anything to the contrary in this or any other special or general law notwithstanding.

(b) All persons who are employees on the date when this retirement system becomes operative and who are not then covered by any other pension or retirement law of the commonwealth shall become members as of the first day this retirement system becomes operative, unless on or before a date not more than ninety days thereafter, to be set by the retirement board, any such employee shall file with the retirement board on a form prescribed by the board, a notice of his election not to be covered in the membership of the system and a duly executed waiver of all present and prospective benefits which would otherwise inure to him on account of his participation in the retirement system.

(c) An employee who is covered by any other pension or retirement law of the commonwealth, including a special law accepted by, and applicable to employees of, the city on the date when this retirement system becomes operative shall not be considered to have become a member of this retirement system unless said employee shall then or thereafter make written application to join this system and shall therein waive and renounce all benefits of any other pension or retirement system supported wholly by the city, but

no such employee shall receive credit for prior service unless he make such application for membership within one year from the date this retirement system becomes operative.

(2) An employee whose membership in the retirement system is contingent on his own election and who elects not to become a member may thereafter apply for and be admitted to membership; but no such employee shall receive prior service credit unless he becomes a member within one year from the date this retirement system becomes operative.

(3) The retirement board may deny the right to become members to any class of officials appointed for fixed terms, or to any class of part-time employees, or it may, in its discretion, make optional with persons in any such class their individual entrance into membership.

(4) Persons over the age of fifty-five who enter the service of the city on or after the date when this retirement system becomes operative shall not become members thereof, and no such employee shall remain in the service of the city after reaching the age of seventy.

(5) It shall be the duty of the head of each department to submit to the retirement board a statement showing the name, title, compensation, duties, date of birth and length of service of each member of his department, and such information regarding other employees therein as the retirement board may require. The retirement board shall then place each member in one of the following groups: —

Group 1. — General employees, including clerical, administrative and technical workers, laborers, mechanics and all others not otherwise classified;

Group 2. — Members of the police department and the fire department of the city;

Or in any other group of not less than two hundred and fifty persons which may be hereafter recommended by the actuary on the basis of service and mortality experience, and approved by the retirement board to cover all or part of any group or groups previously created or any additional classes of employees. When the duties of a member so require, the retirement board may reclassify him in and transfer him to another group.

(6) Should any member in any period of six consecutive years after last becoming a member be absent from service more than five years, or should any member withdraw his accumulated deductions or become a beneficiary hereunder or die, he shall thereupon cease to be a member.

CREDITABLE SERVICE.

SECTION 5. (1) Under such rules and regulations as the retirement board shall adopt, each person becoming a member within one year from the date he first becomes eligible to membership who was in service at the time the system became operative, or who re-entered the service within five years after rendering service prior to the time

the system became operative shall file a detailed statement of all service as an employee rendered by him prior to the day on which the system first became operative for which he claims credit, and of such facts as the retirement board may require for the proper operation of the system.

(2) The retirement board shall fix and determine by appropriate rules and regulations how much service in any year is equivalent to a year of service, but in no case shall more than one year of service be creditable for all service in one calendar year, nor shall the retirement board allow credit as service for any period of more than one month's duration during which the employee was absent without pay.

(3) Subject to the above restrictions and to such other rules and regulations as the retirement board may adopt, the retirement board shall verify, as soon as practicable after the filing of such statements of service, the service therein claimed, and shall certify as creditable all or such part of the service claimed as may be allowable.

In lieu of a determination of the actual compensation of the member that was received during such period of prior service, the retirement board shall use for the purposes of this act the compensation rates which, if they had progressed in accordance with the rates of salary increase shown in the tables as prescribed in paragraph (10) of section fourteen of this act, would have resulted in the same average salary of the member for the five years immediately preceding the date this system became operative as the records show the member actually received.

(4) Upon verification of the statements of service the retirement board shall issue prior service certificates certifying to each member entitled to credit for prior service the length of service rendered prior to the date the retirement system first became operative, with which he is credited on the basis of his statement of service. So long as membership continues a prior service certificate shall for retirement purposes be final and conclusive as to such service; provided, that any member may, within one year from the date of issuance or modification of such certificate, request the retirement board to modify or correct his prior service certificate.

When membership ceases such prior service certificates shall become void. Should the employee again become a member, such employee shall enter the system as an employee not entitled to prior service credit except as provided in subsection three of section nine.

(5) Creditable service at retirement shall consist of the membership service rendered by the member since he last became a member and also, if he has a prior service certificate which is in full force and effect, the amount of the service certified on his prior service certificate.

SERVICE RETIREMENT.

Conditions for Allowance.

SECTION 6. (1) Any member in service who shall have attained age sixty shall, either upon his own written application or that of the head of his department, be retired for superannuation not less than thirty nor more than ninety days after the filing of such application. A member whose retirement is applied for by the head of his department or the mayor shall be entitled to a notice of such application and to a hearing before the retirement board, provided he requests such hearing in writing within ten days of the receipt of such notice; and unless the retirement board finds on hearing, that the member is able to properly perform his duties and files a copy of its findings with the head of his department, the retirement shall become effective thirty days from the time of the filing of such finding.

Any member in service who shall have attained age seventy shall be retired for superannuation not less than thirty nor more than ninety days after attaining such age, or after this system becomes operative, if such age was attained prior thereto.

Amount of Allowance.

(2) Upon retirement for superannuation a member of the retirement system shall receive a retirement allowance consisting of —

(a) An annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement, and

(b) A pension equal to the annuity allowable at age sixty, computed on the basis of contributions made prior to the attainment of age sixty, and

(c) If he has a prior service certificate in full force and effect an additional pension which is the actuarial equivalent of twice the pension which would have been payable under paragraph (b) above, on account of the accumulated deductions which would have resulted from contributions made during the period of his creditable prior service had the system then been in operation.

The total pension of any member payable under the provisions of this section shall not, however, exceed one half of his average annual regular compensation during the five years immediately preceding his retirement, nor shall the total pension of any member who has fifteen or more years of total creditable service be less than an amount which, added to his annuity, shall make his total retirement allowance equal to four hundred and eighty dollars per annum.

ORDINARY DISABILITY RETIREMENT.

Conditions for Allowance.

SECTION 7. (1) Upon the application of a member in service or of the head of his department, any member who

has had twenty or more years of creditable service may be retired by the retirement board, not less than thirty and not more than ninety days next following the date of filing such application, on an ordinary disability retirement allowance; provided, that the city physician, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity is likely to be permanent and that such member should be retired.

Amount of Allowance.

(2) Upon retirement for ordinary disability a member shall receive a service retirement allowance if he has attained age sixty; otherwise he shall receive an ordinary disability retirement allowance consisting of —

(a) An annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement, and

(b) A pension of ninety per centum of the pension that would have been provided by the city for the member had he remained without further change of compensation in the service of the city until he reached age sixty and then retired.

ACCIDENTAL DISABILITY RETIREMENT.

Conditions for Allowance.

SECTION 8. (1) Upon application of a member in service, or of the head of his department, any member who has been totally and permanently incapacitated for duty as the natural and proximate result of an accident occurring in the performance and within the scope of his duty at some definite time and place, without wilful negligence on his part, shall be retired not less than thirty nor more than ninety days following the date of filing of such application; provided, that the city physician, after an examination of such member, shall report that said member is physically or mentally incapacitated for the further performance of duty, that such incapacity is likely to be permanent, and that said member should be retired, and the retirement board shall concur in such report and find that the physical or mental incapacity is the natural and proximate result of such an accident and that such disability is not the result of wilful negligence on the part of said member and that said member should be retired.

Amount of Allowance.

(2) Upon retirement for accidental disability a member shall receive a service retirement allowance if he has attained age sixty; otherwise he shall receive an accidental disability retirement allowance consisting of —

(a) An annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement, and

(b) A pension equal to one half of the average rate of his regular annual compensation for the year immediately preceding the date of the accident.

RE-EXAMINATION OF BENEFICIARIES RETIRED ON ACCOUNT OF DISABILITY.

SECTION 9. (1) Once each year during the first five years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the retirement board may, and upon his application shall, require any disability beneficiary who has not yet attained age sixty to undergo a medical examination by the city physician or a physician or physicians designated by the retirement board and approved by the mayor, such examination to be made at the place of residence of said beneficiary or other place mutually agreed upon. Should any disability beneficiary who has not yet attained the age of sixty refuse to submit to at least one medical examination in any such period of one or three years, as the case may be, his allowance may be discontinued until his withdrawal of such refusal, and should his refusal continue for a year, all his rights in and to his pension shall be revoked by the retirement board.

(2) Should such physician or physicians report and certify to the retirement board that such disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference between his retirement allowance and his final regular compensation, and should the retirement board concur in such report, then the amount of his pension shall be reduced to an amount which, together with his annuity and the amount earnable by him, shall equal the amount of his final regular compensation. Should his earning capacity be later changed, the amount of his pension may be further modified; provided, that the new pension shall not exceed the amount of the pension originally granted nor shall it exceed an amount, which, when added to the amount earnable by the beneficiary together with his annuity, equals the amount of his final regular compensation. A beneficiary restored to active service at a salary less than the final regular compensation upon the basis of which he was retired shall not become a member of the retirement system.

(3) Should a disability beneficiary be restored to active service at a compensation not less than his final regular compensation, his retirement allowance shall cease, he shall again become a member of the retirement system, and he shall contribute thereafter at the same rate he paid prior to disability. Any prior service certificate on the basis of which his service was computed at the time of his retirement shall be restored to full force and effect, and in addition upon his subsequent retirement he shall be credited with all his service as a member.

RETURN OF ACCUMULATED DEDUCTIONS.

SECTION 10. (1) Within sixty days after the filing with the retirement board of a request therefor, any member who shall have ceased to be an employee by resignation or discharge or for any reason other than death or retirement shall be paid the amount of his accumulated deductions.

(2) Should a member die while an employee, his accumulated deductions shall be paid to his legal representative; provided, that if the sum so due does not exceed three hundred dollars, and there has been no demand therefor by a duly appointed executor or administrator, payment may be made, after the expiration of three months from the date of death of such member, to the persons appearing, in the judgment of the retirement board, to be entitled thereto, and such payment shall be a bar to recovery by any other person.

ACCIDENTAL DEATH BENEFIT.

SECTION 11. If, upon receipt by the retirement board of proper proofs of the death of a member, the retirement board shall decide that such death was the natural and proximate result of an accident occurring not more than one year prior to the date of death at some definite time and place while the member was in actual performance and within the scope of his duty, and not the result of wilful negligence on his part, and if the deceased member is survived by any of the dependents enumerated below, there shall be paid, in addition to accumulated deductions under subsection (2) of section ten, an accidental death benefit consisting of a pension equal to one half the average regular annual compensation received by the deceased member for the year preceding the date of the accident, said pension to be paid —

(a) To the surviving husband or wife of the deceased member so long as he or she lives and remains unmarried; or

(b) If there be no surviving husband or wife or if the surviving husband or wife dies or remarries before every child of such deceased member shall have attained the age of eighteen years, then to his child or children under such age, divided in such manner as the retirement board in its discretion shall determine, to continue as a joint and survivor pension until every such child dies or attains the age of eighteen years; or

(c) If there be no husband or wife or child under the age of eighteen years surviving such deceased member, then to either his or her dependent father or dependent mother, as the retirement board in its discretion shall determine, to continue for life or until remarriage.

OPTIONAL BENEFITS.

SECTION 12. Subject to the provisions that no optional selection shall be effective in case a beneficiary dies within

thirty days after retirement, and that such a beneficiary shall be considered as an active member at the time of death, until the first payment on account of any retirement allowance is made, the member, or if he be an incompetent then his wife, or if he have no wife, his conservator or guardian, may elect to convert the retirement allowance otherwise provided for in this system into a lesser retirement allowance of equivalent actuarial value payable throughout his life, with the provision that —

Option 1. — If he die before he has received in payments of his annuity the present value of his annuity as it was at the time of his retirement, the balance shall be paid to his legal representative or to such person having an insurable interest in his life as he, or if he be an incompetent then his wife, or if he have no wife, his conservator or guardian, shall have nominated by written designation duly acknowledged and filed with the retirement board; or

Option 2. — Upon his death, his lesser retirement allowance shall be continued throughout the life of and paid to such person having an insurable interest in his life as he, or if he be an incompetent then his wife, or if he have no wife, his conservator or guardian, shall have nominated by written designation duly acknowledged and filed with the retirement board at the time of his retirement; or

Option 3. — Upon his death, one half his lesser retirement allowance shall be continued throughout the life of and paid to such person having an insurable interest in his life as he, or if he be an incompetent then his wife, or if he have no wife, his conservator or guardian, shall have nominated by written designation, duly acknowledged and filed with the retirement board at the time of his retirement.

COMPENSATION BENEFITS OFFSET.

SECTION 13. Any amounts paid or payable by the city under the provisions of the workmen's compensation law to a member or to the dependents of a member on account of death or disability shall be offset against and payable in lieu of any benefits payable out of funds provided by the city under the provisions of this act on account of the death or disability of a member. If the value of the total commuted benefits under the workmen's compensation law is less than the reserve on the pension otherwise payable under this act, the value of such commuted payments shall be deducted from such pension reserve and such benefits as may be provided by the pension reserve so reduced shall be payable under the provisions of this act.

ADMINISTRATION.

SECTION 14. (1) The management of the retirement system is hereby vested in a retirement board, the membership of which shall be constituted as follows: —

(a) The auditor of the city for the time being;

(b) One person to be appointed by the mayor of the city, subject to confirmation by the city council, who shall serve for a term of three years commencing on the date when the retirement system becomes first operative and until the qualification of his successor, and

(c) One person who shall be a member of the retirement system and who shall be appointed by the mayor of the city subject to such confirmation, to serve for a term of one year commencing on the date when the retirement system becomes first operative and until the qualification of his successor.

(2) As the terms of the appointed members expire, their successors shall be appointed for terms of three years each and until the qualification of their successors. On a vacancy occurring in the appointed membership of the retirement board, for any cause other than the expiration of a term of office, a successor to the person whose place has become vacant shall be appointed for the unexpired term in the same manner as above provided.

(3) The members of the retirement board shall serve without compensation; but they shall be reimbursed from the expense fund for any expense or loss of salary or wages which they may incur through service on the retirement board.

(4) The retirement board shall elect from its membership a chairman, and shall by a majority vote of all its members appoint a secretary, who may be, but need not be, one of its members. It shall engage such actuarial and other service as shall be required to transact the business of the retirement system. The funds to meet the costs of administering the retirement system shall be derived from appropriations of the city from the annual tax levy. The retirement board shall submit an estimate of such costs to the mayor not later than January first of each year. Such amount as shall be required in the first year of operation to defray the expenses of the establishment and maintenance of the retirement system shall be appropriated by the city council.

(5) The retirement board shall keep in convenient form such data as shall be necessary for actuarial valuations of the various funds of the retirement system and for checking the experience of the system.

(6) The retirement board shall keep a record of all of its proceedings, which shall be open to public inspection. It shall publish annually a report showing the fiscal transactions of the retirement system for the preceding municipal year, the amount of accumulated cash and securities of the system, and the last balance sheet showing the financial condition of the system by means of actuarial valuation of the assets and liabilities thereof. The board shall submit said report to the mayor and shall furnish copies thereof to the city clerk for distribution.

(8) The city physician of the city shall arrange for and pass upon all medical examinations required under the provisions of this act, shall investigate all essential statements and certificates by or in behalf of a member in connection with an application for disability retirement, and shall report in writing to the retirement board his conclusions and recommendations upon all the matters referred to him. If required, other physicians may be employed by the retirement board to report on special cases.

Duties of Actuary.

(9) The retirement board shall designate an actuary who shall be the technical adviser of the retirement board on matters regarding the operation of the funds created by the provisions of this act, and shall perform such other duties as are required in connection therewith.

(10) Immediately after the establishment of the retirement system the actuary shall make such investigation of the mortality, service and compensation experience of the members of the system as he shall recommend and the retirement board shall authorize, and on the basis of such investigation he shall recommend for adoption by the retirement board such tables and such rates as are required by section fifteen. The retirement board shall adopt tables and certify rates, and as soon as practicable thereafter the actuary shall make a valuation, based on such tables and rates, of the assets and liabilities of the funds created by this act.

(11) Three years after the system becomes operative, and at least once in each five-year period thereafter, the actuary shall make an actuarial investigation into the mortality, service and compensation experience of the members and beneficiaries of the retirement system, and shall make a valuation of the assets and liabilities of the funds thereof, and taking into account the result of such investigation and valuation the retirement board shall —

(a) Adopt for the retirement system such mortality, service and other tables as shall be deemed necessary; and

(b) Certify the rates of contribution payable by the city on account of new entrants.

(12) On the basis of such tables as the retirement board shall, from time to time, adopt, the actuary shall make an annual valuation of the assets and liabilities of the reserve funds of the system created by this act.

METHOD OF FINANCING.

SECTION 15. All of the assets of the retirement system shall be credited, according to the purpose for which they

are held, to one of the following five funds, namely, the Annuity Savings Fund, the Annuity Reserve Fund, the Pension Accumulation Fund, the Pension Reserve Fund, or the Expense Fund.

Annuity Savings Fund.

(1) (a) The Annuity Savings Fund shall be the fund to which shall be paid the deductions from the compensation of members. The treasurer of the city shall withhold four per centum of the regular compensation due on each pay day to all employees who are members of this retirement system; provided, however, that employees who receive more than fifty dollars weekly, in compensation, shall not be assessed for contributions to this fund above that amount. The various amounts so withheld shall be transferred immediately thereafter to the retirement system and credited to the accounts of the respective members so contributing, and shall be paid into and become a part of said Annuity Savings Fund.

(b) In determining the amount earnable by a member in a payroll period, the retirement board may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deduction from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period.

(c) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions provided for herein and shall receipt for his full salary or compensation, and the payment of his full salary or compensation less the deductions provided for hereunder shall be considered a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided under this act.

(d) In addition to the contributions deducted from compensation as hereinbefore provided, subject to the approval of the retirement board, any member may redeposit in the Annuity Savings Fund by a single payment or by an increased rate of contribution an amount equal to the total amount which he previously withdrew therefrom, as provided in this act, or any part thereof; or any member may deposit therein by a single payment or by an increased rate of contribution an amount computed to be sufficient to purchase an additional annuity, which, together with his prospective retirement allowances, will provide for him a total retirement allowance of not to exceed one half of his salary, at age sixty. Such additional amounts so deposited shall be treated as a part of his accumulated deductions, except in the event of his retirement, when they shall not be

used to increase the pension payable, and shall be treated as excess contributions returnable to the member in cash or in providing an excess annuity of equivalent actuarial value. The accumulated deductions of a member withdrawn by him or paid to his estate or to his designated beneficiary in event of his death as provided in this act shall be paid from the Annuity Savings Fund. Upon the retirement of a member his accumulated deductions shall be transferred from the Annuity Savings Fund to the Annuity Reserve Fund.

Annuity Reserve Fund.

(2) The Annuity Reserve Fund shall be the fund from which shall be paid all annuities and all benefits in lieu of annuities, payable as provided in this act. Should a beneficiary, retired on account of disability, be restored to active service with a compensation not less than his regular compensation at the time of his last retirement, his annuity reserve shall be transferred from the Annuity Reserve Fund to the Annuity Savings Fund, and credited to his individual account therein.

Pension Accumulation Fund.

(3) (a) The Pension Accumulation Fund shall be the fund into which shall be accumulated all reserves for the payment of all pensions and other benefits payable from contributions made by the city, and from which shall be paid all pensions and other benefits on account of members with prior service credit. Contributions to and payments from the Pension Accumulation Fund shall be made as follows: —

(b) On account of each member there shall be paid annually into the Pension Accumulation Fund by the said city, for the preceding fiscal year, a certain percentage of the regular compensation of each member, to be known as the "normal contribution", and an additional percentage of his regular compensation to be known as the "accrued liability contribution". The rates per centum of such contributions shall be fixed on the basis of the liabilities of the retirement system as shown by actuarial valuation. Until the first valuation the normal contribution shall be one and ninety-six hundredths per centum, and the accrued liability contribution shall be one and sixty-eight hundredths per centum, of the regular annual compensation of all members.

(c) On the basis of regular interest and of such mortality and other tables as shall be adopted by the retirement board, the actuary engaged by the board to make each valuation required by this act during the period over which the accrued liability contribution is payable, immediately after making such valuation, shall determine the uniform and constant percentage of the regular compensation of the average new entrant, which if contributed on the basis of

compensation of such new entrant throughout his entire period of active service is computed to be sufficient to provide for the payment of any pension payable on his account. The rate per centum so determined shall be known as the "normal contribution" rate. After the accrued liability contribution has ceased to be payable, the normal contribution rate shall be the rate per centum of the regular compensation of all members obtained by deducting from the total liabilities of the Pension Accumulation Fund the amount of the funds in hand to the credit of that fund and dividing the remainder by one per centum of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the retirement board and regular interest. The normal rate of contribution shall be determined by the actuary after each valuation.

(d) Immediately succeeding the first valuation, the actuary engaged by the retirement board shall compute the rate per centum of the total regular compensation of all members which is equivalent to four per centum of the amount of the total pension liability on account of all members and beneficiaries which is not dischargeable by the aforesaid normal contribution made on account of such members during the remainder of their active service. The rate per centum originally so determined shall be known as the "accrued liability contribution rate".

(e) The total amount payable in each year to the Pension Accumulation Fund shall be not less than the sum of the rates per centum known as the normal contribution rate and the accrued liability contribution rate of the total compensation earnable by all members during the preceding year; provided, that the amount of each annual accrued liability contribution shall be at least three per centum greater than the preceding annual accrued liability payment, and that the aggregate payments of the city shall be sufficient when combined with the amount in the fund to provide the pensions and other benefits payable out of the fund during the year then current.

(f) The accrued liability contribution shall be discontinued as soon as the accumulated reserve in the Pension Accumulation Fund shall equal the present value, as actuarially computed and approved by the retirement board, of the total liability of such fund less the present value, computed on the basis of the normal contribution rate then in force, of the prospective normal contributions to be received on account of persons who are at that time members.

(g) All pensions, and benefits in lieu thereof, with the exception of those payable on account of members who receive no prior service allowance, payable from contributions of the city, shall be paid from the Pension Accumulation Fund.

(h) Upon the retirement of a member not entitled to credit for prior service, an amount equal to his pension

reserve shall be transferred from the Pension Accumulation Fund to the Pension Reserve Fund.

Pension Reserve Fund.

(4) The Pension Reserve Fund shall be the fund from which shall be paid the pensions to members not entitled to credit for prior service and benefits in lieu thereof. Should such a beneficiary, retired on account of disability, be restored to active service with a compensation not less than his average regular compensation for the year preceding his last retirement, the pension reserve thereon shall be transferred from the Pension Reserve Fund to the Pension Accumulation Fund. Should the pension of a disability beneficiary be reduced as a result of an increase in his earning capacity, the amount of the annual reduction in his pension shall be paid annually into the Pension Accumulation Fund during the period of such reduction.

Expense Fund.

(5) The Expense Fund shall be the fund to which shall be credited all money appropriated by the city to pay the administration expenses of the retirement system, and from which shall be paid all the expenses necessary in connection with the administration and operation of the system.

Appropriations.

(6) (a) On or before the first day of January in each year the retirement board shall certify to the mayor the amount of the appropriation necessary to pay to the various funds of the retirement system the amounts payable by the city as enumerated in this act for the year beginning on the said first day of January, and items of appropriation, providing such amounts shall be included in the budget.

(b) To cover the requirements of the system for the period prior to the date when the first regular appropriation is due, as provided by paragraph (a) of this subsection, such amounts as shall be necessary to cover the needs of the system shall be paid into the Pension Accumulation Fund and the Expense Fund by special appropriations to the system.

MANAGEMENT OF FUNDS.

SECTION 16. (1) The retirement board may invest the funds of the retirement system in such securities as are approved from time to time by the commissioner of insurance for the investment of the funds of life insurance companies under the laws of the commonwealth.

(2) The retirement board shall annually allow regular interest on the average balance for the preceding year to the credit of the various funds from the interest and dividends earned from investments. Any excess earnings over the amount so credited shall be used for reducing the amount of contributions required of the city during the ensuing year.

Any deficiency shall be paid by the city during the ensuing year.

(3) The treasurer of the city shall be custodian of the several funds. All payments from said funds shall be made by him only upon vouchers signed by two persons designated by the retirement board. A duly attested copy of a resolution of the retirement board designating such persons and bearing upon its face specimen signatures of such persons shall be filed with the treasurer as his authority for making payments upon such vouchers. No voucher shall be drawn unless it shall have been previously authorized by resolution of the retirement board.

(4) For the purpose of meeting disbursements for pensions, annuities and other payments an amount of money, not exceeding ten per centum of the total amount in the several funds of the retirement system, may be kept on deposit in one or more banks or trust companies organized under the laws of the commonwealth or of the United States; provided, that the sum on deposit in any one bank or trust company shall not exceed ten per centum of the paid-up capital and surplus thereof.

(5) The retirement board may, in its discretion, transfer to or from the Pension Accumulation Fund the amount of any surplus or deficit which may develop in the reserves creditable to the Annuity Reserve Fund or the Pension Reserve Fund, as shown by actuarial valuations.

(6) Except as otherwise provided herein, no member and no employee of the retirement board shall have any direct interest in the gains or profits of any investment made by the retirement board, nor as such receive any pay or emolument for his services. No member or employee of the board shall, directly or indirectly, for himself or as an agent, in any manner use any of the securities or other assets of the retirement board, except to make such current and necessary payments as are authorized by the retirement board; nor shall any member or employee of the retirement board become an endorser or surety or in any manner obligor for moneys loaned by or borrowed from the retirement system.

(7) Each member of the retirement board, and the treasurer of the city, in his capacity as custodian of the several funds, shall severally give bond for the faithful performance of his duties in a sum and with sureties or surety approved by the city council.

EXEMPTION OF FUNDS FROM TAXATION AND EXECUTION.

SECTION 17. The pensions, annuities and retirement allowances and the accumulated deductions and the cash and securities in the funds created by this act are hereby exempted from any state, county or municipal tax of this commonwealth, and shall not be subject to execution or attachment by trustee process or otherwise, in law or in equity, or under any process whatsoever, and shall be non-assignable except as specifically provided in this act.

RECEIPT OF BOTH RETIREMENT ALLOWANCE AND SALARY
FORBIDDEN.

SECTION 18. No beneficiary of the retirement system shall be paid for any service, except service as a juror and such service as he may be called upon to perform in the police or fire department in a time of public emergency, rendered by him to the city after the date of the first payment of any retirement allowance hereunder, except as provided in sections nine and nineteen of this act.

SECTION 18A. If a member of this system becomes eligible for or receives a pension or assistance under the provisions of any statute or enactment of the federal government or of any state or municipality, whether said pension or assistance is payable in whole or in part by federal, state or municipal government, the said member shall be entitled to receive from this fund only such payments as, together with the pension or assistance received as above set forth, will not exceed the regular retirement allowance which said person would receive under this act; provided, that in any event the said member may, at his option, be paid the amount of his accumulated deductions and such payment to him shall be a bar of all further rights accruing to him by reason of his membership in this system.

SECTION 19. Notwithstanding the other provisions of this act to the contrary, any beneficiary of this system may be employed for periods of not exceeding one year at a time, upon re-appointment by the mayor, subject to confirmation by the council, if the city charter requires this method of appointment to said position or, if an appointment by the mayor and confirmation by the council was not required in connection with the original appointment then he may be retained in service for periods of not exceeding one year at a time by the department head or board by whom he was employed, upon the written approval thereof by the mayor. A beneficiary so employed may receive compensation from the city for the services so rendered provided that the annual rate of compensation paid, together with the regular retirement allowance received, shall not exceed the regular compensation of said beneficiary at the time of retirement.

RIGHT OF APPEAL.

SECTION 20. The supreme judicial court shall have jurisdiction in equity upon the petition of the retirement board or any interested party or upon the petition of not less than ten taxable inhabitants of the city to compel the observance and restrain any violation of this act and the rules and regulations authorized or established thereunder.

TENURE UNAFFECTED.

SECTION 21. Nothing contained in this act shall affect the right or power of the city or other duly constituted authority in regard to demotion, promotion, transfer, suspension or discharge of any employee.

INCONSISTENT ACTS.

SECTION 22. Any of the provisions of sections forty-four, forty-five, seventy-seven, eighty and eighty-three of chapter thirty-two of the General Laws, as amended, which may be inconsistent herewith, and any other acts or parts of acts inconsistent herewith, shall, on and after the effective date of this act, apply only to such employees of the city as are, on said effective date, entitled to the benefits thereof. Nothing herein contained shall be construed as affecting the provisions of sections forty-nine to sixty, inclusive, or of section ninety-two of chapter thirty-two of the General Laws as amended.

AMENDMENT OR REPEAL.

SECTION 23. The provisions of this act may be altered or amended from time to time, or may be repealed, and every such alteration or amendment, or repeal, shall, upon its taking effect, become binding upon the city of Fitchburg and the employees who have previously become subject to said act, and all contractual rights entered into by and between the city and the employees thereof, hereunder, shall be deemed to be entered into subject to being subsequently affected by such alterations, amendments or repeal; provided, that no such alteration, amendment or repeal shall affect the rights of employees with reference to deposits previously made, or reduce the amount of any retirement allowance then payable.

ACCEPTANCE OF ACT.

SECTION 24. On or before August first, in the current year, the question of the approval of the provisions of this act shall be finally voted upon by the city council of the city of Fitchburg and, whether or not said provisions are approved by such vote, they shall be submitted for acceptance to the qualified voters of said city at the biennial municipal election to be held in the current year, in the form of the following question, which shall be printed upon the official ballot to be used at said election: — "Shall an act passed by the General Court in the year nineteen hundred and thirty-five, entitled 'An Act providing retirement allowances based on annuity and pension contributions for employees of the city of Fitchburg', be accepted?" If a majority of the voters voting thereon vote in the affirmative in answer to this question this act shall thereupon take full effect; but not otherwise. *Approved July 26, 1935.*

Chap. 451 AN ACT RELATIVE TO PURCHASE OF BONDS OF THE BOSTON ELEVATED RAILWAY COMPANY BY THE BOSTON METROPOLITAN DISTRICT.

Be it enacted, etc., as follows:

SECTION 1. The trustees of the Boston metropolitan district, hereinafter called the district, in the name and on behalf of the district, may from time to time, prior to July first, nineteen hundred and thirty-six, if they deem it in the interest of the district so to do, at the request of the board of trustees of the Boston Elevated Railway Company, purchase bonds of the Boston Elevated Railway Company, hereinafter called the company, hereafter issued or reissued under the authority of section eighteen of chapter three hundred and thirty-three of the acts of nineteen hundred and thirty-one, or for the purposes of paying or refunding any bonds, coupon notes or other evidences of indebtedness of the company payable at periods of more than one year from the date thereof, to an amount not exceeding three million eight hundred and fifteen thousand dollars; and the trustees of the district, in the name and on behalf of the district, may also from time to time, if they deem it in the interest of the district so to do, at the request of the board of trustees of the Boston Elevated Railway Company, purchase bonds of the company hereafter issued for the purpose of and to the amount necessary for calling for redemption the whole or any part or parts of the six million five hundred and eleven thousand dollars of five per cent bonds of the company due February first, nineteen hundred and thirty-seven, and of the one million two hundred thousand dollars of bonds of the company due July first, nineteen hundred and forty, and for paying or redeeming and refunding the same.

The company subject to the approval of the department of public utilities is authorized to issue bonds for said purposes to the amount necessary therefor and all of the provisions of said section eighteen shall apply thereto, so far as possible. The trustees of the district shall procure the funds necessary for each purchase authorized by this section by the issue of bonds of the district under and in the manner provided in section ten of chapter three hundred and eighty-three of the acts of nineteen hundred and twenty-nine and section two of chapter one hundred and forty-seven of the acts of nineteen hundred and thirty-two, and the provisions of said sections shall apply thereto in the same manner and to the same extent as if such bonds of the district were specifically authorized in said chapter three hundred and eighty-three; provided, that any bonds of the district issued under authority of this act shall be for such terms not less than fifteen years, except as hereinafter provided, and not exceeding twenty-five years from the date thereof, and shall bear interest payable semi-annually at

such rates, as said trustees of the district, subject to the approval of the department of public utilities, shall from time to time determine. Said bonds of the district may be issued on either the sinking fund or serial payment plan, and, if issued on the serial payment plan, such portions of each issue of said bonds as the trustees of the district, subject to like approval, may determine may be for terms of less than fifteen years, and the trustees of the district shall endeavor so to arrange the maturities of all bonds issued on the serial payment plan that the bonds maturing each year other than the final year will be met by the amounts available from interest upon the bonds purchased. All amounts received by the district from said interest shall be applied in payment of interest and principal of the bonds of the district issued hereunder as and when due, and any balance shall be accumulated in a sinking fund to be used for such purpose, as and when required. All amounts received by the district in payment of each such bond issue of the company shall be applied in payment of bonds of the district issued hereunder to provide funds for the purchase of such bond issue and the balance shall be accumulated in a general sinking fund for any bonds of the district then outstanding. Said sinking funds shall be invested as provided in section eleven of said chapter three hundred and eighty-three.

SECTION 2. Each bond issue of the company so purchased shall be for the same term as the term of the last maturing bonds of the district issued to provide funds for the purchase of such bond issue of the company, and shall bear interest payable semi-annually at a rate two per cent higher than the rate payable upon said bonds of the district. In the event that said bonds of the district are sold at a premium above or a discount below par, the bond issue of the company purchased with the proceeds thereof shall be purchased by the district at the same premium above or discount below par. Said bonds of the company, both as to income and principal, are hereby made exempt from all taxes levied under authority of the commonwealth while held by the district and shall contain a recital to such effect. Said bonds of the company shall not be disposed of by the district without authority of the general court. The proceeds of said bonds of the company shall be used by it only for the purposes hereinbefore set forth.

SECTION 3. The company shall reimburse the district, at the request of the trustees thereof, for all expenses incidental to the authorization, preparation, issue, registration and payment of interest and principal of the aforesaid bonds of the district.

Approved July 26, 1935.

Section 1. Any corporation established under chapter one hundred and fifty-six which has an unimpaired paid-in capital of not less than fifty thousand dollars and is conducting within the commonwealth the business of loaning money on the Morris plan, so called, or upon any similar plan, may be authorized to do the business of a banking company in the manner and subject to the conditions and limitations specified in this chapter; provided, that no

such corporation shall be authorized to do such business in any city having a population of more than three hundred thousand unless it has an unimpaired paid-in capital of not less than two hundred thousand dollars, or in any city having a population of more than one hundred thousand but not exceeding three hundred thousand unless it has an unimpaired paid-in capital of not less than one hundred thousand dollars.

Certificate to do business.

Section 2. Any such corporation may at a meeting duly called for the purpose by a two thirds vote of each class of stock outstanding authorize an application to the board of bank incorporation, in this chapter referred to as the board, for a certificate authorizing it to carry on business of the character and in the manner set forth in this chapter in a specified city or town within the commonwealth. Such application shall be made in writing by the president or the treasurer in such form as the board shall approve. A notice of such application and of the time fixed for a hearing thereon, in such form as the board shall approve, shall be published at least once a week for three successive weeks in one or more newspapers designated by the board and published in or nearest to the city or town in which the corporation proposes to carry on such business. If the board after a hearing shall determine that public convenience and advantage will be promoted by the granting of the application and that the corporation is in a sound and safe condition to carry on such business, it shall issue such a certificate in such form as it shall determine.

When authorized to do business.

Section 3. Within thirty days after receiving a certificate under the preceding section, the directors of any such corporation may, without further vote of its stockholders, by the procedure established by section forty-three of chapter one hundred and fifty-six, so far as applicable, change its corporate name so as to include therein the words "Banking Company". Upon such change of name becoming effective such corporation may carry on business under this chapter and shall thereafter carry on no other business. Its corporate powers shall thereupon be deemed to be amended accordingly. It shall not thereafter be subject to the requirements of sections forty-seven to fifty-one, inclusive, of said chapter one hundred and fifty-six. Thereafter all provisions of general law from time to time applicable to the increase or the reduction of the capital stock of trust companies shall apply to such corporation. Thereafter no person shall be a director of any such corporation unless he is a stockholder of record holding unpledged stock therein of an aggregate par value of not less than one thousand dollars.

Returns to be made.

Section 4. Such corporation shall at such times as the commissioner of banks, in this chapter called the commissioner, orders, but not exceeding five times within a calendar year, and within ten days after a day designated in the order, make return to the commissioner, signed and sworn to by

its president and treasurer and not less than three of its board of directors, showing accurately the condition of such corporation at the close of business on the day designated. Said return shall be in such form and shall specify such items of the corporation's assets and liabilities as the commissioner shall prescribe. It shall be published at such times and in such manner as the commissioner shall direct by and at the expense of such corporation in a newspaper published in or nearest to the city or town where such corporation is located.

Section 5. Such corporation may receive money in one payment or in instalments, upon certificates which it may issue, fixing the amount received or to be received thereon, the time and other terms of repayment and the rate of interest to be paid. Money thus received shall be known as certificate funds. No interest shall be specified in any certificate or paid on any certificate funds in excess of five per cent per annum, except with the approval of the commissioner. No certificate shall be issued for an amount less than fifty dollars and the total amount of all certificates issued to any individual, estate, trust, corporation, association or partnership shall not exceed five thousand dollars.

May receive deposits.

Such certificates may be issued to represent money to be paid by the certificate holder thereafter in stated instalments as specified therein either with or without the payment of interest on paid-in instalments. All certificates shall be in such form as the commissioner shall approve and a record of all certificates issued and the forms thereof shall be kept on file by the corporation.

No such corporation shall receive or have at any time aggregate certificate funds, exclusive of interest, in excess of seven and one half times the total of its paid-in capital and surplus, except that certificate funds in any manner pledged with it to secure loans made by it shall not be included in its certificate funds for the purpose of this provision.

Section 6. The amount paid on any certificate, whether matured or not, if not pledged to the corporation, may be withdrawn by the certificate holder at any time as a whole by the surrender of his certificate, upon giving ninety days written notice to the treasurer of his intention so to do; but the treasurer may waive such a notice, in his discretion, under such restrictions as may be imposed by the board of directors. Upon such withdrawals there shall be such adjustment of interest as the certificate shall provide.

Withdrawal of certificate funds.

Section 7. The capital, surplus, certificate funds and income derived therefrom of such corporation shall be invested only as follows: —

Investment of funds, etc., regulated.

First. In loans on personal security or secured by the pledge or assignment of any personal property including certificates issued by it, either fully paid up or representing payments being made by instalments. No sum shall be invested directly or indirectly in mortgages of real estate.

Second. In any securities authorized as investments for savings banks by paragraphs second to seventh, inclusive, of section fifty-four of chapter one hundred and sixty-eight; provided, that not more than twenty per cent of its certificate funds shall be invested by any such corporation in this class of securities.

Third. Such sum as the directors may determine but not exceeding twenty-five per cent of its paid-in capital and surplus, except with the approval of the commissioner, may be invested in the purchase of a suitable site and the erection or preparation of a suitable building for the convenient transaction of its business.

In the event that a loan is made secured by a pledge of a certificate issued by such corporation, whether fully paid up or representing payments being made by instalments, such pledged certificate and the note or obligation given for the payment of the loan shall always be considered to be separate instruments.

Liability
regulated.

Section 8. The total liability to any such corporation of any individual, corporation, trust, association or firm for money borrowed, including in such liability of any corporation, trust, association or firm the liabilities of the several directors, trustees, members or partners thereof, shall at no time exceed ten per cent of the aggregate of the paid-in capital and surplus of such corporation, but the discount or purchase of bona fide bills of exchange or acceptances drawn against actually existing values and the discount or purchase of commercial or business paper, leases, conditional sale agreements, mortgages of personal property or other contracts or choses in action actually owned by any individual, corporation, association, trust or firm negotiating or selling the same shall not be considered money so borrowed even though such negotiator or seller remains or becomes secondarily or contingently liable thereon or therefor to such corporation.

Rate of
interest
restricted.

Section 9. No such corporation shall charge for or receive on any loan made by it an amount for interest, discount, charges and expenses, including interest, discount, fines, charges and expenses on account of any certificate issued as security for such loan, which exceeds in the aggregate an amount equivalent to twelve per cent per annum upon the face amount of the note, deducted at the time the loan is made, when the note is of the amount of five hundred dollars or less, or an amount equivalent to nine per cent per annum upon the face amount of the note, deducted at the time the loan is made, when the note is of an amount in excess of five hundred dollars; provided, that no certificate pledged to secure any loan shall require the aggregate amount of payments on such certificate to be more than the actual proceeds of the loan plus any lawful interest or discount which may be taken in advance, and plus all other lawful charges or expenses; and provided, further, that no such certificate shall mature at a date substantially different

from the due date of the loan, or require payments on such certificate, except in the case of the last instalment payment, in excess of equal periodic payments extending over the term for which the loan is made.

Section 10. Every such corporation shall at all times have on hand as a reserve an amount equal to at least five per cent of the aggregate amount of its certificate funds, exclusive of all certificate funds in any manner pledged to it as security for loans. Be it enacted, etc., as follows:

SECTION 1. Chapter two hundred and ninety-seven of the acts of nineteen hundred and twenty-nine is hereby amended by striking out section eight, as amended by section two of chapter two hundred and eighty-seven of the acts of nineteen hundred and thirty-two, and inserting in place thereof the following: — *Section 8.* For the purpose of meeting the cost of the tunnel, which shall include all expenses incurred in laying out and constructing the same and all facilities and appurtenances incidental thereto, including plazas, street approaches, and additional street and traffic improvements, all as described in section one, and all land damages, expenses of the department, such proportion of the salaries of the department as may in its opinion be properly chargeable thereto and all interest accruing prior to the use of the tunnel on debt incurred for the foregoing, the treasurer of the city shall, from time to time, on request of the department, with the approval of the mayor of the city and without any other authority than that contained in this act, issue and sell at public or private sale the bonds of the city, registered or with interest coupons attached, as he may deem best, to an amount not exceeding nineteen million six hundred thousand dollars. Such bonds shall be designated on their face, Traffic Tunnel Bonds, City of Boston, Act of 1929, sixteen million dollars of which shall be for such terms, not exceeding fifty years, and three million dollars of which shall be for such terms, not exceeding thirty years, and six hundred thousand dollars of which shall be for such terms, not exceeding thirty years, as in each case the mayor and the treasurer of the city may determine, and shall bear such interest, payable semi-annually, as the mayor and the treasurer of the city may determine. Such bonds may be called, retired and cancelled by the city on any date upon which interest is payable on said bonds after twenty years from their respective dates, by payment by the city of the amount of

the face of said bonds with any accumulated unpaid interest, and the bonds shall contain a statement to such effect. The proceeds of such bonds shall be used only to meet the cost of the tunnel as hereinbefore defined. The said three million dollars of bonds shall also be designated on their face, Series B. The said six hundred thousand dollars of bonds shall also be designated on their face, Series C. The debt incurred from time to time under the provisions of this act shall not be included in determining the limit of indebtedness of the city as established by law. The board of sinking fund commissioners of the city shall establish a primary sinking fund for the payment of the said sixteen million dollars of bonds, a first supplemental sinking fund for the payment of the principal and interest of the said three million dollars of bonds and a second supplemental sinking fund for the payment of the principal and interest of the said six hundred thousand dollars of bonds. There shall annually be paid into such primary sinking fund from tolls and charges or otherwise as hereinafter provided such sum at least as is necessary to provide for the payment of the said sixteen million dollars of bonds at the expiration of fifty years from their respective dates, and from the excess of tolls and charges available under section twelve there shall annually be paid into such first supplemental sinking fund such sum at least as is necessary to provide for the payment of the interest on the said three million dollars of bonds as it becomes due and the principal of such bonds at the expiration of thirty years from their respective dates, and from any excess of such tolls and charges then remaining there shall annually be paid into such second supplemental sinking fund such sum at least as is necessary to provide for the payment of the interest on the said six hundred thousand dollars of bonds as it becomes due and the principal of such bonds at the expiration of thirty years from their respective dates; provided, that the first payment into any of said funds shall not be made prior to the expiration of one year after the entire tunnel is in operation. Upon and after the completion of the tunnel as aforesaid there shall also be paid into said primary sinking fund the proceeds received from any sales or leases under section four and the balance of the proceeds of any bonds issued hereunder previous to the effective date of chapter two hundred and eighty-seven of the acts of nineteen hundred and thirty-two and not then any longer required for construction purposes.

All tolls, rents, percentages, compensation and other charges received for any use of the tunnel shall be used by the treasurer of the city only to meet the operating costs, exclusive of interest on the said three million dollars of bonds and of interest on the said six hundred thousand dollars of bonds and payments into the said first and second supplemental sinking funds, and, subject to the provisions of section twelve, the excess in any year of such tolls and

charges over operating costs, exclusive of the said interest and sinking fund payments in respect of the said three million dollars of bonds and in respect of the said six hundred thousand dollars of bonds, shall be paid into said primary sinking fund.

The treasurer of the city may, from time to time, on the request of the department, with the approval of the mayor of the city and without any other authority than that contained in this act, make a temporary loan for a period of not more than one year in anticipation of the money to be derived from the sale of any issue of bonds herein authorized, and may issue notes therefor; and such notes may be refunded from time to time by the issue of new notes maturing within one year from the date of their issue; provided, that the period from the date of issue of the original loan to the date of maturity of the final refunding period of the permanent loans herein authorized shall not be extended by reason of the temporary loans.

SECTION 2. Said chapter two hundred and ninety-seven is hereby further amended by striking out section nine, as most recently amended by chapter three hundred and twelve of the acts of the current year, and inserting in place thereof the following:— *Section 9.* Upon the completion of the tunnel, the public works department of the city shall operate the same as a toll tunnel, and shall from time to time establish a schedule of tolls and charges for the use of the same, which, in the opinion of said public works department, subject to the approval of the department of public utilities, will pay all operating costs, which term wherever used in this act shall include charges for adequate maintenance and upkeep, operating expenses including therein proper policing, lighting, and ventilating, interest on all bonds or notes issued under authority hereof, and such annual amounts as are necessary to provide a primary sinking fund for the payment of the principal of the said sixteen million dollars of bonds upon the expiration of such period of time, not less than twenty nor more than fifty years after their respective dates, a first supplemental sinking fund for the payment of the said three million dollars of bonds upon the expiration of such period of time, not less than twenty nor more than thirty years after their respective dates, and a second supplemental sinking fund for the payment of the said six hundred thousand dollars of bonds upon the expiration of such period of time, not less than twenty years nor more than thirty years after their respective dates, as in each case said public works department, with the approval of the department of public utilities, shall from time to time determine. If in any year such schedule of tolls and charges should prove to be insufficient, the said public works department shall establish such tolls and charges as will provide sufficient revenue to meet any deficit; provided, that if in the opinion of said public works department such new schedule of rates and charges would

not result in an increase in revenue, then it may establish such new schedule of tolls and charges as it deems will produce the maximum revenue and any deficits resulting therefrom shall be met as provided in section eleven. All schedules of tolls and charges established under this section or under section twelve shall be subject to the approval of the department of public utilities. The said public works department shall collect such tolls and charges from the driver of each vehicle using said tunnel, and shall daily pay the same over to the city collector of Boston; provided, that no toll or charge shall be collected from the drivers of vehicles owned by the city, or by the Boston protective department or from drivers of ambulances.

SECTION 3. Said chapter two hundred and ninety-seven is hereby further amended by striking out section ten, as amended by section four of said chapter two hundred and eighty-seven, and inserting in place thereof the following: — *Section 10.* In addition to the full credit of the city, so much of all receipts from tolls and charges for or on account of the use of the tunnel as are required to be expended, by the provisions of this act, for the payment of the principal and interest of the bonds issued under section eight, as and when the same become due and payable, are hereby pledged to such payment subject to the priorities herein provided in favor of the said sixteen million dollars of bonds over the said three million dollars of bonds and over the said six hundred thousand dollars of bonds and in favor of the said three million dollars of bonds over the said six hundred thousand dollars of bonds; and said provisions are hereby declared to constitute contracts between the city and the holders of said bonds within the meaning of section ten of Article 1 of the constitution of the United States, and a recital thereof shall appear on the face of said sixteen million dollars of bonds.

SECTION 4. Said chapter two hundred and ninety-seven is hereby further amended by striking out section twelve, as most recently amended by section two of chapter seventy-four of the acts of the current year, and inserting in place thereof the following: — *Section 12.* Whenever as of the last day of March in any year the receipts from tolls and charges as established under section nine or under this section exceed the operating costs, excluding for this purpose interest and sinking fund requirements in respect of the said three million dollars of bonds and in respect of the said six hundred thousand dollars of bonds, but including sinking fund requirements in respect of the said sixteen million dollars of bonds on a basis of the payment of all of the said sixteen million dollars of bonds at the expiration of twenty years after their respective dates, said excess shall be transferred to the general funds of the city so far as necessary to reimburse it for any amounts raised by taxation under section eleven, exclusive of any amounts so raised for interest or sinking fund requirements in respect

of the said three million dollars of bonds and in respect of the said six hundred thousand dollars of bonds. If any such excess occurs after the city shall have been reimbursed in full for all amounts so raised by taxation, exclusive of amounts for interest and sinking fund requirements in respect of the said three million dollars of bonds and of the said six hundred thousand dollars of bonds, the public works department shall, subject to the provisions of section nine, establish a reduced schedule of tolls and charges, sufficient, however, to meet the operating costs; provided, however, that until all of the said three million dollars of bonds and of the said six hundred thousand dollars of bonds, shall become payable, whether at their final maturity or when called as hereinbefore provided, of such excess not so needed for such reimbursement so much thereof as shall be required for the payment of the interest and principal of the said three million dollars of bonds shall be paid into said first supplemental sinking fund to be applied by the treasurer to the payment of the interest and principal of the said three million dollars of bonds, on a basis of the payment of all of the said three million dollars of bonds at the expiration of twenty years after their respective dates, and the remainder of such excess shall be paid into such second supplemental sinking fund to be applied by the treasurer to the payment of the interest and principal of the said six hundred thousand dollars of bonds. In case it shall be determined that all of such excess cannot be so paid without impairing rights secured by the constitution of the United States to holders of any of the said sixteen million dollars of bonds heretofore sold and paid for or to holders of any of the said three million dollars of bonds heretofore sold and paid for, then to the extent that such excess can be so paid without such impairment, so much thereof as may be required for interest and sinking fund requirements in respect of the said three million dollars of bonds on a basis of the payment thereof at the expiration of twenty years after their respective dates shall be paid into the said first supplemental sinking fund and the remainder shall be paid into the second supplemental sinking fund as hereinbefore provided. If the amounts so directed to be contributed to the said first and second supplemental sinking funds shall be more than necessary to meet the interest on the said three million dollars of bonds and on the said six hundred thousand dollars of bonds and to retire the principal thereof at the expiration of twenty years after their respective dates, the public works department shall establish the said reduced schedule as hereinbefore provided.

SECTION 5. If any provision hereof shall be invalid, such invalidity shall not affect any other provisions of this act or the validity of any of said nineteen million six hundred thousand dollars of bonds as obligations secured not only by the full credit of the city but also by a pledge of the receipts from tolls and charges as herein provided to the extent that such provisions shall be valid.

SECTION 6. Said chapter two hundred and ninety-seven, having been submitted to and accepted by the city council of the city of Boston, in accordance with the provisions of section fifteen thereof, this act in amendment of said chapter shall take effect upon its passage and without being further submitted to the city council of said city.

SECTION 7. Any funds recovered by the city of Boston in actions instituted to recover from the recipients the whole or any part of profits made by them in connection with the taking by the said city of property for the construction of the Sumner Tunnel, so called, shall be paid into the second supplemental sinking fund created by this act, and used for the payment and redemption of the six hundred thousand dollars of bonds authorized hereunder.

The commissioner shall classify said jobs, and he may revise such classification from time to time, as he may deem advisable. Prior to awarding a contract for the construction of public works, said public official or public body shall submit to the commissioner a list of the jobs upon which mechanics, teamsters, chauffeurs and laborers are to be employed, and shall request the commissioner to determine the rate of wages to be paid on each job. Thereupon the commissioner shall immediately cause the associate commissioners to hold a public hearing on the commissioner's action appealed from. The associate commissioners shall render their decision not later than three days after the closing of the hearing. Chap. 468 AN ACT FURTHER REGULATING THE HOURS DURING WHICH SALES OF ALCOHOLIC BEVERAGES MAY BE MADE BY CERTAIN LICENSEES.

Be it enacted, etc., as follows:

G. L. (Ter. Ed.), 138, § 12, etc., amended.

Licenses, granting of.

SECTION 1. Chapter one hundred and thirty-eight of the General Laws is hereby amended by striking out section twelve, as most recently amended by sections seven to nine, inclusive, of chapter four hundred and forty of the acts of the current year, and inserting in place thereof the following: — *Section 12.* A common victualler duly licensed under chapter one hundred and forty to conduct a restaurant, an innholder duly licensed under said chapter to conduct a hotel and a keeper of a tavern as defined by this chapter, in any city or town wherein the granting of licenses to sell all alcoholic beverages or only wines and malt beverages, as the case may be, is authorized by this chapter, subject however, in the case of a tavern, to the provisions of section eleven A, may be licensed by the local licensing authorities, subject to the prior approval of the commission, to sell to travelers, strangers and other patrons and customers not under twenty-one years of age, such beverages to be served and drunk, in case of a hotel or restaurant licensee, only in the dining room or dining rooms and in such other public rooms or areas of a hotel as the local licensing authorities may deem reasonable and proper, and approve in writing; provided, that no tavern license shall be granted to the holder of a hotel license hereunder. Such sales may also be made, by an innholder licensed hereunder, to registered guests occupying private rooms in his hotel. Upon an application for a restaurant license, the local licensing authorities may in their discretion grant such a license authorizing the sale of alcoholic beverages on all days of the week or one authorizing such sale on secular days only, and the decision of such authorities as to which of the two types may be granted upon any particular application shall be final. During such time as the sale of such alcoholic beverages is authorized in any city or town under this chapter, the authority to grant innholders' and common victuallers' licenses therein under chapter one hundred and forty shall be vested in the local licensing authorities.

No alcoholic beverage shall be served to or drunk by a woman in a public room or area of a hotel, or in a restaurant or club, licensed under this section, except while seated at a table or seated at a counter equipped with stools, and no such beverage shall be served to or drunk by a woman in a tavern; and no such beverage shall on Sundays be served to or drunk by any person standing at a bar or counter in such a hotel, restaurant or club.

If a license granted under this section to a person holding a license as an innholder or common victualler is sus-

pended or revoked for any particular cause, no action shall be taken on account thereof by such authorities with respect to such innholder's or common victualler's license prior to the expiration of the period provided for an appeal under section sixty-seven in case no such appeal is taken, or prior to the disposition of any such appeal so taken, nor thereafter, except for further cause, in case such disposition is in favor of the appellant. Any club in any city or town wherein the granting of licenses to sell alcoholic beverages, or only wines and malt beverages, as the case may be, is authorized under this chapter may be licensed by the local licensing authorities, subject to the approval of the commission, to sell such beverages to its members only, and also, subject to regulations made by the local licensing authorities, to guests introduced by members, and to no others.

The local licensing authorities may determine in the first instance, when originally issuing and upon each annual renewal of licenses under this section, the amount of the license fee, in no case less than two hundred and fifty nor, except as hereinafter provided, more than seven hundred and fifty dollars for a tavern license or twenty-five hundred dollars for any other license under this section for the sale of all alcoholic beverages, and in no case less than one hundred dollars, nor, except as hereinafter provided, more than five hundred dollars for a tavern license or one thousand dollars for any other license under this section for the sale of wines and malt beverages, or either; provided, that the minimum license fee in the case of a club license for the sale of all alcoholic beverages shall be one hundred dollars; and provided, further, that nothing herein shall prevent such authorities from establishing license fees differing in amounts within the limitations aforesaid for restaurant licenses authorizing the sale of alcoholic beverages on all days of the week and for restaurant licenses authorizing such sale on secular days only. If different license fees are so established the fee for licenses authorizing the sale of alcoholic beverages on all days of the week shall not be more than twenty-five per cent higher than the fee for licensing such sale on secular days only. Before issuing a license to any applicant therefor under this section, or before a renewal of such license, the local licensing authorities shall cause an examination to be made of the premises of the applicant to determine that such premises comply in all respects with the appropriate definition of section one and that the applicant is not less than twenty-one years of age and a person of good character in the city or town in which he seeks a license hereunder.

The local licensing authorities may accept the surrender of a license issued under this section and may issue in place thereof to the same licensee any other form of license authorized under this section, and may allow as a credit on the fee for the new license the license fee paid for the license surrendered but no refund shall be authorized. Different

licenses issued as aforesaid for any portion of the same license year to the same licensee shall count as one license for the purposes of section seventeen.

The hours during which sales of such alcoholic beverages may be made by any licensee as aforesaid shall be fixed by the local licensing authorities either generally or specially for each licensee; provided, that no such sale shall be made on any secular day between the hours of one and eight o'clock ante meridian and that, except as provided in section thirty-three, no such licensee shall be barred from making such sales on any such day after eleven o'clock ante meridian and before eleven o'clock post meridian, and that no tavern shall be kept open on any such day after eleven o'clock post meridian.

No person, firm, corporation, association or other combination of persons, directly or indirectly, or through any agent, employee, stockholder, officer or other person, or any subsidiary whatsoever, licensed under the provisions of section fifteen, eighteen or nineteen shall be granted a license under this section.

No licensee under this section, or any employee of such licensee, shall serve any alcoholic beverage to any customer or other person in the licensed premises without charge.

In cities and towns which vote to authorize under section eleven the granting of licenses for the sale of all alcoholic beverages, specific licenses may nevertheless be granted under this section for the sale of wines or malt beverages only, or both. The licensing authorities may refuse to grant licenses under this section in certain geographical areas of their respective cities or towns, where the character of the neighborhood may warrant such refusal.

All malt beverages sold by a licensee under this section containing not more than three and two tenths per cent of alcohol by weight shall be expressly sold as such.

SECTION 2. Section thirty-three of said chapter one hundred and thirty-eight, as most recently amended by section nine of chapter three hundred and seventy of the acts of nineteen hundred and thirty-four, is hereby further amended by striking out, in the sixteenth line, the words "between the hours of two o'clock ante meridian and" and inserting in place thereof the word:— before,— so as to read as follows:— *Section 33.* No licensee under section twelve shall sell and no licensee under section fifteen shall sell or deliver any alcoholic beverages, and no registered pharmacist acting under section twenty-nine and no licensee under section thirty A shall sell any alcoholic beverages or alcohol without a physician's prescription, during polling hours on any day on which a state or municipal election, caucus or primary is held in the city or town in which such licensed place is conducted; provided, that the foregoing restrictions shall not apply in the case of such an election, primary or caucus if the local licensing authorities issue an order to that effect applicable alike to all licensees of every

No holder of a tavern license shall sell any alcoholic beverages on Sundays, no other licensee under section twelve shall sell any such beverages on Sundays before one o'clock post meridian, no registered pharmacist acting under section twenty-nine and no licensee under section thirty A shall sell any alcoholic beverages or alcohol without a prescription on Sundays or legal holidays and no licensee under any other section of this chapter for the sale of alcoholic beverages not to be drunk on the premises shall sell or deliver any such beverages or alcohol on Sundays or legal holidays.

The governor, with like advice and consent, shall, from time to time, designate one of the members as chairman, may remove any member and shall fill any vacancy in the commission for the unexpired term. The action of any two of the members shall constitute the action of the commission; and whenever any action by the commission is required to be in writing, such writing shall be sufficient when signed by any two of the members. SECTION 2. Until April twentieth, nineteen hundred and forty, the town of Millville shall have the capacity to act through and to be bound by the commission and not otherwise, except as hereinafter provided, and the commission shall have and exercise exclusively, so far as will conform to the provisions of this act, all rights, powers and duties now or hereafter conferred or imposed upon the inhabitants of said town and its officers, and the commission shall determine the amount that may be expended for any purpose whatsoever and no liability shall be incurred in excess of the amount so determined, notwithstanding the common law or any provision of statutory law to the contrary. Upon tender to the state treasurer of any notes issued by the town under this section or issued by it in anticipation of revenue, they shall forthwith be purchased by the commonwealth at the face value thereof. Such notes, if issued for purposes of sale to the commonwealth, shall bear such rates of interest as in the judgment of the state treasurer and the commission will cover the entire cost to the commonwealth incurred on account of loans to the town hereunder, includ-

ing interest on money borrowed by the commonwealth under section six of this act and all expenses in connection with the issue of its notes thereunder. The commission shall have the power of appointment of all agents hereunder and shall fix their compensation and assign to them such of the powers and duties of the commission as it shall specify; may purchase supplies; and may employ persons to do work for the town.

SECTION 4. The said town of Millville shall not, in said years nineteen hundred and thirty-six to nineteen hundred and forty, inclusive, be subject to assessment under section eighty-five of chapter one hundred and eleven of the General Laws for the maintenance of the Worcester county tuberculosis hospital, nor shall it be entitled to have its residents who are suffering from tuberculosis cared for and treated at said hospital during said years. The commission and the department of public health are hereby authorized to make a contract or contracts for the care and treatment during said years of residents of said town who are suffering from tuberculosis.

SECTION 5. In each of said years nineteen hundred and thirty-six to nineteen hundred and forty, inclusive, the commission shall assess all property within said town, as far as may be, at its fair cash value at a rate twenty per cent in excess of the average rate of tax of all cities and towns of the commonwealth for the preceding year, and any amount necessary to meet expenditures over and above the amount to be raised from taxes and estimated to be received from other sources shall be advanced temporarily by the commonwealth upon receipt of notes of the town payable in not more than four years from their dates.

SECTION 6. Such notes shall be issued for such maximum term of years as the governor may recommend to the general court in accordance with section three of Article LXII of the amendments to the constitution of the commonwealth, but such notes, whether original or renewal, shall be payable not later than November thirtieth,

nineteen hundred and forty-one. All notes issued under this section shall be signed by the state treasurer, approved by the governor and countersigned by the comptroller.

SECTION 8. If, on April twentieth, nineteen hundred and forty, the principal and interest on all notes issued by said town hereunder and purchased by the commonwealth have not been paid in full, the state treasurer shall have authority not later than the issue of his warrant for the town's share of the state tax, to issue his warrant requiring its assessors to include in its next annual tax levy the amount necessary to pay in full the portion thereof remaining due or to include in that and any succeeding levy the amount necessary to pay any instalment thereof as determined and certified to him by the commission as hereinafter provided. If, in the opinion of the commission, the financial affairs of said town warrant, the commission may direct the assessment of the amount remaining due, in such number of annual instalments, not exceeding three, as may seem advisable; provided, that the amount of any instalment payable in any year shall not be less than the amount of any instalment payable in any subsequent year. Prior to April twentieth, nineteen hundred and forty, the commission shall determine and certify to the state treasurer the amount of each instalment, if any, required to be assessed upon the said town in the several years. The amount included under authority hereof in the state treasurer's warrant to the assessors of the said town shall be collected and paid to him in the same manner and subject to the same penalties as state taxes, and if such amount is not duly paid as aforesaid by the said town, the state treasurer shall have authority to withhold, from any sum due from the commonwealth to it and not previously pledged, the amount necessary to pay in full the amount remaining due to the commonwealth on April twentieth, nineteen hundred and forty.

For the purpose of providing additional court house accommodations and facilities for the courts and other officials in the county of Suffolk, including furnishings and equipment, there is hereby established a commission, hereinafter referred to as the commission, to consist of three citizens of the commonwealth, who shall be appointed within two months after the effective date of this act in the manner following: — one by the governor, one by the mayor of the city of Boston, hereinafter referred to as the mayor, and one by the chief justice of the supreme judicial court, the chief justice of the superior court and the chief justice of the municipal court of the city of Boston, or a majority of them. The commission shall choose its own chairman. The commissioners shall receive such compensation as may be determined by the governor and the mayor, and shall serve for a period of five years from said date. Any vacancy in the office of any commissioner shall be filled in the same manner as the original appointment.

SECTION 2. The commission is hereby authorized and directed to determine upon the location of such additional accommodations and facilities, and whether they shall consist of alterations in or additions or extensions to the present court house building or additional court house units, or any or all thereof; and to determine the type and general style of building or buildings to be utilized, so far as consistent with the laws and regulations relative to the height of buildings applicable to the location, and what streets and ways, if any, shall be closed, altered or extended in order to consolidate locations and to permit of an advantageous lay-out and adequate access thereto. Forthwith upon the determination of said questions and in accordance with such determination, the commission shall proceed to acquire by purchase, or to take by eminent domain under chapter seventy-nine of the General Laws, such land and interests therein, including buildings, as may be necessary to construct such additions, extensions or units, or to relocate or extend public ways; provided, that in case of any taking under said chapter seventy-nine the commis-

sion at the time of taking need make no award of damages sustained by the person whose property is taken, and shall proceed to cause to be closed, altered or extended such streets and ways as may have been determined to be necessary, and to cause to be prepared, subject to the approval of the governor and the mayor, and in compliance with said laws and regulations, plans and specifications for the construction of such alterations, extensions, additions and units, or any of them, together with such remodeling and alterations of the present court house building, as shall have been determined to be necessary as aforesaid, in order properly to house the superior, municipal and juvenile courts and clerks' offices, the probate court, the registry of probate, the registry of deeds, the offices of the district attorney and the sheriff of said county, the social law library, the supreme judicial court, the land court, the reporter of decisions, the board of probation and the board of bar examiners, and adequately to accommodate all other services and facilities incidental thereto and needful for the prompt and effective administration of justice and the despatch of public business. The commission shall be provided with suitable quarters and may employ a secretary, architects, engineers, attorneys and other necessary assistance. The expense incurred under authority of the preceding sentence shall be deemed to be a part of the work authorized by this act. The services of such architects and engineers as may be employed by the commission shall be on the basis of salary or fee plus actual cost of draughting and incidentals, and not of commission.

SECTION 3. Upon completion of the necessary land takings or purchases the commission, with the approval of the governor and the mayor, may proceed by contract, in the manner hereinafter provided, with the wrecking and removal of the old buildings on the land so taken or purchased. When the plans and specifications have been approved by the governor and the mayor as aforesaid, and if it appears to their satisfaction that after making reasonable allowances for unsettled land damages, furnishings and equipment, and contingencies, the total expense of carrying out the provisions of this act will not exceed the unexpended balance of the amount herein authorized to be expended, the commission is hereby authorized, on behalf of the commonwealth and the city of Boston, to proceed with the making of contracts for the construction of the alterations, extensions, and additions and units, or any of them, authorized as herein provided, and the furnishing and equipment thereof. The liability of the commonwealth and of said city under any such contract, or otherwise, shall be limited to the proportions in which the commonwealth and the city respectively, contribute to the cost of the work, as herein provided. The commission may dispose of such furnishings and equipment in the existing court house building as may be replaced hereunder, and

the proceeds shall be available for expenditure for the purposes of this act. All work shall be done under written contract, and no such contract shall be deemed to have been made or executed until the written approval of the governor and the mayor has been affixed thereto. All such contracts shall be awarded by the commission on the basis of competitive bidding, and only after proposals for the same have been invited by advertisements in the Boston City Record once a week for at least two consecutive weeks, the last publication to be at least one week before the time specified for the opening of said proposals. Said advertisements shall state the time and place where plans and specifications of the proposed work may be had and the time and place for opening the proposals in answer to said advertisements, and shall reserve to the commission the right to reject any or all of such proposals. All such proposals shall be opened in public. Any contract made as aforesaid may be required to be accompanied by a bond with sureties satisfactory to the commission, or by a deposit of money, certified check or other security for the faithful performance thereof, and such bonds or other securities shall be deposited with the city treasurer until the contract has been carried out in all respects. Alterations in any such contract or in the plans and specifications to which it relates shall require the written approval of the governor or some person designated by him for the purpose and of the mayor or some person designated by him as aforesaid. A member of the commission may be so designated.

SECTION 4. For the purpose of completely carrying out the provisions of this act, including payment of salaries and expenses of its members, the commission may expend, in addition to any sums received under any other provision of this act, a sum not exceeding five million dollars, including such sums as may be allocated by the federal government. Of the balance of the total cost after deducting such sum as may so be allocated, thirty per cent shall be paid by the commonwealth and seventy per cent by the city of Boston. To meet the commonwealth's share of such expenditures, the state treasurer shall from time to time, on the request of the commission and with the approval of the governor and council, place at the disposal of the commission such funds as it may require within the said limit, either from such appropriation or appropriations as may be made or by the issue and sale, at public or private sale, of notes of the commonwealth, to an amount not exceeding such sums as may be necessary to meet such share which shall be designated "Court House Loan, Act of 1935". Such notes shall be for such term of years as may be recommended by the governor in accordance with section three of Article LXII of the amendments to the constitution, and shall bear interest, payable semi-annually, at such rate as shall be fixed by the state treasurer, with the approval of the governor and council.

SECTION 5. The city of Boston shall from time to time, at the request of the commission, place at the disposal of the commission such funds as may be needed to meet the city's share of the expenditures authorized by this act, and for this purpose the treasurer of said city, without further authority, shall borrow from time to time such sums as may be necessary, not exceeding, in the aggregate, such sums as may be necessary to meet such share, and may issue bonds or notes therefor, which shall bear on their face the words, City of Boston, Court House Loan, Act of 1935. Each authorized issue shall constitute a separate loan, and such loans shall be payable in not more than twenty years from their dates. Such indebtedness incurred under this act shall be in excess of the statutory limit, but shall, except as herein otherwise provided, be subject to all laws relative to the incurring of debt by said city.

SECTION 6. From the time when the enlargement and improvement herein provided for shall be substantially completed and actual use of the same shall begin the commonwealth shall contribute annually, at such times and in such amounts as the state treasurer shall from time to time find convenient, with the approval of the council, thirty per cent of the annual costs and charges of maintenance and operation of the Suffolk county court house taken as a whole, and the remaining seventy per cent shall be paid by the city of Boston.

SECTION 7. This act shall not take effect unless and until funds have been allotted by the federal government sufficient to cover such proportion of the cost of providing additional court house accommodations and facilities as aforesaid and carrying out the provisions of this act, as may be approved by the governor of the commonwealth and the mayor of the city of Boston, and then only upon acceptance by the city council of said city, subject to the provisions of its charter. *Approved August 9, 1935.*

For the purpose of carrying out said project, including any expenditures on account of the purchase or taking of land or damages to land occasioned by the construction hereinbefore provided for, the said commission may expend a sum not exceeding, in the aggregate, three million dollars of which not more than one million eight hundred thousand dollars shall ultimately be borne by the common-

salary of sixty-five hundred dollars and each other member shall receive a salary of six thousand dollars.

(c) The commission shall determine its own method of procedure. Any investigation, inquiry or hearing which the commission is authorized to hold or undertake may be held or undertaken by or before any one member of the commission, or by or before one of its authorized representatives or deputies, and every order made by a member thereof, or by one of its authorized representatives or deputies, when approved and confirmed by a majority of the commission, and so shown on its record of proceedings, shall be deemed to be the order of the commission.

(d) The commission shall have a secretary, who shall be appointed by the commission with the approval of the governor and council, and who shall not be subject to chapter thirty-one and the rules and regulations made thereunder.

Section 9J. The commission, subject to the approval of the governor and council, may adopt, amend, alter or repeal, and shall enforce, all such reasonable rules, regulations and orders as may be necessary or suitable for the administration and enforcement of chapter one hundred and fifty-one A. Such rules and regulations, and any amendments, alterations or repeals thereof, shall be recorded in the minutes of the commission, and, upon the filing with the state secretary of a certified copy thereof and a certificate that they have been approved by the governor and council, shall have the force and effect of law. The commission may make any expenditures, subject to appropriation, require any reports and take any other action, necessary and suitable to carry out the provisions of said chapter. It shall make an annual report to the governor and to the general court covering the administration and operation of said chapter during the preceding fiscal year, together with such recommendations as it deems proper.

Rules and regulations.

Section 9K. Subject to appropriation, the commission may appoint and employ all officers, accountants, clerks, secretaries, agents, investigators, auditors and other officers and employees, necessary for the proper administration of chapter one hundred and fifty-one A. All persons so appointed or employed shall be selected on a non-partisan merit basis, subject to chapter thirty-one and the rules and regulations made thereunder, and also subject to such rules and regulations consistent therewith as may be adopted by the commission. The commission shall not appoint or employ any person who is serving as an officer or committee member of any political party. The commission shall fix the duties and powers of all persons appointed and employed by it, and may authorize any such person to perform any of the functions of a commissioner under this chapter. The commission may, in its discretion, bond any person handling moneys or signing checks hereunder.

Appointment of employees.

Division of
public em-
ployment
offices.

Section 9L. There shall be in the department, subject to the supervision and control of the commission, a division of public employment offices. The commission may, with the approval of the governor and council, appoint, and fix the salary of, the director of said division, and may, with like approval, remove him. The commission may appoint or employ, and remove, such inspectors, investigators, clerks and other assistants as the work of said division may require. Said division shall be the state agency for co-operation with the United States Employment Service under chapter forty-nine of the acts of the Seventy-third Congress, Session I, known as the Wagner-Peyser Act, and shall have all the powers of such an agency as specified in said act. It shall have exclusive control of the establishment, maintenance and operation of free public employment offices by the commonwealth.

Employment
districts.

Section 9M. The commission shall divide the commonwealth into employment districts. Subject to appropriation, it may establish and maintain such additional free public employment offices as it may find necessary to provide at least one such office within the limits of each such employment district, and may further establish such branch or local offices within each district as it may find necessary or convenient for the proper administration of chapter one hundred and fifty-one A. Each district office shall be in charge of a district superintendent. Each branch or local office shall be in charge of a branch or local manager. Said district and branch or local offices shall be available for the payment of benefits, presentation of claims, registration of the unemployed, placement of the unemployed in available employment, and for the proper administration of chapter one hundred and fifty-one A.

State advisory
council.

Section 9N. (a) There shall be a state advisory council of nine members, to be appointed by the governor with the advice and consent of the council. Three of said members shall be persons who, because of their previous vocations, employments, occupations or affiliations, can be classed as employers; three shall be persons who, for like reasons, can be classed as employees; and three shall be persons representative of the public. Of the members originally appointed, one of each of the aforesaid groups shall be chosen for a term of two years; one of each group for a term of four years; and one of each group for a term of six years; and thereafter as their terms expire the governor, with the advice and consent of the council, shall appoint or reappoint members for a term of six years. Not more than five members of the state advisory council shall be members of the same political party. Vacancies shall be filled by appointment by the governor, with the advice and consent of the council, for the unexpired term. All members shall serve until the qualification of their respective successors. The members shall serve without salary, but shall be allowed actual and necessary traveling and other incidental expenses.

SECTION 5. The General Laws are hereby amended by inserting after chapter one hundred and fifty-one, the following new chapter: —

G. L. (Ter. Ed.), new chapter 151A, added.

CHAPTER 151A.

UNEMPLOYMENT COMPENSATION.

DEFINITIONS.

Section 1. The following words and phrases as used in this chapter shall have the following meanings, unless the context clearly requires otherwise: —

(a) "Employment", any employment in which all or the greater part of the employee's work is customarily performed within the commonwealth, under any contract of hire, oral or written, express or implied, whether such employee was hired and paid directly by the employer or through any other person employed by him, if the employer had actual or constructive knowledge of such contract. Such employment shall include the employee's entire employment. In the case of all other individuals employed partly in the commonwealth and partly elsewhere, the term "employment" shall include the employment of such persons to the extent prescribed by general rules adopted by the commission.

Definitions.

The term employment, unless the context otherwise requires, shall not apply to —

- (1) Employment as a farm laborer;
- (2) Employment in personal or domestic service in private homes;
- (3) Employment by the federal or state government or any subdivision or agency thereof;
- (4) Employment on a governmental relief project approved by the commission;
- (5) Employment by any corporation, association or group organized and operated exclusively for religious, charitable, medical, scientific, literary or educational purposes, no part of the net earnings of which inures to the benefit of any shareholder or individual having a like interest;
- (6) Employment, on a commission basis, by one or more employers, where the employee is master of his own time and efforts, and where his wages or compensation wholly depend on the amount of effort he chooses to expend in his occupation;
- (7) Employment as a share fisherman wholly remunerated by share;
- (8) Employment at work, wholly or in major part done at the worker's own home, whether done for himself or others, such work being paid for in proportion to the piece or part thereof completed;
- (9) Employment as a short-time or casual worker for a period of four weeks or less.

(b) "Employee", any individual employed for hire

by any employer and in any employment subject to this chapter, except any individual employed at a rate of twenty-five hundred dollars a year, or more.

(c) "Employer", any individual, partnership, firm, association, corporation, whether domestic or foreign, or the legal representative, trustee in bankruptcy, receiver, or trustee thereof, or the legal representative of a deceased person, who or whose agent or predecessor in interest has elected to become fully subject to this chapter as hereinafter provided, and whose election remains in force, or who has employed at least eight individuals in employment subject to this chapter on some day in each of twenty weeks in the preceding calendar year; provided, that such employment in the calendar year nineteen hundred and thirty-five shall make an employer subject to this chapter on January first following, and that such employment in any subsequent calendar year shall make an employer, not previously subject to this chapter, subject thereto for all purposes as of January first of the calendar year in which such employment occurs.

In determining whether an employer of any individuals in the commonwealth employs a sufficient number to be an employer subject hereto, and in determining for what contributions he is liable hereunder, he shall, whenever he contracts with any contractor or subcontractor for any work which is part of the employer's usual trade, occupation, profession or business, be deemed to employ all individuals employed by such contractor or subcontractor on such work, and the employer alone shall be liable for the contributions measured by wages paid to such individuals for such work; but the foregoing provisions of this paragraph shall not apply if any such contractor or subcontractor, who would in the absence of such provisions be liable to pay said contributions, accepts exclusive liability therefor under an agreement with such employer made pursuant to general rules of the commission.

All individuals employed by an employer in all of his several places of employment maintained within the commonwealth shall be treated as employed by a single employer for the purposes of this chapter; and where any employer, either directly or through a holding company, voting trust, trustees or otherwise, has a majority control or ownership of otherwise separate business enterprises employing individuals in the commonwealth, all such enterprises shall be treated as a single employer for the purposes of this chapter.

No employer subject to this chapter shall cease to be subject hereto, except upon a written application therefor by him and after a finding by the commission that he has not within any week within the last completed calendar year employed eight or more individuals in employment subject hereto. Any employer of any individual within the commonwealth not otherwise subject to this chapter

shall become fully subject hereto, upon filing by such employer with the commission of his election to become fully subject hereto for not less than two calendar years, and upon the written approval of such election by the commission.

(d) "Commission", the unemployment compensation commission established under section nine I of chapter twenty-three, or its authorized representative.

(e) "Contributions", the money payments to the unemployment compensation fund required by this chapter.

(f) "Fund", the unemployment compensation fund established by this chapter.

(g) "Unemployment compensation administration account", the account set up for the purpose of meeting the expenses of administration under this chapter.

(h) "Benefit", the money allowance payable to an employee as compensation for his wage losses due to unemployment as provided in this chapter.

(i) "Wages", every form of remuneration for employment received by an employee from his employer, whether paid directly or indirectly, including salaries, commissions, bonuses, and the reasonable value of board, rent, housing, lodging, payments in kind and similar advantages.

(j) "Full-time weekly wage", the weekly earnings an employee would receive from his employment if employed at the hourly rate of earnings and for the full-time weekly hours applicable to such employee. The commission shall make such rules and adopt such methods of calculating full-time weekly wages under this section as may be suitable and reasonable.

(1) "Hourly rate of earnings" means a rate per hour to be determined by averaging the employee's actual earnings from employment with the most recent employer for whom he has worked for at least one hundred hours.

(2) "Full-time weekly hours" means the standard weekly hours customarily worked by employees in the employment in question. Where there are no such customary standard weekly hours, the commission shall determine the standard by averaging weekly hours for all weeks, in at least the past three months, in which the employee has worked thirty hours or more, or by such other equitable method as the commission may by general rule prescribe.

(k) "Day of employment", any day during which an employee performs more than half a day's work in an employment and for an employer subject to this chapter.

(l) "Week", calendar week.

(m) "Week of employment", employment for not less than eighty per cent of full-time weekly hours or yielding not less than eighty per cent of full-time weekly wages.

(n) "Pay roll", the total amount of all wages, salaries and remunerations paid by an employer to his employees entitled to benefits under this chapter.

(o) "Unemployment". An employee shall be deemed unemployed in any week in which he performs no wage-earning service whatever, and in which he earns no wages or other pay for personal services, including net earnings from self-employment, and in which, though capable of and available for employment, he is unable to obtain any employment and cannot reasonably return to any self-employment in which he is customarily engaged.

(p) "Employment office", the free public employment office operated by the commonwealth in the employment district in which the employee resides or is employed, or the branch or local office nearest to his place of residence or employment, unless otherwise prescribed by general rule of the commission.

CONTRIBUTIONS.

Contributions.

Section 2. On and after January first, nineteen hundred and thirty-six, contributions shall become due and payable by each employer subject to this chapter on said date. Contributions by any employer not then subject to this chapter shall become due and payable on and after the date on which he becomes subject hereto. The contributions required hereunder shall be paid by each employer in such manner and at such times as the commission may prescribe, and shall be paid over by the commission to the state treasurer, who shall credit the same to the fund.

Employers' contributions.

Section 3. (a) Employers: Each employer shall contribute in his own behalf for the calendar year nineteen hundred and thirty-six an amount equal to one per cent of his pay roll, less any amount not credited to him by any federal law governing unemployment compensation or the administration thereof, for the year nineteen hundred and thirty-seven an amount equal to two per cent of his pay roll, less any amount not so credited to him, and for each year thereafter, an amount equal to three per cent of his pay roll, less any amount not so credited to him.

Employees' contributions.

(b) Employees: From January first to December thirty-first, inclusive, nineteen hundred and thirty-seven, each employee shall contribute to the fund one per cent of his wages; and thereafter, he shall contribute an amount equal to one half of the amount contributed by his employer for him. Each employer shall withhold such contribution from the wages of his employees, shall show such deduction on his pay roll records, and shall transmit all such contributions to the fund, pursuant to general rules of the commission.

Classification of employees.

Section 4. In nineteen hundred and forty-one the commission shall classify, and at reasonable times thereafter shall reclassify, employers in accordance with the actual experience with regard to the contributions which they have paid in their own behalf and the approximate benefits which have been paid from the fund to their employees, as computed from the employer's contribution

records or otherwise, and the commission may fix contribution rates in accordance with such classifications, in the case only of employers who have made contributions to the fund for at least three years. No such rate shall be less than one per cent of the employer's pay roll. Such rates shall be known as merit ratings.

Section 5. The commission shall investigate and report upon the approximate degree of unemployment hazard in the various industries, occupations and employments and their cost to the fund. It shall recommend to employers, in industries, occupations or employments showing an excessive cost to the fund, measures for stabilizing employment therein. It shall also, if it deems necessary, recommend to the general court a higher rate of contribution for any classification of industries, occupations or employments in which unemployment is excessive or chronic.

Investigations.

Section 6. If any employer, after due notice, fails to make when due any payments required of him under this chapter, such overdue payments shall carry interest at the rate of one per cent per month from such due date until paid, and the commission shall collect such overdue payments, together with such interest, in an action of contract in the name of the commonwealth. Any sums so collected shall be paid to the state treasurer and credited by him to the fund.

Interest on overdue payments.

Section 7. Such overdue payments to the fund, with interest thereon, shall, until collected, be a lien against the assets of the employer, subordinate, however, to claims for unpaid wages and prior recorded liens.

Same subject.

Section 8. In the event of an employer's dissolution, bankruptcy, adjudicated insolvency, receivership, assignment for benefit of creditors, judicially confirmed extension proposals or composition, contribution payments then or thereafter due under this chapter shall have priority over all other claims, except taxes and wage claims.

Priority.

UNEMPLOYMENT COMPENSATION FUND.

Section 9. There is hereby created a fund, to be known as the unemployment compensation fund, to be administered by the commission without liability on the part of the commonwealth beyond the amounts credited to and earned by the fund. The fund shall consist of all contributions and moneys paid into the treasury of the commonwealth and credited to the fund as provided in this chapter, of property and securities acquired by and through the use of moneys belonging to the fund, and of interest earned thereon, less payments therefrom under this chapter.

Unemployment compensation fund.

Section 10. The fund shall be administered in trust and used solely to pay benefits hereunder, upon vouchers drawn thereon by the commission pursuant to its general rules, and no other disbursements shall be made therefrom.

Administration of fund.

Section 11. The state treasurer shall be, ex officio,

State treasurer

custodian
of fund.

the treasurer and custodian of the fund; and all disbursements therefrom shall be paid by him upon vouchers duly drawn in accordance with general rules of the commission. He shall have custody of all moneys, securities and property belonging to the fund and not otherwise held, deposited or invested under this chapter. He shall give a separate and additional bond, conditioned on the faithful performance of his duties as treasurer and custodian of the fund, in an amount recommended by the commission and approved by the governor and council and with sureties satisfactory to the attorney general. Such bond shall be deposited with the state secretary. Premiums upon bonds required pursuant to this section shall be paid from the unemployment compensation administration account.

Investment
of fund.

Section 12. The state treasurer shall deposit or invest the fund under the supervision and control of the commission, subject to the provisions of this chapter; provided, that upon the establishment by the United States government or its authorized agency of an unemployment trust fund, from which the state treasurer, as the state agency which is custodian of the fund, may be entitled to requisition at any time such sums standing to his account therein as may be required by the commission to carry out the purposes of section ten, said treasurer shall, if required by federal law, deposit or invest the fund therein and keep it so deposited or invested, except sums requisitioned as aforesaid, so long as such trust fund exists and remains subject to such requisition.

Investment
board,
duties of.

Section 13. An investment board of three members shall be responsible for directing how and to what extent the fund shall from time to time be held, deposited and invested under this chapter. Said board shall consist of the state treasurer, the commissioner of banks and the chairman of the commission, or their authorized representatives, and may perform its duties by the recorded vote of any two of its members and under rules to be adopted by said board. During the first year of contribution payments under this chapter the board shall promptly direct the investment of all moneys received by the fund, except as otherwise provided in section twelve. Thereafter, except as otherwise provided in said section, as determined from time to time by the board, not less than twenty nor more than forty per cent of the fund shall either be deposited with the federal reserve bank of Boston, if said bank is authorized to receive and to pay interest on such deposits, or shall be deposited by the state treasurer in the same manner and subject to all the provisions of law applying to the deposit of other state funds, or shall at the direction of the board be held in ear-marked cash either by the state treasurer or by the federal reserve bank of Boston, if said bank is authorized to hold such funds for the commonwealth, or in other safe depositories selected by said board. Except as otherwise provided in section twelve,

the balance of the fund shall at the direction of the board be invested in any or all of the classes of securities referred to in section fourteen. If the fund is so invested, the board may purchase and sell such securities therefor at current market prices, may invest and reinvest the fund from time to time in its discretion, and may, in its discretion, borrow against its investments for current payments. To enable the board to perform its duties under this section the commission shall furnish the board with any necessary assistance duly requested by the board and approved by the commission.

Section 14. All investments of the fund shall, as far as practicable, be readily convertible into cash when needed. To this end the board shall invest the fund, except as provided in section twelve, only in the following classes of securities: (a) United States treasury notes and certificates; (b) other direct obligations of the United States of America; (c) securities which are the direct obligations of the commonwealth; (d) bonds and other interest-bearing obligations of any legally constituted governmental subdivision of the commonwealth, if such subdivision has never defaulted in the payment of the principal or interest of any of its bonds or other interest-bearing obligations.

Classes of securities in which investment fund is to be placed.

Section 15. The fund shall be the sole and exclusive source for the payment of benefits hereunder, and such benefits shall be deemed to be due and payable only to the extent that contributions, with increments thereon, are actually collected and credited to the fund.

Benefits from fund.

BENEFITS.

Section 16. After contributions by employers have been due under this chapter for two years, benefits shall become payable from the fund to any employee eligible for benefits under this chapter, who thereafter is or becomes unemployed. Such benefits shall be paid through the employment offices at such times and in such manner as the commission may by general rule prescribe.

When benefits payable.

Section 17. Benefits shall be payable to an employee for no more than his weeks of unemployment subsequent to a waiting period, the duration of which shall be determined as follows: —

Same subject.

(a) An employee who is unemployed shall be eligible for benefits for unemployment subsequent to a waiting period of four successive weeks, and no benefits shall be or become payable during said required waiting period; provided, that no such waiting period shall be required of any employee more than once in any twelve months; and provided, further, that any week of partial employment during which an employee receives less than half of his full-time weekly wage shall not interrupt the continuity of such four weeks, and shall be counted toward said waiting period as one half of one week.

(b) The waiting period shall commence on the day an unemployed employee registers as such at an employment office or other place of registration maintained or designated by the commission or on the day that he has otherwise given notice of his unemployment in accordance with the rules of the commission.

(c) There shall not be counted towards an employee's required waiting period any week in which under section eighteen or nineteen he is ineligible for benefits.

Payment of
benefits
limited.

Section 18. No employee shall be entitled to any benefits under this chapter unless he —

(a) Has had not less than ninety days of employment as defined in this chapter with an employer or employers subject hereto within the fifty-two weeks immediately preceding the date of his registration as unemployed, or other notice as provided in paragraph (b) of section seventeen, or in the alternative unless he has had not less than one hundred and thirty days of employment as defined in this chapter, with an employer or employers subject hereto, within the one hundred and four weeks immediately preceding the date of his registration as unemployed or other notice as aforesaid.

(b) Is capable of and available for employment and is unable to obtain work in his usual occupation or any other occupation for which he is reasonably fitted, including employments not subject to this chapter.

(c) Has registered, as provided in paragraph (b) of section seventeen, as unemployed and has registered for work and filed claim for benefits at the employment office designated by the commission for this purpose, within such time limits and with such frequency and in such manner as the commission may by general rule prescribe. No employee shall be eligible for benefits for any week in which he fails without good cause to comply with such registration and filing requirements. The commission shall furnish copies of its rules covering such requirements to each employer, who shall notify his employees of the terms thereof when they become unemployed.

Payment of
benefits upon
termination of
employment
regulated.

Section 19. (a) No benefits shall be paid to an employee under this chapter for any week in which his unemployment is directly due to a strike, lockout or other trade dispute still in active progress in the establishment where he was last employed.

(b) Any employee who has left his employment voluntarily without reasonable cause attributable to his employer, or has been discharged for misconduct, shall be ineligible for benefits for four consecutive weeks additional to the waiting period provided in section seventeen; and the duration of benefits for unemployment to which the employee may be entitled shall thereby be reduced by four weeks.

(c) If an otherwise eligible employee fails, without good cause, to apply for suitable employment when notified so

to do by the employment office, or to accept suitable employment when offered him, in each such instance he shall become ineligible for benefits for the week in which such failure occurred and for the four next following weeks; and such weeks shall be charged, as if benefits for unemployment had been paid therefor, against the employee's most recent weeks of employment against which benefits have not previously been charged hereunder, and shall also be counted against his maximum weeks of benefit per year; provided, that the period thus charged shall not exceed the period of actual unemployment.

"Suitable employment", as said words are used in the preceding paragraph, shall mean any employment not detrimental to the health, safety or morals of an employee, for which he is reasonably fitted by training and experience, including employment not subject to this chapter, which is located within reasonable distance of his residence or last employment, and which does not involve travel expenses substantially greater than that required in his former employment. No employment shall be deemed suitable, and benefits shall not be denied under this chapter to any otherwise eligible employee for refusing to accept new work, under any of the following conditions: (1) if there is a strike, lockout or other labor dispute in the establishment in which the employment is offered; (2) if the wages, hours and other conditions of the work offered are so substantially less favorable to the employee than those prevailing for similar work in the locality as to depress unduly wages or working conditions; (3) if acceptance of such employment would require the employee to join a company union or would abridge or limit his right to join or retain membership in any bona fide labor organization or association of workmen.

(d) No benefits shall be payable under this chapter to an employee who becomes unemployed by reason of commitment to any penal institution.

(e) No benefits shall be payable under this chapter to an employee who is receiving compensation under chapter one hundred and fifty-two; provided, that if he is receiving only partial compensation under said chapter one hundred and fifty-two, which is less than the benefits which would otherwise be due him hereunder for unemployment, he shall receive such unemployment benefits reduced by the amount of such partial compensation.

Section 20. An employee unemployed and eligible for benefits shall be paid benefits for each week of unemployment after the specified waiting period at the rate of fifty per cent of his full-time weekly wage, but such benefits shall not exceed fifteen dollars per week or be less than five dollars per week.

Section 21. The aggregate amount of benefits an employee may receive shall be limited by the number of his past weeks of employment against which benefits have not

Rate of benefit.

Total benefit payable regulated.

been charged hereunder. Each employee shall receive benefits in the ratio of one week of unemployment benefits to each four weeks of his full-time employment or its equivalent occurring within the one hundred and four weeks preceding the close of his most recent week of employment; but in no case shall an eligible employee receive more than sixteen weeks of unemployment benefits within any fifty-two consecutive weeks, except as provided in section twenty-two.

Same subject.

Section 22. An employee, who has received the maximum benefits permitted under section twenty-one, shall receive, for the time during which he remains unemployed and eligible, additional benefits in the ratio of one week of unemployment benefit for each unit of eighteen weeks of employment, for which he has paid the required employee contribution, occurring within the six years preceding the close of his most recent week of employment, and against which benefits have not already been charged under this chapter; and after such additional benefits have been exhausted he shall receive, for the time during which he remains unemployed and eligible, one week of unemployment benefit for each unit of twenty-six weeks of employment, for which he has paid the required employee contribution provided herein and against which benefits have not already been charged under this chapter.

Same subject.

Section 23. When an eligible employee has drawn in any one year the maximum benefits to which he is entitled under sections twenty-one and twenty-two, he shall not be eligible for benefits in a subsequent year until the payment in his behalf of eight full weekly contributions.

Commission may modify scale of payments.

Section 24. If in any six months' period the amount paid in benefits from the fund has exceeded the income, or if, in the judgment of the commission, the reserves in the fund are in serious danger of depletion, the commission may declare an emergency and announce a modified scale of benefits, an increased waiting period, or other changes in the rules and regulations regarding eligibility for receipt of benefits which it may deem necessary to maintain the reserves of the fund.

If as a result of experience there should be found among the employments subject to this chapter certain industries or occupations normally providing individual workers periods of employment of less than two weeks for any given employer, or normally involving work for a number of employers, the commission may place such industries or occupations in categories having special rules regarding eligibility for payment of benefits or reduced scale of benefits.

Lump sum benefit payments.

Section 25. In lieu of paying to an eligible employee in weekly or other installments the maximum amount of benefits to which his past weeks of employment might entitle him under this chapter in case he remained continuously unemployed and eligible, the commission may discharge the

fund's entire existing benefit liability to such employee by paying him a lump sum equalling not less than fifty per cent nor more than eighty per cent of said maximum amount of benefits; provided, that lump sum payments shall be thus made only in unusual cases, as when an employee has no prospect of securing further employment in the locality but may secure employment elsewhere. The commission shall by general rules determine on what percentage basis and under what unusual conditions such lump sum payments shall be made, and each such case shall be subject to specific approval by the commission.

Section 26. Wherever in any industry, employment or occupation, or branch thereof, because of its seasonal nature, it is customary to operate only during a regularly recurring period or periods of less than one year in length, and whenever there are individuals employed in such industry, employment or occupation who are not ordinarily employed during the year in any other employment for hire, whether an employment subject to this chapter or not, the commission shall ascertain and determine or redetermine, after investigation and due notice, such seasonal period or periods for each such seasonal industry, employment or occupation, or branch thereof. When the commission has determined such seasonal period or periods, it shall also fix the right to benefits and the conditions required for the payment of benefits to such individuals, and shall modify the requirements for eligibility to benefits and the conditions required for payment thereof in such manner that such individuals will receive benefits in reasonable proportion to the length of time during which they have been employed in such industry, employment or occupation. For the purposes of this chapter, no industry, employment or occupation or branch thereof shall be deemed seasonal, until the commission has made such a determination.

Seasonal
occupations.

Section 27. An employee who, for reasons personal to himself, is unable or unwilling to work the usual full time, and who normally works less than the full time prevailing in his place of employment and in the type of employment in which he is engaged, shall register as a part-time worker in such manner as the commission shall prescribe. For the purposes of this chapter, the time which such employee normally works in any week shall be deemed his week of full-time employment, and the wages which he earns in such week shall be deemed his full-time weekly wages. The commissioner shall fix the proportionate number of days of employment required to qualify for benefits in place of the provisions contained in paragraph (a) of section eighteen, and proportionate maximum and minimum benefits in place of the maximum and minimum amounts provided in section twenty.

Part time
workers.

Section 28. An employer desirous of employing additional employees for short-time work only, without liability for premiums and benefits for such employees, may obtain

Casual em-
ployment.

express permission from the commission for such employment, which shall thereupon be deemed casual employment and exempted from the provisions of this chapter for a period of not more than four weeks. The commission shall make and publish rules governing the exemption of such casual employment, and distinguishing it from part-time employment.

Waiver of
benefits
prohibited.

Section 29. No agreement by an employee to waive his right to benefit or any other right under this chapter, or to pay all or any portion of the contributions required hereunder from his employer, shall be valid. No employer shall make or permit or require any deduction from wages or salary of an employee to finance in whole or in part the contributions required of the employer, or require any waiver by an employee of any right hereunder. The commission may make rules, regulations and orders for the enforcement of this section, and shall cause any violations hereof to be prosecuted.

Benefits not
assignable, etc.

Section 30. Benefits which are or may become due under this chapter shall not be assigned, pledged, encumbered, released, commuted or trusted before payment; and when awarded, adjudged or paid shall, as long as they are not mingled with other funds of the beneficiary, be exempt from all claims of creditors, and from levy, execution and attachment or other remedy now or hereafter provided for recovery or collection of debt, which exemption may not be waived.

Fees
prohibited.

Section 31. (a) No fee shall be charged in any proceeding under this chapter by the commission or its agents or representatives.

(b) In any proceeding under this chapter a party may be represented by an agent, but no fees for services rendered by such agent shall be allowable or payable unless the amount has been approved by the commission. Any individual, firm, association or corporation who shall exact or receive any remuneration or gratuity for any services rendered on behalf of a claimant, except as allowed by this section, or who shall solicit the business of appearing on behalf of a claimant, or who shall make it a business to solicit employment for another in connection with any claim for benefits under this chapter, shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than six months, or both.

SETTLEMENTS OF CLAIMS AND DISPUTES.

Benefit claims.

Section 32. Benefit claims shall be filed at the employment office at which the employee has registered as unemployed, pursuant to general rules of the commission. Such claims shall be filed in such form, at such time and in such manner as the commission shall, by general rules, prescribe. Notice of the claim so filed shall be given to the employee's last employer. Every employee making a claim shall

certify under the penalties of perjury that he has not received wages or compensation for any employment, whether subject to this chapter or not, otherwise than as specified in his claim. Any failure accurately to state such amounts so received shall disqualify the employee making such inaccurate statement from receiving any benefits for one calendar year from the time of such statement; but the commission may cancel such penalty wholly or in part as it deems proper and equitable if, after hearing the employee, and such other investigation as it deems desirable, it determines that any such misstatement was not intentional and was made under such circumstances that it believes the penalty should be lessened. Failure to make a claim within the time fixed by the commission shall not bar proceedings under this chapter if it is found that such failure was occasioned by mistake or other reasonable cause, or if it is found that the employer or other interested parties were not prejudiced by the delay.

Section 33. The commission shall make rules governing the manner in which claims shall be presented, the reports thereon required from the employee and from employers, and the conduct of hearings and appeals. Such rules shall be designed to ascertain the substantive rights of the parties involved, without regard to common law or statutory rules of evidence and other technical rules of procedure. A full and complete record shall be kept of all proceedings in connection with a disputed claim. Rules.

Section 34. The local or branch employment office official designated by the commission shall promptly determine, in accordance with the rules and procedure established by the commission, and after making such inquiries and investigation as he deems necessary, whether or not the claim is valid and the amount, if any, of the benefits payable thereunder, and shall promptly give notice of such decision to the employee, his most recent employer and such other parties as the commission may by general rule prescribe. In accordance with the rules of the commission benefits shall be paid or denied accordingly, unless a hearing is requested by a party affected within seven days after such notification. If a hearing is so requested, said official, after affording all parties interested reasonable opportunity to be heard, shall render a decision as promptly as possible and shall notify the parties affected, and shall file with the commission a statement of his findings and other matters pertinent to the questions arising before him, in accordance with the rules of the commission. Local employment offices, duties in respect to claims.

Section 35. Any party affected by such decision of the local or branch employment office official may file an appeal, in such manner and within such time as the commission may require, with such appeal board as the commission may by rule establish for said purpose. The parties interested shall be duly notified of the decision on appeal, and said decision shall be final, except in cases where the commission Appeal from findings of local officials.

acts on its own motion, or, pursuant to the rules of the commission, permits a proper party or proper parties to apply for review by the commission, or where, in the absence of such action or rule, appeal is taken to a district court under section thirty-seven.

Where the commission does not act on its own motion and no appeal is filed within the time provided by section thirty-seven and no application for review, if permitted by rule of the commission, is made within the time provided by rule therefor, the decision of the local employment office official shall be final on all questions of fact and of law, and the commission shall proceed to pay the benefits, if any, found payable.

Proceedings
before com-
mission, etc.

Section 36. The commission may remove or transfer the proceedings on any claim pending before a local or branch employment office official or appeal board; and, on its own motion, or upon an application for review, if permitted under its rules, may, within ten days after the date of any decision by such official or appeal board, affirm, reverse, change, modify or set aside any such decision on the basis of the evidence previously submitted in such case, or upon the taking of additional testimony.

Jurisdiction
of supreme
judicial and
district courts.

Section 37. Any party aggrieved by any decision of fact or of law in proceedings under this chapter, in which the value in controversy exceeds one hundred dollars, may after exhaustion of other appellate remedies provided in section thirty-five and by the rules of the commission, appeal within ten days after notice of such decision to the district court in the judicial district of which the employee lives or was employed, whereupon said court shall render judgment in accordance with its determination and notify the parties. The decision of the court shall be final and conclusive upon the parties upon questions of fact. The appeal board shall be represented by the attorney general in any appeal hereunder.

On final determination of an appeal hereunder, the appeal board shall enter an order in accordance with such determination.

The supreme judicial court, upon bill in equity brought by the commission against the claimant and all other interested parties, may determine any question of law arising upon any claim filed under section thirty-two, and also shall have general jurisdiction in equity, upon a bill brought by the commission, to enforce the provisions of this chapter. In all such cases the attorney general shall represent the commission. Such cases, and petitions for writs of certiorari against district courts acting under this section, shall have precedence over all other civil cases in said court, except cases arising under chapter one hundred and fifty-two.

Officials may
administer
oaths.

Section 38. In the discharge of the duties prescribed by this chapter any designated official, member of an appeal board, commissioner, or duly authorized representative of

the commission shall have power to administer oaths, take depositions, certify to official acts, and require by summons the attendance of witnesses and the production of books, papers, documents and records, necessary or convenient to be used in connection with any disputed claim. Witnesses summoned shall be paid the same fees as witnesses summoned to appear before the courts.

Section 39. No person shall be excused from testifying or from producing any book, record, document or other paper, pertinent to the matter in question, in any investigation or inquiry by or upon any hearing before the commission, when ordered to do so by the commission, upon the ground that the testimony or evidence, book, record, document or other paper required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no person shall be prosecuted, punished or subjected to any penalty or forfeiture for or on account of any act, transaction, matter or thing concerning which under oath, after claiming his privilege, he shall by order have testified or produced documentary evidence, except for perjury committed in giving such testimony or forgery committed by him in such documentary evidence.

Witnesses required to testify.

Section 40. The commission, subject to the approval of the commission on administration and finance, shall cause to be printed in proper form for distribution to the public the full text of this chapter, its general rules, its annual reports, its regulations, classifications, rates and rules of procedure, and any other material it deems relevant and suitable, and shall furnish the same to any person upon request. Unless the contrary is provided hereunder, or by the rules or regulations of the commission, such printing and availability on application shall be deemed a sufficient publication of the same.

The state advisory council established under section nine N of chapter twenty-three shall perform all the duties imposed on it by this chapter, and in addition it shall consider and advise the commission upon all matters connected with this chapter submitted to it by the commission, and may recommend upon its own initiative such changes in the administration of this chapter as it deems necessary. It shall have full investigatory powers, and shall have direct access to all sources of information. It shall promote as far as possible the regularization of employment within the commonwealth. Such records shall be open to inspection by the commission or its authorized representative at any reasonable time. The commission may require from any employer such reports on wages, hours, employment, unemployment and related matters concerning his employees as the commission deems necessary to the effective administration of this chapter, and every employer shall fully, correctly and promptly furnish the commission all information required by it to carry out the purposes and provisions of this chapter. The commission may require that such information be verified under oath, which may be administered by the commission, any member thereof, or any person thereto authorized by the commission.

Information not to be made public.

(b) Information secured from employers or employees pursuant to this chapter shall be confidential and for the exclusive use and information of the commission in the discharge of its duties hereunder, and shall not be open to the public nor be used in any court in any action or proceeding pending therein unless the commission or the commonwealth is a party to such action or proceeding. Any officer or employee of the commission or of the commonwealth who, except with authority of the commission or pursuant to its regulations, or as otherwise required by law, shall disclose the same, shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than six months, or both; provided, that nothing herein shall be construed to prevent the commission from making, upon request, full and complete reports to the federal social insurance board relating to the effect and administration of this chapter, on forms to be prescribed by the board, and from making available, upon request, to any agency of the United States charged with the administration of public works or other assistance through public employment, the names, addresses and ordinary occupation of each recipient of unemployment benefits and the date when such recipient received the last regular payment of benefits to which he was entitled under this chapter, or to prevent the commission from conducting any investigations it deems relevant in connection herewith. The commission may publish in statistical form the results of any such investigations without disclosing the identity of the individuals involved.

Each such false statement or representation shall constitute a separate and distinct offence.

Any employer or agent of an employer who wilfully makes a false statement or representation to avoid or reduce any contribution or benefit payment required of such employer under this chapter, or who wilfully fails or refuses to pay any such benefit or contribution, or to furnish any reports, audits or information duly required by the commission under this chapter, or makes or requires any deduction from wages to pay any portion of the contributions required from employers under this chapter, or attempts by threats or coercion of any kind to induce any employee to waive any rights under this chapter, shall be punished by a fine of not less than one hundred nor more than five hundred dollars, or by imprisonment for not more than ninety days, or both; and each such false statement or representation, and each day of such failure and neglect, and each such deduction from wages, and each such attempt to coerce, shall constitute a separate and distinct offence. Whenever any act is required or authorized to be done or performed by the department, such action shall be in the name of and on behalf of the city of Boston, and whenever any action is required or permitted to be taken by the city, such act shall be performed by the department, unless otherwise expressly provided.

SECTION 2. Provided the board and the governor approve any public works project as hereinafter authorized, and provided the proper federal authorities approve a grant therefor of federal money under section two hundred and three of Title II of the National Industrial Recovery Act, or under the joint resolution of congress known as the Emergency Relief Appropriation, Act of 1935, and the conditions hereinafter set forth are complied with, the department may construct a tunnel or subway connecting with the present Washington street tunnel at or near the northerly end of the Union-Friend station and extending to a point at or near the present Sullivan square terminal of the company in that part of the city known as Charlestown, and a tunnel or subway connecting with said Washington street tunnel at or near Kneeland street and extending to a point at or near the Dudley street terminal of the company in that part of the city known as Roxbury, or such other point south of said Dudley street terminal as the mayor of the city may determine, or either or any part of such tunnels or subways, and may purchase of the company, in accordance with the provisions of section ten, all its right, title and interest in and to all or any part of the present elevated structure, beginning at and connecting with said Washington street tunnel at its northerly terminus and extending

Any such project, so approved, shall be carried out in all respects subject to the provisions of said Title II or of said joint resolution, as the case may be, and to such terms, conditions, rules and regulations not inconsistent with applicable federal laws and regulations, as the board may establish, with the approval of the governor, to ensure the proper execution of said project. The city may accept and use for carrying out any project, so approved, any grant, or any grant and loan, of federal funds under section two hundred and three of said Title II, or under said joint resolution, as the case may be.

SECTION 3. for such investigations, surveys and the preparation of plans. The department may expend such sum, not exceeding twenty thousand dollars, as it deems necessary therefor, to be paid by the treasurer of the city of Boston, but if construction is begun hereunder the amount so expended shall be charged to and become part of the cost of construction.

No taking, use, purchase, or acquisition under section five shall be made and no work of construction shall be begun unless and until plans for such construction shall be approved by the mayor of the city, and unless and until a contract between the city and the company shall be executed for the sole and exclusive use by the company of the premises and equipment, or such part thereof as is shown on the plans so approved, and for the purchase by the city of the whole or part of the elevated structures of the company, in accordance with the provisions set forth in section ten, and unless and until the approval of the board, the governor and the proper federal authorities provided for in section two shall be obtained. Any plans so approved may be altered at any time by a new plan approved in like manner except that after the execution of said contract no such alteration shall be made without the consent thereto of the company in writing.

SECTION 5. For the purpose of carrying out the provisions of this act, the department may use, without compensation therefor, public lands and ways, and may acquire on behalf of the city by purchase or otherwise, and may take by eminent domain, under chapter seventy-nine of the General Laws or any alternative method now or hereafter provided by general law, lands in fee, including buildings thereon, and easements, estates and rights in land, including the right to go under the surface thereof, or through or under buildings or parts of buildings thereon, or any leasehold rights, or other rights therein or relative thereto, including any and all lands, easements and rights owned by any railroad company; such taking in fee or otherwise may be made whether the land or other rights taken or otherwise affected are held under or by title derived by eminent domain or otherwise, and the department may, for such purpose, acquire for the city by purchase or otherwise, or may take, any property and rights of any kind deemed by it essential to the construction of said public works projects. Such taking in fee or otherwise may be made for the purpose of providing locations for pipes, wires, conduits and other structures, the relocation of which is made necessary or expedient by the construction authorized by this act. A taking or purchase under this section of an easement or other estate or right in a given parcel of real estate or any right taken, whether such parcel or other right taken consists of unimproved land or of land and buildings or rights of any nature, may be confined to a portion or section of such parcel or right

fixed by planes of division, or otherwise, below or above or at the surface of the soil, and in such case no taking need be made of upper or lower portions, or other parts or sections thereof, except of such easements therein, if any, as the department may deem necessary. The department shall, so far as may be practicable, notify all known owners of such takings, but the validity thereof shall not be affected by want of such notice. Any person sustaining damage by reason of property or rights in property taken or injured by the department under authority of this act, except public lands and ways which may be taken and used without compensation as hereinbefore provided, shall be entitled to recover the same from the city under said chapter seventy-nine or under other provisions of law providing an alternative method of taking by eminent domain, as the case may be. The members of the department shall not be liable personally for any such damage. For the purpose of constructing the work authorized by this act the department may enter upon and use the land of others. Any person injured in his property by such entry or use of his land by the department may recover his damages under chapter seventy-nine of the General Laws. To such extent and under such conditions as the mayor of the city may from time to time determine, all action taken by the department under this section shall be with the written approval of the mayor.

SECTION 6. The department may sell the buildings or other structures upon any lands taken by it, or may remove the same, and shall sell, if a sale be practicable, or if not, shall lease, if a lease be practicable, any lands or rights or interests in lands or other property taken or purchased for the purposes of this act, whenever the same shall, in the opinion of the department, cease to be needed for the said purpose. The department may sell any or all of the elevated structures purchased by the city as salvage or otherwise. The proceeds of any such sale or lease shall be used for the payment of costs of construction, or for the payment of interest on the bonds authorized to be issued under section nine or for the payment or the retirement of such bonds, as the department shall determine.

SECTION 7. The department may order the removal or relocation of any surface tracks, and the removal or relocation of any conduits, pipes, wires, poles, or other property located in public ways or places, which it deems to interfere with the laying out, construction or operation of the public works projects authorized by this act, and shall grant new locations for any such structures so removed or relocated. Such orders, to the extent specified therein, shall be deemed a revocation of the right or license to maintain such tracks, pipes, conduits, wires, poles, or other property in such public ways or places, and the owner of any such structures in public ways or lands shall comply with such orders without expense to the city. If any such

owner shall fail to comply with the order of the department within a reasonable time, to be fixed in the order, the department may discontinue and remove such tracks, conduits, pipes, wires, poles or other property, and may relocate the same, and the cost of such discontinuance, removal or relocation shall be repaid to the city by the owner. No such discontinuance, removal or relocation shall entitle the owner of the property thus affected to any damages on account thereof. Any such structure in or upon private lands may be removed and relocated by the department, or, if removed and relocated by the owner thereof, the reasonable expense shall be repaid to him by the department. Any gas or electric lighting company shall shut off the gas or current from any pipes or wires affected by any acts done hereunder, so far and for such time as may be necessary to prevent the escape or explosion of gas, or other public danger. This section shall not apply to facilities on property of the commonwealth under the control of the department of public works or installed under licenses or permits granted by said department, except with its approval.

SECTION 8. All work done under this act, under or near public streets and places, shall be conducted, so far as may be practicable, in such manner as to leave such streets and places or a reasonable part thereof, open for traffic between the hours of seven in the forenoon and six in the afternoon of each secular day, except legal holidays, and as to permit the safe operation of service upon existing elevated structures and connections until beginning of use of the premises by the company.

SECTION 9. For the purpose of meeting the cost of any public works project authorized by this act, the city may borrow from the United States of America or other sources, or both, such sums as may be fixed by the board; and the treasurer of the city may, from time to time, on request of the department, with the approval of the mayor of the city, and without further authorization than herein contained, issue and sell at public or private sale bonds of the city, registered or with interest coupons attached, as he may deem best. Such bonds shall be designated on their face "Tunnel Extension Bonds, City of Boston, Act of 1935". The board shall fix the terms of and maximum rates of interest on such bonds, which terms and rates of interest, in case of obligations to be issued to the United States of America, shall be fixed in accordance with the applicable federal laws and regulations and subject to the approval of the proper federal authorities. All indebtedness incurred by the city under the authority of this act shall be outside the statutory limit of indebtedness of the city and shall not in any way affect or limit the power of the city to borrow under the provisions of section two of Part I of chapter three hundred and sixty-six of the acts of nineteen hundred and thirty-three, as most recently

amended by chapter four hundred and four of the acts of nineteen hundred and thirty-five, or to borrow under any other provisions of law now or hereafter in force.

SECTION 10. The department may, with the approval of the mayor, execute a contract with the company upon the terms and conditions herein prescribed for the sole and exclusive use of the premises and equipment, or any part thereof, by the company for the running of trains and cars therein and thereon, and for such other uses as the department and the company may agree. Said contract shall provide that the company shall convey to the city and the city shall purchase of the company at such time as the department and the company shall agree upon and set forth in said contract all of the right, title and interest of the company in and to the elevated structures described in section two or such part thereof as the department and the company shall agree upon and set forth in said contract and that the company shall receive as full compensation for such conveyance and for any loss or damage which may result to the company by reason of the construction of the premises and equipment, or any part thereof, or by reason of the removal of the elevated structures conveyed as aforesaid, the right to the sole and exclusive use of said premises and equipment, or such part thereof as the department and the company shall agree upon and set forth in said contract, without the payment of rental therefor, for a term of forty years, beginning with the use thereof. Said contract shall further provide that the existing contract for the use of the Washington street tunnel shall not be terminated by either party thereto prior to the expiration of said term of forty years. The use of such premises and equipment shall begin upon certification by the department of public utilities that such premises and equipment are in safe and proper condition for operation. Said contract shall not in any respect impair any right which the commonwealth or any political subdivision thereof may at any time have to take the railway properties of the company or any right which the commonwealth or any political subdivision thereof has under section sixteen of chapter one hundred and fifty-nine of the Special Acts of nineteen hundred and eighteen or under section seventeen of chapter three hundred and thirty-three of the acts of nineteen hundred and thirty-one.

SECTION 11. The provisions of chapter five hundred and fifty of the acts of nineteen hundred and seven, as amended, shall not apply to the work authorized by this act.

SECTION 12. In respect to the use and operation of the premises and equipment, or any part thereof, the company shall have all the powers and privileges, and be subject to all the duties, liabilities, restrictions and provisions set forth in general and special laws now or hereafter in force applicable to it. To provide for proper connections with the premises or any part thereof, the company may make

such alterations or extensions of its tracks and locations as the department may approve.

SECTION 13. Section four shall take effect upon its passage. The remaining provisions of this act shall take effect upon their acceptance by vote of the city council of the city, approved by the mayor, and by the Boston Elevated Railway Company, by vote of its stockholders and by vote of its board of directors, and upon the filing of certificates of such acceptance with the secretary of the commonwealth, provided that such acceptances, approval and filing occur during the current year.

RESOLVE DIRECTING THE COMMISSION ON INTERSTATE COMPACTS AFFECTING LABOR AND INDUSTRIES TO CONSIDER A CERTAIN PROBLEM AFFECTING THE EMPLOYMENT OF PERSONS IN EARLY MIDDLE LIFE AND TO SEEK THE CO-OPERATION OF THE INTERSTATE CONFERENCE ON LABOR COMPACTS IN THE SOLUTION THEREOF. *Chap. 4*

Whereas, There exists at present a difficult problem as to discrimination in employment because of age, which is of common concern to this commonwealth and its sister industrial states, and the solution of which problem is highly desirable; and

Whereas, This problem was referred for investigation and study to a special recess commission which was not able to give due consideration to the relative effect of possible solutions thereof upon this and other industrial states, owing to the inadequacy of time available to dispose of this matter in addition to the other contentious matters referred to it; therefore, be it

Resolved, That the commission on interstate compacts affecting labor and industries is hereby directed to consider so much of the subject matter referred for investigation and study to a special commission under chapter thirty-nine of the resolves of nineteen hundred and thirty-four as relates to discrimination by industry and business against persons in employment who have reached a certain age in early middle life and also to seek the co-operation of the interstate conference on labor compacts in abolishing such discrimination and in eventually placing this class of persons again in employment in industry and business to the end that they may be self-supporting, thereby preventing the possibility of their becoming public charges with the consequent problem of providing additional taxation.

RESOLVE IN FAVOR OF THE WIDOW OF THE LATE ALBERT
PIERCE.

Chap. 64

Resolved, That, for the purpose of promoting the public good and in consideration of his meritorious service in the general court of this commonwealth, there be allowed and paid out of the treasury of the commonwealth to the widow of the late Albert Pierce, who died while a member of the present senate, the balance of the salary to which he would have been entitled had he lived and served until the end of the current session.

(This resolve, returned by the governor to the Senate, the branch in which it originated, with his objections thereto, was passed by the Senate, August 14, 1935, and, in concurrence, by the House of Representatives, August 14, 1935, the objections of the governor notwithstanding, in the manner prescribed by the constitution; and thereby has "the force of a law".)

NUMBER OF ACTS AND RESOLVES APPROVED, APPROVAL WITHHELD, AND LIST OF ACTS VETOED BY THE GOVERNOR AND PASSED OVER HIS VETO.

The general court, during its first annual session held in 1935, passed 494 Acts and 63 Resolves, which received executive approval, and 3 Acts from which executive approval was withheld but have become law by virtue of chapter 1, section 1, Article 2 of the Constitution of the Commonwealth.

The governor returned 10 Acts and 4 Resolves with his objections thereto in writing. Upon 9 of said Acts and 3 of said Resolves his objections were sustained.

Three (3) Acts entitled, respectively, "An Act removing certain restrictions relative to the sale of alcoholic beverages near the Nantasket Beach reservation" (Chapter 41); "An Act relative to the retirement allowance of Harriet Alice Smith under the state retirement system" (Chapter 400) and "An Act increasing the number of assistant district attorneys in the Suffolk and southeastern districts and establishing the salaries of the district attorneys for the northwestern and western districts and of certain assistant district attorneys" (Chapter 458) were passed, but failed to receive executive approval; as, however, they were not returned, with objections thereto, within five days after they had been received in the executive department, the general court not having been prorogued in the meantime, said acts have the force of law, under the provisions of the Constitution governing such cases, and have been so certified.

Nine (9) Acts entitled, respectively, "An Act increasing the membership of the board of health of the city of Revere"; "An Act exempting veterans of the Spanish War, the Philippine Insurrection or the China Relief Expedition from certain requirements of the civil service laws"; "An Act authorizing preliminary proceedings to simplify and render more effective the administration of constitutional provisions for the retirement and removal of certain judicial officers"; "An Act authorizing the appointment of an additional court officer for the municipal court of the Roxbury district and for the district court of Chelsea"; "An Act placing under civil service the offices of deputy superintendents of police of the city of Boston"; "An Act placing the office of superintendent of police of the city of Boston under the civil service laws"; "An Act providing for reimbursement to cities and towns by the commonwealth for loss of taxes on certain land used for purposes of state parks"; "An Act regulating and restricting the erection, alteration and use of buildings and structures and of advertising signs and devices upon a certain state highway known as the Concord turnpike"; "An Act relative to the redivision of the city of Boston into wards and to the enumeration

of the legal voters therein" and three (3) resolves entitled, respectively, "Resolve in favor of Clara Dumas of Leicester"; "Resolve in favor of Sebastian Sarna of Amherst" and "Resolve in favor of John E. Sullivan of Springfield" were passed and laid before the governor for his approval; were returned by him with his objections thereto, to the branch in which they respectively originated; were reconsidered, and the vote being taken on their passage, the objections of the governor thereto notwithstanding, they were rejected, and said acts and resolves thereby became void.

One (1) Act entitled "An Act authorizing the city of Somerville to appropriate money for the use of the school savings bank of the city of Somerville" (Chapter 130) and one (1) Resolve entitled "Resolve in favor of the widow of the late Albert Pierce" (Chapter 64) were passed and laid before the governor for his approval; were returned by him with his objections thereto, to the branch in which they respectively originated; were reconsidered, agreeably to the provisions of the constitution, and the vote being taken on their passage, the objections of the governor thereto notwithstanding, they were passed, and said act and resolve have thereby the force of law.

The general court was prorogued on Thursday, August 15, 1935, at twenty-three minutes past four o'clock A.M., the session having occupied 226 days.

Section 114A provides that the Commissioner of Conservation may suspend the operation of section 105B for a period not exceeding thirty days within any specified territory under the control of his department.

The law also provides for the submission, by the selectmen to the voters at a special town meeting in the current year, upon petition, of the question as to whether the provisions of section 105B shall be suspended in any town; and which was approved by both branches of the General Court by vote not recorded, be approved?
